Suggestions For Ordering

Phone CEntral 4100

ORDER EARLY

Phone CEntral 4100

WE WISH TO IMPRESS UPON YOU THE ADVANTAGE OF EARLY ORDERING. It is not only a convenience to us but it is also for your sake that we request this. Avoid the spring rush and have your seeds when you want them. They will not spoil, and the delay necessarily attendant during the spring will be eliminated. You will not be waiting for your seeds, when you should be planting. Our service will please you even during the busy season. Send your order now.

Unknown correspondents desiring to open an account will furnish three references from parties in the trade with whom they have had credit relations, otherwise cash must accompany order.

Remittances should be made by Post-Office Money Orders, Drafts on St. Louis Banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

In filling out your order always give Shipping Directions, and write Name and Address distinctly on each and every order.

PARCEL POST—Customers living on R. F. D. routes, and beyond express delivery, will aid us by stating: "Goods reach us by Parcel Post only," to avoid mistakes in sending by express.

ALL PRICES on VEGETABLE SEEDS are net, but on PACKETS, OZS., and ¼ lbs. WE PREPAY POSTAGE.

PURCHASER PAYS TRANSPORTATION on Plants, Shrubs, Potatoes, Farm Seeds, Grass Seeds, Implements, Sundries and Poultry Supplies; also Seed by pound, gallon, peck and bushel.

EXPRESS AND FREIGHT CHARGES on large quantities, are cheaper than Parcel Post. We charge no cartage to depots or the Express Company offices, nor do we charge for boxes, packing or for small muslin bags.

When seamless cotton bags are required they must be remitted for; 50c each. Burlap, 15c each.

PARCEL POST RATES FROM ST. LOUIS

United States Parcel Post Rates (Seeds, plants and bulbs included)	First pound or fraction	Each additional pound or fraction	Packages must not exceed 84 inches (length and girth combined).
Local Rate	\$0.07	\$0.00 ½	Limit of weight this zone, 70 lbs.
1st Zone, within 50 miles of St. Louis07	.01	Limit of weight this zone, 70 lbs.
2d Zone, over 50 and under 150 miles08	.01	Limit of weight this zone, 70 lbs.
3d Zone, over 150 and under 300 miles08	.02	Limit of weight this zone, 50 lbs.
4th Zone, over 300 and under 600 miles09	.04	Limit of weight this zone, 50 lbs.
5th Zone, over 600 and under 1000 miles10	.06	Limit of weight this zone, 50 lbs.

All small Parcel Post packages (seeds, plants and bulbs included), weighing 4 ounces or less, can be sent at the special rate of 1 cent for each 2 ounces or fraction to all parts of the United States. (Over 4 ounces must be sent at Parcel Post rates.)

Kindly Remit for Postage when it is necessary.

ABOUT WARRANTING SEEDS

Though the utmost care is used in grading and selection, we cannot be absolutely certain of the description or quality of seeds or plants, nor can we forecast the conditions under which they may be grown. Therefore, it is impossible to give any guarantee, and the contents of our packages are sold with that understanding. We shall gladly refund your money if you prefer not to accept the goods on those terms.

ST. LOUIS SEED COMPANY

FOR INDEX SEE INSIDE FRONT COVER

St. Louis Seed Co. Havalawn Grass Seed

ESPECIALLY ADAPTED TO THIS LOCALITY AND WILL INSURE A FINE, VELVETY LAWN

Every package bears our Green Label. No other is genuine.

TO INSURE a perfect lawn, there are several requisites; a good depth of rich soil, properly drained, a liberal dressing of good fertilizer; a firm, smooth surface upon which to sow the seed and Havalawn Grass Seed. The latter item is of the greatest importance.

Havalawn is a mixture of the hardiest grasses that enter into any grass seed mixture. Havalawn insures a steady succession of growth—there will be no break in the richness of the verdure from Spring until Winter.

Year after year a steady demand for Havalawn has made it stand out as the one real mixture. Its component parts are such seeds as help build a deep-rooted soil; that come up quickly to start the lawn; that keep the smooth lawn fresh and bright all through the Summer. Only seeds that produce fine velvety lawns are used. Timothy and orchard grass are excluded on account of their coarseness.

Every package of HAVALAWN bears our green label. There is none genuine without it.

Price: Lb., 50c; 3 lbs., \$1.45; 10 lbs., \$4.50; 25 lbs., \$10.25; 100 lbs., \$35.00.

Complete List of Lawn Grasses on Page 38

VIGORO

Specially prepared plant food

25 lbs., \$1.75

50 lbs., \$3.00

100 lbs., \$5.00.

VIGORO is manufactured from specially selected materials, each of which was carefully tested to make sure it would give the very best results. It is formulated and scientifically processed, and furnishes plantfood in such a way as to insure proper growth, beauty and production of all plants.

VIGORO supplies just the right kind and amount of plantfood, not only to give the plant that good start in the early spring, but also to keep it growing and in good vigorous condition all during the growing season.

VIGORO produces velvety lawns, more and prettier flowers, full foliaged shrubbery, delicious vegetables and leafy trees. It is the ideal plantfood for whatever you grow. 100 lbs. will cover Lawn 40x100 feet.

For Other Fertilizers, See Page 112

General List of Highest Grade Vegetable Seeds

IT HAS always been our endeavor to list only such sorts of vegetable seeds as, from our tests and experience, we have found to be of superior merit. In many instances, we have stricken out varieties that were out of date, but have always listed a superior sort that we could honestly recommend as better for the home garden as well as for the market gardener.

To the market gardener, we know that he is well acquainted with the varieties and the various vegetables that prove the most satisfactory and profitable for his neighborhood. To him we can only say that "Pure and Sure" Seeds of any variety he plants will be the best investment he can make.

Our sources of supply are the very best and our strict tests for germination and vitality assure all who plant "Pure and Sure" Seeds that as far as the seeds are concerned, all that human hands can do to make them the very best has been done.

With this in mind, we are sure you will not hesitate about sending us your order for seeds for the coming spring, and we in turn have no doubt that you will ever be disappointed with the results from "Pure and Sure" Seeds.

ASPARAGUS

One ounce will sow about 50 feet of drill.

The asparagus seed furnishes the first green delicacy for our table in the Spring, is universally popular, and requires but little care for its successful cultivation.

To secure the choice early stalks the land selected for an Asparagus bed should be a warm rich loam, preferably exposed to the south. Manures and fertilizers must be used lavishly to secure the best results. Plants can be easily raised from seed.

We also offer the roots two years old, which will become established in a single season. One ounce of seed will sow about 50 feet of drill. For the home garden, set the plants about 12 inches apart and about 3 feet between the rows.

When ordering, ask for our free leaflet on Asparagus Culture.

Washington The New Giant Rust-proof Variety. This new sort is the result of many years' work in plant breeding by the U. S. Department of Agriculture. The Washington is a rust-resistant, vigorous, high yielding strain of Giant Asparagus. An asparagus bed is a permanent investment, therefore plant the best obtainable, whether you figure on a small bed in your home garden or on a ten acre field for market.

Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

Early Giant Argenteuil This variety has thus far been free from rust. Very early, producing an even growth and a large yield.

Pkt., 5c; oz., 10c; ¼ lb., 30c; 1 lb., 75c.

Palmetto Light green, heavy yielding, early producing, large clear stalks of excellent quality. Very early.

Pkt., 5c; oz., 10c; ¼ lb., 30c; 1 lb., 75c.

ASPARAGUS ROOTS

CULTURE—The demand for Asparagus as an early spring vegetable is becoming quite popular. An Asparagus bed intended for family use can be quickly established by the planting of roots, which should be set out in the spring in rich soil. Dig a trench about 2 feet deep and 1½ feet wide, and fill to about one foot from the surface with soil and well-rotted manure. On this put about six inches of good garden soil and lay the roots 12 inches apart, then fill up, leaving the crown about 4 inches below the surface. Asparagus should not be cut until the second year.

Extra-choice Two-year Roots.

	Doz.	4 Doz.	8 Doz.	1000
Palmetto	\$0.25	\$0.95	\$1.75	\$15.00
Washington (rust proof)	\$0.25	\$0.95	\$1.75	\$16.00

ARTICHOKE

CULTURE—In February or March sow in hotbed, transplant to the open in May in rows three or four feet apart and two feet apart in the rows. Should give globes the same year. Seed sown in May and transplanted in June has to be Wintered. Tie up leaves, then bank with dirt; will mature the second year.

Giant Green Globe Produces large globular heads, thick, succulent scales, the bottom of which is the edible part. Boiled till tender, it makes a delicious dish.

Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.50.

ASPARAGUS—By Hexamer. A reliable treatise on Planting, Cultivating, Cutting and Use of Asparagus.

Price, \$1.25 postpaid.

Dwarf or Bush Beans

2 pounds will plant 200 feet of drill.

NOTE: If in the market for 100 lbs., or over, write for price.

CULTURE—Plant about the first of May in rows, placing the seeds 2 to 3 inches apart in drills about $2\frac{1}{2}$ inches deep. The rows should be about $2\frac{1}{2}$ feet apart, and the soil slightly hilled, to insure good drainage and keep the Beans from touching the ground. Most Beans should be picked when about 4 inches long. Frequent pickings insure a more prolonged bearing season. Avoid jerking the plant, as this frequently disturbs young feeding roots. Use the finger-nails to sever the stems. Do not pick when bushes are wet, as this may cause blight and rust. For succession plant every two weeks up to August 1.

GREEN PODDED VARIETIES

At the following prices on Beans, packets and quarter pounds are sent prepaid, all larger quantities are shipped at purchaser's expense; if wanted by parcel post, add postage at rate. (See Page 1).

Mohawk Early Hardest of any early Bean; will stand a slight frost and for this reason is excellent for the market gardener. Pods, long, straight, flat and green.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 5 lbs., \$1.40; 25 lbs., or more per lb., 24c

Black Valentine A Bean which has been planted extensively in the South on account of its heat-resisting qualities. Matures early, producing long, round, straight pods.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 5 lbs., \$1.30; 10 lbs., \$2.25; 25 lbs., or more per lb., 20c.

Longfellow Remarkably early and has excellent flavor; its delicacy remains almost intact when prepared for the table. The pods are about six and one-half inches long. Pale green in color, straight and round; very productive and crop matures very regularly. Beans are small, mottled dark red.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 5 lbs., \$1.30; 10 lbs., \$2.25; 50 lbs., or more per lb., 20c.

St. L. S. Co.'s Stringless Bountiful This superior variety is a distinct improvement in green Bush Beans and has become exceedingly popular wherever known. Rich, green flat pod, of a large size, solid, meaty and of a delicious flavor. The pods are extra long and of a uniform shape and size.

Pkt., 10c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 5 lbs., \$1.65; 10 lbs., \$3.00; 50 lbs., or more per lb., 25c.

Valentine, Improved One of the best extra early for home use or market. Extra early and is usually ready for harvesting from thirty-five to forty days after planting. Vines strong and vigorous; pods green, medium length, curved, with creases in the back, very fleshy, crisp and tender.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 5 lbs., \$1.30; 10 lbs., \$2.25; 50 lbs., or more per lb., 20c.

Stringless Green Pod A very desirable dwarf green podded snap sort for the home garden and largely grown for the market. The plants are large, spreading and productive. The pods are medium green, five to six inches long, cylindrical, larger than those of Red Valentine but are quite as fleshy, of equally high quality and remain crisp and tender longer. They mature a little later. Seed of medium size and length, yellowish brown.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 5 lbs., \$1.40; 10 lbs., \$2.25; 50 lbs., or more per lb., 22c.

Giant Stringless Green Pod An exceedingly productive and very handsome sort. The plants are large, vigorous and spreading. The pods are large and nearly round, and of medium green color. They mature a few days later than those of Stringless Green Pod, average about one-fourth inch longer and more nearly straight. The quality is very good for snaps for home use. The variety is suitable also for the market.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 40c; 5 lbs., \$1.65; 10 lbs., \$3.00.

White Navy The famous little white soup bean that needs no further introduction. Very prolific and a sure cropper.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 30c; 5 lbs., \$1.00; 10 lbs., \$1.75.

Full Measure

Full Measure In great demand in the eastern states. Fine stringless medium green pod of high quality. The pods are straight, 6 inches long, very fleshy, almost round, crease-backed, and are tender.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 5 lbs., \$1.40; 10 lbs., \$2.25; 50 lbs., or more per lb., 22c.

MAKE GARDENING A REAL PLEASURE

BY MAKING up your order from this catalog, for your spring garden, we are sure you will have satisfaction, as we list only standard varieties of seeds which are used by the leading market-gardeners.

Plant our "Pure and Sure" Seeds for best results.

Wax-Podded Bush Beans

NOTE: If in the market for 50 lbs., or over, write for price.

At the following prices on Beans, packets and quarter pounds are sent prepaid, all larger quantities are shipped at purchaser's expense; if wanted by parcel post, add postage at rate on Page 1.

St. L. S. Co.'s White Wax This round-podded Dwarf Wax Bean has attained the top notch among Beans of this class. It produces no culls, the pods average five to six inches in length, a round-podded, wax variety; they are very solid, meaty and tender, free from string, breaking brittle, and the flavor is unsurpassed.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.30; 25 lbs., \$5.50.

Davis Wax A very hardy and productive variety. Pods invariably long, 6½ or 7 inches, light yellow, straight and handsome and when young are crisp and tender.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.30; 25 lbs., \$5.50.

Golden Wax One of the best for home garden. Pods long, nearly straight, broad, flat, golden, yellow and very fleshy.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.30; 25 lbs., \$5.50.

Pencil Pod Wax This very handsome black wax sort is medium early, fairly hardy and productive. It is one of the very best sorts for home use and for near markets where highest quality is desired. The plants are strong growing with roughened leaves. The pods are long, five and one-half to six inches, straight, round, fleshy and of a bright yellow color. They are tender, absolutely stringless and are produced through a long season. Seed long, round, medium sized, solid black.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.30; 25 lbs., \$5.50.

Wardwell's Kidney Wax This standard variety maturing a little later than Golden Wax, yields a large crop of long, nearly straight, broad, light golden yellow, handsome pods. These are of large size, about six inches long, and are of good quality. They always command a ready sale, making the variety one of the most profitable for the market gardener as well as shipper.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.30; 25 lbs., \$5.50.

Pole Beans

GREEN PODDED SORTS

CULTURE—Pole beans are more sensitive to cold than the bush kinds, and should not be planted before the ground is warm—in this latitude, after May 1st. Set poles 6 to 8 feet long, 3 to 4 feet apart, in 4-foot rows and plant five or six beans 2 inches deep around each pole.

St. L. S. Co.'s White Cornfield

St. L. S. Co.'s White Cornfield An early maturing, green podded, white seeded pole sort, desirable for snaps and unsurpassed in its class as green shell beans. The vines are vigorous and very productive. The pods are round, very long, often eight to nine inches, irregular in shape and quite stringless. The beans when shelled green are large, very tender and white, a very desirable feature when comparison is made with the colored beans of other varieties of this class. Seed medium long, oval or well rounded, solid white.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.30; 50 lbs., or more per lb., 20c.

Kentucky Wonder Also known as Old Homestead. We believe this variety is the most practically useful of the green podded pole beans suitable for use as snaps. It is an early, very prolific sort, with showy pods which are of most excellent quality. The vines are vigorous, climbing well and very productive, bearing pods in large clusters. The pods are medium light green, very long, often reaching nine or ten inches, curved and twisted, nearly round and very crisp when young, becoming very irregular and spongy as the beans ripen. Seed long, oval, slightly flattened, dun colored. One of the very best early pole snap beans for the home garden or market. The quality of our stock is unsurpassed.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.30; 50 lbs., or more per lb., 20c.

Lazy Wife The pods are of a medium dark green color and grow from 5 to 7 inches in length. They are broad, thick and very fleshy.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.30.

We deliver free in the U. S. all vegetable and flower seeds by the packet, ounce or quarter pound.

New Improved Bush Lima

Lima Beans

(Dwarf Bush)

(By Parcel Post, add Postage; see Page 1)
2 lbs. will plant 200 feet of drill

PLANT in light, rich soil, drills 2 feet apart, dropping the seeds about 1 foot apart in the row and cover 2 inches.

Burpee's Bush Lima A true bush form, growing 18 to 20 inches high. An immense yielding variety, each bush being laden down with Large Limas of the most luscious flavor. Its vigorous growth and large pods make it stand out as one of the finest Bush Limas. **Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.50; 25 lbs. or more, per lb., 22c.**

Fordhook Bush Lima An improved dwarf lima. It is sometimes called Potato Bush Lima. The plants are vigorous and erect, bearing well above the ground. The pods, which are produced in large clusters, are medium green, about four and three-fourths inches long and each contains three to five large beans of exceptionally fine quality. **Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.50; 25 lbs. or more, per lb., 22c.**

Henderson's Bush Lima A famous variety, grows in compact bush form and produces enormous yields of delicious Lima Beans. **Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.25; 25 lbs. or more, per lb., 20c.**

New Improved Bush Lima Similar to the Burpee's Bush Lima, except in size it is smaller. The sturdy bushes are loaded with large, well-filled pods. **Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.50; 25 lbs. or more, per lb., 22c.**

Broad Windsor An old-fashioned English shell Bean. This Bean is very hardy; it should be planted as early as the ground will permit. Dry beans very large and yellowish green. **Pkt., 10c; ½ lb., 25c; 1 lb., 40c.**

Pole Lima Beans

CULTURE—A warm, sandy loam, enriched with well-rotted stable or sheep manure is best. Must not be sown until the ground is warm and dry. When poles are used for support they should be set not less than 4 feet apart each way. Plant 4 to 6 beans to a pole, 2 inches deep.

St. L. S. Co.'s These beans have a creamy-white color, in large pods, and are far more delicious than the ordinary Lima Bean. The vigorous vines, with plenty of pods, will supply you with the most delicious Butter Beans you ever tasted. **Pkt., 10c; ½ lb., 25c; 1 lb., 45c; 5 lbs., \$2.00; 25 lbs. or more, per lb., 30c.**

King of the Garden The true "King" of the Limas. Stronger and more productive than any of the large White Limas and is the favorite of the market gardeners on account of its long, well-filled pods, which are numerous and of mammoth size. **Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.50; 25 lbs. or more, per lb., 22c.**

Extra Early Jersey Very productive and of fine quality. It is especially valuable to those residing in districts where the season is too short to produce later ones as it is from 10 to 15 days earlier than any other pole Limas. **Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 5 lbs., \$1.50; 10 lbs., \$2.50.**

King of the Garden

Beets

One ounce will sow 100 feet of drill; 5 to 6 lbs. to the acre.

Price Postpaid.

CULTURE—Seed should be sown the first part of April. The ground should be spaded well and deep, placing rows about 18 inches apart, and the drills 1 inch deep. When seedlings appear about 3 inches above ground, thin out to about 4 inches between the plants so as to give ample room for the proper development of the bulbs.

For winter use the turnip varieties may be sown in June or July so as to mature late in the season. The roots are stored in a cellar and covered with sand to prevent wilting, or they may be kept outdoors in pits such as are used for apples and potatoes.

Extra Early This is the best variety for forcing. It is also excellent for first early crop outdoors, being very early, with small tops. The leaves are dark green, shaded and veined with dark red. The roots are very dark red, moderately thick, a little rounded on top, distinctly flat on the bottom. A popular market garden sort.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 30c; lb., 75c.

Early Wonder (Selected). This is the earliest and most perfectly shaped Beet for bunching purposes. Its beautiful deep blood-red, nearly globular shaped root, small-sized top and small clean tap-root. The attractive appearance, uniformity of size, shape and color, and excellent keeping qualities have created a very heavy demand for this variety; valuable for market garden.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; 1 lb., 90c; 5 lbs., \$4.00.

Early Wonder

Crosby's Egyptian (Selected). The roots are flattened globe shaped and very smooth. The exterior color of the root is bright red. The flesh of our strain is bright vermilion-red, zoned with a lighter shade, very sweet, tender and of excellent quality. This is one of the best for early planting outdoors and is much used for bunching. Our stock is exceptionally uniform in shape and color. It is the favorite of the market gardeners.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; 1 lb., 90c; 5 lbs., \$4.00.

Detroit Dark Red (Selected). We believe this is the best beet for the market and home garden, and on account of its uniformly deep rich color the most desirable for canning. The tops are small and upright in growth. The leaves are dark green, shaded with red. The roots are medium sized, globular or nearly round, very smooth and of dark blood red color. The flesh is deep vermilion-red, zoned with a lighter shade of the same color.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; 1 lb., 90c; 5 lbs., \$4.00.

Improved Crimson Globe A handsome variety of medium size and entirely free from rootlets, as its name implies, it is a perfect globe-shaped Beet.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., 75c.

Edmand's Blood Turnip A desirable second early market beet, suitable also for the home garden. Roots nearly round; color dark red; crisp, tender, sweet and an excellent keeper.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 25c; lb., 75c.

Half Long Dark Blood A standard late variety of very good quality which keeps well through the winter. The roots are smooth, rather slender. Flesh is dark red, tender and sweet.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; 1 lb., 90c.

Detroit Dark Red

Swiss Chard or Spinach Beet

CULTURE—Same as for beets; transplant 12 inches apart in rows 18 inches apart. Sow seeds in the Spring, as for common beets.

Grown for its leaves only; one of the best early green. Cook the leaves as you do spinach and the stems in cream as asparagus. Leaves grow to enormous size, 20 inches to 2 feet in length.

Swiss Chard (Sea Kale Beet). This kind of beet is grown exclusively for the numerous, fleshy, tender leaves and leaf stalks, which are superior to those of other beets for use as greens. Later in the season the wax-like leaf stems are cooked like asparagus or are pickled. This variety we offer has large, broad, undulated leaves of attractive yellowish green color, and very large, broad white stalks and midribs or chards. It is well worthy of a place in the home garden as well as for market use. Swiss Chard is sometimes called Leaf Beet, Spinach Beet and Silver Beet. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., 60c.

Lucullus A delicious variety having pale green leaves which are remarkably crimped and curled, like savoy cabbage. The stiff ribbed chards are white and broad but not so broad as the common variety, although equally fine in flavor.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., 60c.

Swiss Chard

Mangel Wurzel

For Stock Feeding.

THE MANGEL WURZEL, also called Mangel. Cattle Beet and Field Beet, may be grown in almost any soil, but deep loams are necessary for heavy yields of the long varieties. When well grown the roots give an immense yield of very valuable food for stock. Plant early in spring in drills two to two and one-half feet apart, and about one inch apart in the row, covering with about one and one-half inches of fine soil firmly pressed down. Cultivate frequently. When about three inches high begin thinning and continue at intervals until the roots stand about ten inches apart.

Brussels Sprouts

Giant Half Sugar Mangel Desirable for stock feeding, affording not only a very large crop much easier to harvest than other sorts but also having higher nutritive value, being especially rich in sugar. The roots are light bronze green above ground, grayish white below, with white flesh.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 50c.

Improved Mammoth Long Red The roots are very large, uniformly straight and well formed and comparatively thicker than the common sort. The flesh is white tinged with rose. This strain under careful culture is enormously productive. Our stock will produce the largest and finest roots which can be grown for feeding stock. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 50c.

Golden Tankard The tops are comparatively small, with the leaf stalks and veins distinctly tinged with yellow. The neck is small. The roots are large, ovoid, but with bottom usually of larger diameter than top, light gray above ground, deep orange below.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 50c.

Klein Wanzleben (Sugar Beet). This variety is without question the best in cultivation. Not the largest in size, but the richest in saccharine.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 50c.

Brussels Sprouts

BRUSSELS SPROUTS are highly esteemed for boiling during the late fall and winter months. The sprouts resemble miniature cabbages, growing closely on the stalk of the plant, and are produced in abundance from tip to ground level. The plants are hardy, and in our section will live throughout the winter without protection. The quality and flavor of the sprouts are much improved by frost.

Seed should be sown thinly in drills early in June. When the young plants are 6 inches tall, they should be transplanted to rich soil, setting them in rows 3 feet apart.

Roseberry The choicest variety obtainable and highly valued on account of its strong, robust growth and remarkable juicy, tender heads. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 90c.

Borage See Herbs, page 32.

Cauliflower

One ounce of seed will produce from 3,000 to 4,000 plants.

CAULIFLOWER, although one of the most delicious vegetables, is but little grown except by professional gardeners because of the erroneous notion that it is so difficult to grow that only skilled gardeners can produce it. Any one will be reasonably sure of success with this most desirable vegetable if the cultural directions given below are carefully followed.

For spring and early summer crop, sow in February or early in March in hotbed. If soil is not too wet, seed should be thoroughly pressed into the ground after sowing. This insures quick germination. Cover seed with one-half inch of fine soil firmly pressed down. Transplant to cold-frame when sufficiently large to handle. As soon as danger of hard freezing is over set in the open ground in rows two and one-half to three feet apart and eighteen inches apart in the row. The plants will endure a light frost. The soil for cauliflower should be like that for cabbage, but it is better if made richer than is ordinarily used for that crop. Plenty of good manure must be well incorporated with the soil and the latter be brought into the highest state of tilth. No application, however, can be more necessary or more useful than that of cultivator and hoe.

All the cauliflower seed we offer is produced by the most experienced growers in Europe, in such localities as are best suited to its proper development and the greatest care is taken to save seed from perfectly developed plants only.

St. L. S. Co.'s Earliest Dwarf, Erfurt, Extra Select

St. Louis Seed Co.'s Early Perfection Erfurt Forcing

In this we have a strain that comprises all the fine points in Cauliflower. It is gorgeous beyond description, snowlike in color and its growth of the compact form that will delight the grower. For an early forcing variety it cannot be equaled and is worthy of a trial.

Pkt., 15c; $\frac{1}{4}$ oz., 90c; $\frac{1}{2}$ oz., \$1.75; 1 oz., \$3.00.

Early Snowball

Unquestionably the earliest maturing strain of the true short leaved Snowball type of cauliflower. It is admirably adapted for forcing or wintering over for early crop and is the most popular sort for these purposes, also one of the best sorts for late summer and fall crop. Early Snowball is, moreover, a most desirable sort for the home garden. The plants are compact, with few short, outside leaves and are well suited for close planting. The heads are of medium to large size, solid, compact, round, very white.

Pkt., 15c; $\frac{1}{4}$ oz., 75c; 1 oz., \$2.50; $\frac{1}{4}$ lb., \$8.00.

Extra Early Dwarf Erfurt

A remarkably sure heading early cauliflower. It is of dwarf habit with short outside leaves and is similar in most respects to Early Snowball, and nearly as early. The heads when ready for market are of medium to large size. The curd is white, exceptionally deep and of finest quality. It will give excellent results either in the home garden or for market use and is superior to most seed sold at higher prices. Where extreme earliness is not the greatest consideration we recommend this strain after having proven it superior to many stocks offered as Snowball.

Pkt., 15c; $\frac{1}{4}$ oz., 75c; 1 oz., \$2.50; $\frac{1}{4}$ lb., \$8.00.

CELERY OR CHINESE CABBAGE

Chinese Improved or Pe-Tsai

The strain we offer resembles when well grown Cos Lettuce rather than Cabbage. It is often called Celery Cabbage on the market. The leaves when young are crimped, of light green color and appear like smooth leaved mustard but with much broader and heavier midribs. The plant as it matures becomes more upright and forms heads much like Cos Lettuce. The inner leaves blanch an attractive light yellow or creamy white with very white midribs. It is of distinctive flavor, very mild and pleasant. It is served as a salad like lettuce or cooked like asparagus.

Pkt., 10c; 1 oz., 25c; $\frac{1}{4}$ lb., 75c.

Chinese Improved or Pe-Tsai

Cabbage (Price Postpaid)

One ounce will produce about 2,000 plants; $\frac{1}{4}$ pound seed in beds will produce plants for one acre.

CULTURE—Sow the early kinds in hotbeds in February and March, and in the open ground in April and May. The late varieties for fall and winter use sow in May, and transplant from the 8th to the 25th of July. Plant the early sorts 20 inches distant in a row and 2 feet between the rows; the later sorts 2 $\frac{1}{2}$ feet each way. To be well-grown, Cabbages require a deep, rich loamy soil. Our Cabbage seed is especially grown for us, and we offer it as being of superior quality.

New Golden Acre

Copenhagen Market This is without doubt the best early round-headed cabbage and that its wonderful merits are appreciated is demonstrated by the large plantings made of this variety. The type is thoroughly fixed and the heads maturing at the same time, which makes it so popular and the great favorite of the market gardener. It means less cost in harvesting. It is a vigorous grower and yields an excellent keeper. The leaves are of a light green color and tightly folded together in a remarkably solid and compact form. The heads average 5 pounds in weight, are solid and firm. Don't experiment with a cheap strain of this famous variety.

Pkt., 10c; $\frac{1}{2}$ oz., 20c; oz., 35c; $\frac{1}{4}$ lb., \$1.00; 1 lb., \$3.50.

Copenhagen Market

The New Golden Acre A very fine new sort from Denmark. It is very uniform, almost every head could be cut at the same time. Golden Acre matures quicker than any variety known. The head is of medium size, quite round, and is surrounded by a few small outer leaves. It is very firm and fully equal to any of the late sorts in this respect. On account of its hardness it will stand in the field for a month or more without bursting and can be shipped long distances and arrive in excellent condition. Don't fail to give the New Golden Acre a trial.

Pkt., 10c; $\frac{1}{2}$ oz., 25c; 1 oz., 40c; $\frac{1}{4}$ lb., \$1.35; 1 lb., \$5.00.

Early Jersey Wakefield Many market gardeners consider this the very best early variety. Grown extensively for market and shipping. Its merits are many, among which are large heads for an early sort, small outside foliage and uniformity of crop. Pyramidal in shape having a blunted or rounded peak; very sweet. The seed we offer is from the very best growers and is sure to give satisfaction.

Pkt., 10c; $\frac{1}{2}$ oz., 15c; oz., 25c; $\frac{1}{4}$ lb., 75c; 1 lb., \$2.50.

Charleston, Wakefield

Large Charleston Wakefield A selection from Early Jersey Wakefield, only it is about one week later than that popular early variety and grows larger heads, often averaging 8 to 10 pounds. Very solid and of fine quality.

Pkt., 10c; $\frac{1}{2}$ oz., 15c; oz., 25c; $\frac{1}{4}$ lb., 75c; 1 lb., \$2.50.

Henderson's Early Summer This is one of the best of the large, early cabbages and is exceedingly valuable to the home or market gardener. The heads are larger than the Wakefield type and only a few days later.

Pkt., 10c; $\frac{1}{2}$ oz., 15c; oz., 25c; $\frac{1}{4}$ lb., 75c; 1 lb., \$2.50.

Cabbage—Continued

Prices Postpaid

Improved Brunswick Ours is the true short stem type. Good for early and late crops, and attains an extraordinary large size. Pkt., 10c; ½ oz., 15c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.50.

All Seasons or Surehead The name best describes this variety as it is sure-headed of the flat Dutch type of heads and a first-class main crop. The heads are very large, extremely hard and solid. This certainly is the great all-year-round cabbage. Pkt., 10c; ½ oz., 15c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.50

Glory of Enkhuizen This second early variety is very sure heading and of excellent quality. The plants are of vigorous growth, with large, rather spreading outer leaves which are noticeably curved and frilled. The heads are globular or very nearly round, very solid and of large size for so early a variety. Pkt., 10c; ½ oz., 15c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.50.

Superior Late Flat Dutch We recommend this sort for markets that require a very large and deep head. The plants are large, fairly compact but distinctly vigorous, with medium length stem and large outer leaves, which are upright in growth and moderately waved. The heads are uniformly large. Pkt., 10c; ½ oz., 15c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.50.

American King Mammoth solid heads, weighing from 8 to 12 pounds. Its chief points of merit are its absolute reliability of a sure crop, its uniformly large size of head, its great drought and worm-resisting qualities. A distinct feature of our American King is the small number and small size of the ribs. Pkt., 10c; ½ oz., 20c; oz., 35c; ¼ lb., \$1.00; 1 lb., \$3.50.

St. Louis Late Market This strain is the result of much care on our part to develop and maintain the good qualities which have made this sort so popular. The plants are very hardy, comparatively slow growing but very sure heading; stem rather short. The plants are exceptionally vigorous, with very large, broad, spreading outer leaves which are moderately smooth or very slightly waved and slightly blistered. The

St. Louis Late Market

heads are uniformly large, often very large, flat but deep, distinctly flattened on the top, solid and of excellent quality. This is considered by many as the standard, very large late cabbage for home garden and market. It is an excellent keeper.

Pkt., 10c; ½ oz., 20c; oz., 30c; ¼ lb., 90c; 1 lb., \$3.00.

Hollander or Danish Ball Head Very hardy, sure heading, very solid, of good quality and as one of the very best keepers this is particularly desirable for distant markets or for late spring use. The leaves are distinctly upright in growth, few but rather large, long and narrow, thick, smooth, bluish green covered with whitish bloom. The heads are medium sized, round, exceptionally solid and stand shipment better than any other late sort.

Pkt., 10c; ½ oz., 15c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.50.

RED CABBAGE

Early Red Erfurt This is a favorite variety with those who like Red Cabbage. The heads grow medium size and are practically ball-shaped. They are as solid as a rock and of an intense, deep red color. The quality is superb, with tender, juicy leaves. Keeps well during the winter and early spring. Pkt., 10c; ½ oz., 25c; oz., 40c.

Mammoth Rock Red The largest and surest heading red cabbage. The plants are large and vigorous with medium length stem and spreading outer leaves which are dark green with red veining. The heads are late maturing, large, round, very solid and of very attractive deep red color. The variety is much used for cole-slaw and pickling. Pkt., 10c; ½ oz., 25c; oz., 40c.

SAVOY CABBAGE

Perfection Late Savoy The best of the main crop and late Savoys for home use or market. The plants are vigorous, of medium size, with rather short stem, and are very sure heading. The outer leaves are medium large, thick, fleshy and densely and uniformly crumpled. The heads are large, neatly round, fairly solid, sweet and tender. Pkt., 10c; ½ oz., 25c; oz., 40c.

Early Dwarf Ulm Savoy A very early and superior dwarf variety of fine quality. Pkt., 10c; ½ oz., 25c; oz., 40c. Cabbage plant see page 33 and 34.

American King

Carrot One ounce will sow 100 feet of drill.

CULTURE—April is the time to sow for early use. Sow seed in drills twelve to fifteen inches apart, and thin out from three to four inches in drill, covering seed about one-half inch. For general crop sow in May, same distance apart as above but cover seed a little deeper as sun is stronger. Perfect specimens require a fine pulverized, deep soil.

Carrots are not appreciated as they should be. Their table qualities are excellent, and as a food for stock they are surpassed by a few root crops. They are especially valuable when fed to dairy cows, producing an increased flow of rich milk and imparting a beautiful golden yellow to the butter. We urge a more general use of the Carrot among our customers. Like other root crops, it flourishes best in a well-enriched sandy soil deeply tilled, and if plowed the Fall before, so much the better.

Early Half-Long

Improved Rubican Stump-Rooted Variety

It is a truly magnificent carrot of a rich orange shade and of a most excellent flavor. As a carrot of all uses, it stands alone on account of its extreme sweetness and its enormous yielding properties. In our new improved strain of Rubican we offer you seed of true type.

Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., 90c; 5 lbs., \$4.00.

Frankfurt A most excellent, medium early, half long variety. It is one of the best in quality for the market and home garden, while its great productiveness and the ease with which it can be harvested make it desirable as a field sort. The tops are medium sized with small neck. The mature roots are thick, seven to eight inches in length, uniformly half long or stump rooted but tapering slightly, smooth, deep orange-red in color. The variety is extensively used by market gardeners.

Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., \$1.00.

St. Valery The roots of the improved strain of this variety we offer are very deep orange, long and comparatively thick, often twelve inches in length and three inches in diameter at the crown, tapering regularly to a point. The tops are rather large. This intermediate to late maturing sort is suitable for table use as well as stock feeding, combining great productiveness with uniform shape where grown in light, deep, rich soil. When of size suitable for the table, the roots are tender and of good quality. Pkt., 5c; oz., 15c; ¼ lb., 30c; lb., 75c.

Guerande or Ox Heart Especially desirable for soil so hard and stiff that longer rooted sorts would not thrive in it. The tops are comparatively small. The mature roots are four and one-half to five inches long, very thick, ending abruptly in a small tap root. The flesh is bright orange, fine grained and sweet. When young the roots are desirable for table use as a medium early carrot. Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., \$1.00.

Early Half-Long This extensively used, half long early variety has small tops and is excellent for the market or home garden. The roots are cylindrical, smooth and of a bright orange color. This variety is of the finest quality and is one of the most symmetrical and handsome of the medium sized sorts. The mature roots are usually five to six inches long.

Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., 90c; 5 lbs., \$4.00.

Danver's Half-Long

For a general crop Danver's Half-Long Carrot stands supreme; a half-long orange carrot, grown largely on account of its great productiveness and adaptability to all classes of soil. It is a desirable second early carrot for the home garden and is also suitable for field culture. The tops are of medium size. The mature roots are of medium length, six to eight inches long, tapering uniformly to a blunt point. The flesh is deep orange, tender and of good quality. Although the roots of this variety at maturity are comparatively short they often produce as large a bulk as the longer fields sorts and are more easily harvested.

Pkt., 5c; oz., 15c; ¼ lb., 35c; lb., 90c; 5 lbs., \$4.00.

Danver's

All the above Postpaid

Celery

One ounce will produce about 3,000 plants.
Price Postpaid

CULTURE—The proper time to sow is early in April, transplanting about the first of June. Set in rows 3 feet apart, and about 8 inches between plants in the row. Keep down all weeds, and as Fall approaches, draw earth up to the plants, keeping the stalks well together.

Golden Plume This new strain of Celery closely resembles the old Golden Self-blanching in crispness and flavor, but is distinctly larger and ranker in growth, more plainly ribbed, blanches more quickly, matures rather earlier and shows less tendency to blight or crown-rot. It shows the large full-plumed center so much desired. Golden Plume is rapidly displacing Golden Self-blanching as it produces more marketable Celery and is first on the market. Pkt., 10c; $\frac{1}{2}$ oz., 40c; 1 oz., 75c; $\frac{1}{4}$ lb., \$2.75; lb., \$9.00.

Golden Self-Blanching The heart is rich golden-yellow with light yellowish green outer leaves. The ribs are thick and broad and the hearts large and solid. Its crispness and delightful flavor has endeared it to all who plant it.

Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 50c; $\frac{1}{4}$ lb., \$1.75; lb., \$6.00.

Sanford's Easy Blanching The stalks are of medium height and stocky in growth, and the easiness with which they are blanched and its keeping qualities has made it a universal favorite. Our seed was grown from highly selected, extra fine stock.

Pkt., 10c; $\frac{1}{2}$ oz., 20c; oz., 35c; $\frac{1}{4}$ lb., \$1.25; lb., \$4.00.

White Plume Valuable for Fall or early Winter use, very widely known for its remarkable vigor and is a truly beautiful type with stalks creamy white, crisp and delicious. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c.

Curled Celery This variety is a great favorite of the gardeners for cuttings and bunching. Its use for flavoring has made it very valuable and should be grown on that account. For use in soups, etc., it is unexcelled. Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c.

Golden Plume

Celeriac

(Turnip Rooted Celery)

CULTURE—Treat seeds and plants the same as recommended for celery with the exception that it is customary to set the plants in rows 1 foot apart.

Giant Prague (Turnip Rooted). This celebrated variety is the largest, smoothest and best strain of celeriac that can be obtained. Owing to its fine flavor it should be more widely grown than it is as it is fine for flavoring soups and salads or boiled-like turnips and parsnips. Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c.

Collards

A GREAT favorite in the South, where they are used extensively for "greens." Culture similar to cabbage.

Georgia, or Southern The standard variety for productiveness. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c.

Corn Salad

Chicory

WITLOOF CHICORY—In order to grow good "Witloof" the seed should be sown during April in the open ground, in drills 10 to 12 inches apart, in deep, rich soil. Allow the plants to grow until November, then take up the roots and trim off the leaves up to about $1\frac{1}{2}$ inches from the neck. Then plant in a trench 8 to 12 inches deep, placing the roots upright, about $1\frac{1}{2}$ inches apart.

Witloof Is eaten raw or as a salad and is also sometimes cooked like ordinary Endive. This is the best variety of Chicory. Pkt., 10c; $\frac{1}{2}$ oz., 20c; oz., 35c; $\frac{1}{4}$ lb., \$1.00.

Large Rooted The finest flavored and hardiest growing variety.

Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c.

Witloof Chicory

Corn Salad or Fetticus

One ounce will sow about 100 feet of drill.

SOW the seed in early spring at the time of the first sowing of lettuce and make successive plantings as often as desired. For very early salads, sow in the fall and by protecting the plants during the winter months with leaves or straw, it can be gathered very early in the spring.

Large Leaved The hardiest, earliest and most appetizing variety grown.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 75c.

Corn, Sweet or Sugar

(By parcel post, add postage; see Page 1.)

One pound of seed will plant about 100 hills; 20 to 25 pounds, an acre in hills.

ARICH, warm, soil is the best, but excellent sweet corn can be raised on any good, ordinary soil, if it is deeply and thoroughly worked before planting. In the north sweet corn may be planted as early as can be done without risking great loss from frosts or from rotting of the seed in the soil, but with the main crop varieties especially, it is well to wait until the ground has become warm as the sweeter varieties are more sensitive to cold and wet than field corn or varieties of inferior quality.

If planted in rows, make the rows three to four feet apart, according to the vigor of growth of the variety, and place the seed twelve to sixteen inches apart in the row, covering one inch deep with fine soil firmly pressed down.

If planted in hills, make the hills for the early varieties three feet apart each way and plant four to six kernels to the hill. For the later sorts the hills should be three and one-half to four feet apart each way. Hoe frequently and when six inches high thin so as to leave three or four plants in the hill. Give frequent and thorough but shallow cultivation until the tassels appear.

Our Sweet Corn is thoroughly tested before it leaves our hands. At the following prices on Corn—packets and quarter pounds are sent prepaid, all larger quantities are shipped at purchaser's expense.

NOTE: If in the market for 100 lbs., or over, write for price.

Extra Early Adams Very early and used extensively for a first early table corn in the south. The stalks are about four feet high, with small tassel, very few leaves, and without suckers. The ears are short, very full, twelve or fourteen rowed, often nearly as thick as they are long and are well covered with coarse husks. The kernels are white and smooth. This is an extremely hardy variety which can be grown closer together than most sorts.

Pkt., 10c; $\frac{1}{2}$ lb., 15c; 1 lb., 25c; 10 lbs., \$1.75; 25 lbs., \$3.75.

Early Adams An excellent early field variety and often used for table, particularly in the south. The ears are about eight inches long, twelve or fourteen rowed. The kernels are white, rounded, somewhat deeper than broad and indented at the outer end which is whiter and less transparent than the inner. The stalks are about six feet high.

Pkt., 10c; $\frac{1}{2}$ lb., 15c; 1 lb., 25c; 10 lbs., \$1.50; 25 lbs., \$3.75.

Bantam Evergreen A Yellow Sweet Corn noted for its excellent qualities; much larger than Golden Bantam and claimed to be more productive, it is also claimed to be considerably earlier; a splendid variety for mid and late season planting.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c; 10 lbs., \$2.50; 25 lbs., \$5.00.

Early Evergreen Has proven its merit as the best evergreen strain that is distinctly earlier than Stowell's. The strain we offer has to a remarkable degree, all the qualities that have made Stowell's Evergreen the leading main crop sweet corn for so long a time. The ears of Early Evergreen are about seven to seven and one-half inches long, with fourteen to twenty more or less irregular rows with very deep, white grain of the very best quality. Stalks about six and one-half to seven feet high. A very desirable main crop variety for home garden and market, and well adapted for canning.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 25 lbs., \$4.00; 100 lbs., \$12.50.

Golden Bantam This is an early sweet corn with golden yellow grain, very tender and of excellent quality. The ears are eight rowed, six to seven inches long and of the medium size found most suitable for the table. The flavor is exceptionally rich and delicious. The stalks are four to five feet high. Our stock of this splendid home garden and market variety has been very carefully selected and is decidedly superior to much that is offered.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 25 lbs., \$4.50.

Kendel's Early Giant Remarkably large in ear for a second early sort and extensively grown in some localities for the market. The stalks are about five and one-half feet high. The ears are about eight to nine inches long, twelve rowed. The grain is white, rather broad and shallow, and the quality very good.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 25 lbs., \$4.00.

Whipple's Of the narrow-grained Evergreen type, but ready for use much earlier. Ears 8 to 9 inches long, 16 to 18 rows of pearly white grains.

Pkt., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 30c; 10 lbs., \$2.25.

Bantam Evergreen

Stowell's Evergreen

POP CORN

White Rice A very handsome and prolific white variety. The ears are five to seven inches long. The kernels are long, pointed and somewhat resemble rice. This excellent, rather late maturing variety yields heavily and is considered the best pop corn for parching.

Pkt., 5c; lb., 20c; 10 lbs., \$1.50.

Japanese Hulless Also known in some sections as Japanese Rice.—The Japanese Hulless is a dwarf-growing corn, a heavy yielder of attractive ears peculiar in form, being nearly as thick as long. The kernels are similar to the best strains of White Rice, only longer and slimmer and pearly white in color, but its crowning merit lies in its popping quality, fine flavor and absence of hull or shell.

Pkt., 5c; lb., 25c; 10 lbs., \$2.00.

Corn

SWEET OR SUGAR—Continued

Early White Cory The grain is large, broad, very white and of nice quality. The early Cory certainly is an excellent variety if you want early corn.

Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 50 lbs., \$7.00.

Mammoth White Cory We consider this one of the best extra early varieties for the market and home garden. The ears are very large for so early a variety. The stalks are about four feet high, each generally bearing two large, finely shaped ears which become fit for use as early as those of any variety. They are twelve rowed, six to seven inches long, very symmetrical and handsome, seldom with any opening between the rows at the base. The grain is large, broad, very white and of remarkably good quality for such an early sort.

Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 50 lbs., \$7.00.

GENERAL CROP AND LATE

Howling Mob The stalks are usually about 5 feet in height and produce early in the season two splendid ears to a stalk. The ears are 7 to 9 inches in length and are well covered with a heavy husk.

Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 25 lbs., \$4.00; 100 lbs., \$12.50.

Stowell's Evergreen The standard main crop variety, much used for the home garden, market and canning. It is hardy and productive, very tender and sugary, remaining a long time in condition suitable for boiling. Our stock has been carefully grown and selected to avoid the tendency to a shorter grain and deterioration in the evergreen character of this best known of all late sorts. The ears about ten to twelve inches long, fourteen to twenty rowed, with very white grain. The stalks are about seven and one-half feet high. Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 25 lbs., \$4.00; 100 lbs., \$13.50.

Country Gentleman This variety has a small, white cob, densely covered with irregular

rows of very long, slender, white grains of excellent quality. The ears are seven to nine inches long. The stalks are from six and one-half to seven feet high. It is well adapted for canning as well as the home garden and market, and many consider it as the best of the late varieties.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 10 lbs., \$2.00; 25 lbs., \$4.00.

White Evergreen Stalks very vigorous, 6 to 7 feet high. The ears are uniformly very large and well-filled. When in the green state both cob and kernel are white as snow.

Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 25 lbs., \$4.00.

Country Gentleman

St. L. S. Co.'s Improved Green Hybrid

Cucumber

One ounce will plant
about 50 hills.

CULTURE—The first planting should be made in May in hotbeds; inverted sods form an excellent medium for both planting on and carrying the young plants to their permanent location, small paper pots can also be used. Such plantings are usually ready for transplanting to the open ground in from three to four weeks.

The striped cucumber beetle is often very destructive to young plants. These beetles, when not very numerous, are usually kept from doing serious damage by dusting the plants with slug shot.

Davis Perfect A very fine cucumber for market as well as the home garden. Fine length, beautiful dark green color. Fruits 8 to 10 inches long, tapering at both ends, solid flesh, few seeds. It is one of the most popular among extra long white spine cucumbers. Ready for market in 65 days.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.00; 5 lbs., \$4.75.

Early White Spine This truly is the peerless cucumber and for slicing it has no equal. Our select strain of this variety is unsurpassed for the table or market.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; lb., 90c.

St. L. S. Co.'s Improved Green Hybrid In our "Improved Green Hybrid" we offer the perfect cucumber, an extra early species of a most remarkable quality as well as appearance. For slicing it is superb, and its symmetrical fruits are uniformly large. The flesh is very solid, fine grained.

Pkt., 10c; oz., 15c; $\frac{1}{4}$ lb., 40c; 1 lb., \$1.00; 5 lbs., \$4.75.

Arlington Improved White Spine One of the best sorts for table use. The vines are vigorous, fruiting early and abundantly. The fruits are uniformly straight, dark green, fairly well covered with white spines and when mature are usually about seven inches in length. The flesh is crisp, tender and of excellent quality. The variety is much used for the home garden and market.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; lb., 90c.

Extra Long or Evergreen White Spine The fruits of this very desirable table sort are long, cylindrical, very dark green, with very white, crisp and tender flesh. The vines are vigorous and productive and come into full bearing somewhat later than Early White Spine. The mature fruits are about eight to ten inches in length. This variety is adapted also for forcing.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; 1 lb., 90c; 5 lbs., \$1.75.

London Long Green The stock we offer under this name is in a class by itself. The vines are very vigorous and productive. The fruits are very long, often twelve to fifteen inches when mature. They are uniformly slender and of beautiful dark green color. The large warts and spines are well distributed over the surface instead of being clustered at one end as in inferior stocks. The variety furnishes some fruits early but matures the bulk of its crop rather late. It is a standard sort for slicing and is very largely used for pickles. The fruits are often used for making sweet pickles. This is probably the most extensively used cucumber for the home garden and market. We have given this variety especial attention for many years and we believe the stock we offer has no equal.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; 1 lb., \$1.25; 5 lbs., \$6.75.

Japanese Climbing Here is a variety that won't take up so much space in your garden as it easily trails up poles or trellises.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; 1 lb., \$1.25.

Jersey Pickling This variety is between the Long and the Short Green, forming a long, slender, cylindrical deep green pickle which is very crisp and tender. The vines are very vigorous and productive. The mature fruits are usually about eight to nine inches in length. This sort is desirable for slicing as well as for pickling. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; 1 lb., 90c.

Early Green Cluster A short pale-green variety, maturing early. The favorite for pickling. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; 1 lb., 90c.

Gherkin or Burr Makes excellent pickles and is quite a novelty.

Pkt., 10c; oz., 15c; $\frac{1}{4}$ lb., 50c.

Extra Long White Spine or Evergreen

Cress

One ounce of cress will sow two hundred feet of row.

AS EARLY in spring as the ground can be worked sow the seed in rich, well prepared soil, in shallow drills about sixteen inches apart, covering with about one-half inch of fine soil firmly pressed down. When the young plants are well started thin four to six inches apart in the row. For succession plant every two weeks, thinning out as required for use. Keep off insects by dusting with Hammond's slug shot.

Curled or Pepper Grass The leaves of this small salad are much frilled or curled, and are used for garnishing. It is also desirable with lettuce, to the flavor of which its warm, pungent taste makes a most agreeable addition. The plant is of rapid growth, about one foot high.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.00.

Water Cress A very hardy plant which can be grown easily in a shallow pond of fresh water or along the edges of shallow running streams. Seeds may be started readily in pans or boxes of very moist earth, and when the young plants are well started, they can be transplanted to the stream or pond.

Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 90c; lb., \$2.50

Dandelion

SOW early in spring, in very warm, rich soil, in drills eighteen inches apart; thin to five inches apart and cultivate well; they will be fit for cutting the next spring. When grown for the roots, sow in September and cultivate well during the fall and the following summer; the roots will be fit to dig in October. Pkt., 10c; oz., 25c.

Dill

DILL, MAMMOTH—An annual of aromatic odor and warm pungent taste. Its seeds are used for seasoning. It possesses medicinal properties but its largest use is for making Dill pickles. Plant branching, two to three feet high; leaves very much cut into thread-like segments.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 30c; lb., 90c.

Green Curled Endive

Egg Plant

One ounce will produce about 1,000 plants.

SEED germinates slowly and should be started in hot-bed. When the ground is warm and all danger from frosts is past, carefully transplant to open ground, setting two and one-half feet apart.

St. L. S. Co.'s Imp. Oval Spineless Egg Plant

St. L. S. Co.'s Improved Oval Spineless This new variety, our own production, has proven itself superior to any other strain, being very early, Hardy and productive. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c; $\frac{1}{4}$ lb., \$1.50.

Black Beauty This distinct new variety is indeed a beauty. It is very attractive in appearance. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c; $\frac{1}{4}$ lb., \$1.50.

Early Long Purple An early variety; dark purple fruit, six to eight inches long. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c; $\frac{1}{4}$ lb., \$1.50.

Endive

One ounce of seed to 300 feet of row.

ONE of the best salads for fall and winter use. Endive is not only much used for salads and garnishing but is also desirable for greens and for flavoring soups and stews.

Plants may be grown at any season of the year but are more generally used late in the fall. For early use sow about April 15th; for later supply sow in June or July in drills fourteen to twenty inches apart and when well started thin the plants to one foot apart. When nearly full grown tie the outer leaves together over the center in order to blanch the heart of the plant.

Green Curled Ornamental curled leaves of dark green color. Blanches white and crisp. This is the standard variety and most widely planted. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.50.

White Curled Leaves are not as tender as the green curled, but it is self-blanching and very attractive. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.50.

Broad-Leaved or Escarolle Broad, thick ribs, with slightly wrinkled leaves. This is the best broad-leaved variety. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.50.

Kale

By parcel post, add postage, (see Page 1).
Sow four pounds to the acre; one ounce will sow
150 feet of drill.

Dwarf German Green Kale

THIS is extensively grown, especially in the south during the fall, winter and spring. The leaves are used principally for greens. A favorite way is to cook them with bacon. The leaves are also used for garnishing.

Where climate permits seed may be sown any time from August to October, broadcast or preferably in drills eighteen inches apart so that the plants when small may be cultivated. The quality is improved rather than injured by frosts if not too heavy. Farther north sow in April or May in rich light soil in rows two to three feet apart and where plants of the largest size are desired thin to two feet apart in row. It is better not to cut or handle the plants while frozen, but if this is unavoidable, thaw them out in cold water. The young shoots which start up in the spring from the old stumps are very tender and make excellent greens.

Dwarf German for Spring An improved selection of the ordinary Dwarf German Greens. A superior variety for market culture. It has no equal.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., 65c; 5 lbs., \$3.00.

Dwarf German (for Fall). Largely grown for supplying "greens" during the Fall, Winter and Spring. The plants are hardy; frost improves the quality. The leaves are very large, deeply curled and fringed, and of that desirable rich bright green color.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., 65c; 5 lbs., \$3.00.

Double Curled Scotch Desirable for Winter and Spring greens. Leaves are curly like Parsley, tender and of very fine flavor. It is improved by frost.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; 1 lb., 90c.

Tall Scotch This variety makes beautiful plants, two feet or more in height. Leaves are finely curled and very tender.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 35c; 1 lb., 90c.

Kohl Rabi

One ounce will sow about 200 feet of drill.

Early White Vienna

CULTURE—This is a very delicious vegetable. The edible part is the turnip-shaped bulb formed above ground. It is tender and excellent when used before fully grown, combining somewhat the flavors of cabbage and turnip. Seed should be sown in light, rich soil as early in spring as possible in rows one and one-half feet apart and when well established thin to six inches apart in the row. Plantings at intervals of ten days will give a succession until hot weather, when they fail to grow well. Plantings may be made the latter part of July for fall use.

Early White Vienna A standard sort for market and table use. Good for forcing. This variety has a very short top and forms the ball quickly, thus making it a particularly desirable sort on account of its earliness.

Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c; 1 lb., \$2.50.

Early Purple Vienna Differs from the early White Vienna in color only.

Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 90c.

Above Prices All Postpaid

Leek

This belongs to the onion family and is a good fall and winter substitute for green onions. The leaves are flat, and the stems are very large, cylindrical and bulbous. Sow early in spring in drills twelve to fifteen inches apart, covering one-half inch deep. Thin plants to six inches apart in row and draw the earth about them when cultivating. If one desires very white and tender leeks transplant when about six inches high, setting four inches apart in trenches about two feet apart and gradually earth up like celery.

London Flag This well known broad leaved leek is hardy, productive, of good quality, and is extensively cultivated in this country. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.75.

ST. L. S. CO.'S Big Market Gardener Lettuce

A Grand Large Cabbage Lettuce—Early Spring or Fall.

THIS is the most extensively grown Lettuce in the country either for market or private tables. For a time-tried and true Lettuce you will find the Market Gardener the finest lettuce that can be planted when you consider its many fine qualities.

Whether grown in the open ground for early Spring or Fall use, or in frames for Spring, it invariably gives both the grower and user the utmost satisfaction, producing under ordinarily favorable conditions, splendid buttery-yellow heads, packed with thoroughly blanched leaves, crisp, tender, sweet, white and of the most exquisite flavor. Its handsome appearance with large outside leaves and its long-standing qualities without running to seed have made it the universal favorite.

The best test is to visit some of the large growers in this vicinity and see the large areas of it; may be seen as late as November 15th; a slight covering of salt hay amply protects the plants from hard frosts, and when cut for market the leaves are fresh and bright. Acres of our Market Gardener are grown during the Winter in Florida and other Southern states for shipping to Northern markets. We know of no other variety that gives such general satisfaction and for those who have a desire to grow a superior Lettuce, they cannot grow anything better.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50; 5 lbs., \$7.00; postpaid.

EARLY CURLED VARIETIES

CULTURE—Lettuce seed should be sown very early in the Spring and at intervals of 15 days for a succession; sow the seed in shallow drills—being careful to firm the soil well over the seed and thin to 4 inches apart in row. Two ounces of seed will sow 150 feet of rows, 4 to 5 pounds seed required per acre.

Early Curled Simpson The standard cutting or loose-headed variety. Earlier than the heading sorts.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50.

Black Seeded Simpson Larger and lighter in color than Early Curled Simpson. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50.

Grand Rapids Especially adapted for early family use. A loose-headed Lettuce of pleasing appearance and remarkable table merit.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50.

Prize Head As its name implies, forms a very large, loose head, slightly tinged with brown. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50.

ABOVE PRICES POSTPAID

Iceberg Lettuce

St. L. S. Co.'s Summer This excellent variety is noted for its extra large and firm heads, and thin leaves of the finest quality. It is a very large, robust-growing variety, and a sure header; forms a head in six weeks; at least ten days earlier than the Big Boston. May be sown all through the year and stands heat remarkably well. Is crisp, tender, and solid.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.50.

N. Y. Wonderful, or Los Angeles This splendid mammoth heading and long-keeping variety has been grown to weigh 3 pounds to the head. Heart is solid, of light green color, very sweet, tender and crisp. Long-standing. Perfect heads and a good shipper.

Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 75c; 1 lb., \$2.50.

Iceberg This is a cabbage heading variety, crisp and tender. Large, extremely hard and well-balanced heads. Leaves are slightly blistered, crumpled and twisted. Color, light green. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 75c; 1 lb., \$2.50.

Grand Rapids Lettuce (See Page 19)

Lettuce—Continued

Prices Postpaid

For General Crop

St. L. S. Co.'s Black Seeded Forcing The favorite of gardeners who grow for the St. Louis market, where there is always a big demand for this popular variety. Heads are of a medium size, well formed and compact, of excellent quality and fine appearance.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50.

St. L. S. Co.'s Big Boston This grand variety has proved to be valuable. Whether it is grown in the open ground for Summer and Fall use, or in frames for Spring, it still produces the splendid, large, buttery-yellow heads, packed with thoroughly blanched leaves, crisp, tender. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50; 5 lbs., \$7.00.

St. Louis Market A great favorite among the gardeners where its many good qualities insure for it a big market demand, with a good price for same. Its large heads of crisp, buttery flavor have made this variety the most popular market variety and you can be sure of a big crop of lettuce if you plant our strain of St. Louis Market for the Summer home garden. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; 1 lb., \$1.25; 5 lbs., \$5.50.

St. Louis Market

Mammoth Black Seeded Butter A fine variety for outdoor planting or for cold frames, either for market or home use. It produces extra large heads, very compact, of a fine flavor.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50.

St. L. S. Co.'s Imp. Butter This is one of the finest, the most brittle as well as the crispest lettuce. This delicious variety is of the cabbage type. Every plant is uniformly perfect, nearly all head with but few outside leaves. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50.

Hanson In every respect an ideal lettuce. It never fails to make large, handsome heads. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; 1 lb., \$1.50.

Trianos Cos (Romaine). A distinct variety, tall, self-bleaching. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c.

Hardy Green Winter The standard Winter sort. Of delicious flavor. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c.

Muskmelon

(Seed by Parcel Post, add Postage; see Page 1.)

AFTER danger of frost is past, the ground being warm and in good condition, plant in rich soil, preferably sandy loam, in hills about four to six feet apart according to the vigor of the variety. Put ten or twelve seeds in a hill, covering with about an inch of fine soil firmly pressed down. When the plants begin to crowd and the striped beetles are pretty well gone thin to four of the most vigorous plants in a hill. Give frequent but shallow cultivation, until the plants make runners so long that this is impracticable. Rich earth for the young plants is far better than manure, but if the latter must be used, see that it is well rotted and thoroughly mixed with the soil.

Banana The flesh (the melon being nearly solid) is of a rich salmon. It grows from 20 to 28 inches in length and is very prolific. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.25.

Burrel Gem The flesh is of the most handsome salmon color, the skin of a beautiful netted dark green; it is shallow ribbed and shaped similar to the Rocky Ford, only larger. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 90c; 5 lbs., \$4.00.

Colorado Queen The best green-fleshed melon for shipping long distances. The illustration shows the shape. The netting is heavy, slightly covering the ribs.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 90c; 5 lbs., \$4.00

Edwards Perfecto This seed cavity is triangular and the flesh pink, extremely thick, sweet and spicy. This melon is almost round and heavily netted. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 90c.

Colorado Queen

Rocky Ford Pink Meat (Pollack No. 10-25)

Honey Ball is an outstanding new melon, Ball-Shaped, and has delicious green meat. The skin is greenish white and slightly netted. Very prolific and of most delicious flavor. It is a cross between a Cantaloupe and a Honey Dew Melon.

Pkt., 10c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.50.

Honey Dew The skin when ripe is creamy yellow in color. Flesh light emerald green, fine grained and of very sweet, sugary flavor. Rind thin but very firm and the fruits stand shipping remarkably well.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 50c; lb., \$1.50.

Osage Dark green skin of a peculiar netting. Salmon flesh, very delicious.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 90c.

Rocky Ford A well-known, profitable market sort of the small basket-melon type. The vines are vigorous, producing an enormous quantity of fruits. The flesh is light green in color, very deep, ripening clear to the rind.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c; 5 lbs., \$3.50.

Rocky Ford Pink Meat (Pollack No. 10-25). This Muskmelon is considered the best of the salmon-fleshed Rocky Fords. The fruits are of great uniformity in size and shape, with well-developed gray netting, closely laced and covering the entire surface. The rich salmon flesh is very deep, solid, of a luscious, sweet flavor, and ripens clear to the rind. Its shipping qualities are excellent, quality all that can be desired, and we believe is destined to become popular.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 90c; 5 lbs., \$4.00.

St. Louis Market By far the sweetest and most luscious, richly flavored melon ever grown. Flesh is green and delicious, rind is green and solid.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 90c; 5 lbs., \$4.00.

Tip-Top The most productive Muskmelon known; good for early or late, having a sweet, juicy, fine flavor; solid flesh and eatable to the outside coating. The fruit is of large size, nearly round, evenly ribbed.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 90c.

Watermelon

(By Parcel Post, add Postage; see Page 1.)

CULTURE—Treat the same as Muskmelon, except that they should be planted 8 to 10 feet apart, according to variety.

Tom Watson

McIver's Wonderful Sugar This celebrated melon is claimed by many to be the sweetest of all varieties. Crisp, free from any strings. Solid meat.
Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 60c.

Citron The fruits are medium sized, uniformly round and are used exclusively for preserves or pickles. The color is dark green, distinctly striped and marbled with light green. The flesh is white and solid, but is not at all suitable for eating raw. Seed red.
Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c.

Irish Gray A comparatively new variety that is becoming very popular as a shipping sort. Fruits long oval in shape and of light yellowish grey color. The rind is exceptionally hard and firm. The flesh is bright red, sweet, firm but free from any hard centers or stringiness. A very desirable variety for those who prefer a long, light colored shipping melon.
Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

Fordhook Early A most delicious and productive variety for the family garden, succeeding in northern states, where melons were never matured before. The flesh is of a beautiful bright red color.
Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 60c.

Kleckly Sweets (Monte Cristo). Is especially recommended for its fine flavor—in this respect surpassing most all others. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 60c.

Tom Watson A large, long melon similar in shape, color and splendid quality, averaging large in size and with a tough rind, making it especially adapted for shipping to distant markets. The flesh is rich red, sweet and tender. Seed white, more or less marked with brown. Wherever grown in the South it has become very popular as a shipping sort. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 60c; 5 lbs., \$2.50.

St. L. S. Co.'s Sweetheart Almost globular, but a little longer than thick. Skin is a beautiful light, bright mottled green, thin, but very tough rind.
Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 60c.

Florida Favorite Shape oblong with light and dark green skin; flesh is bright crimson and deliciously sweet. We offer only a select stock of this famous melon.
Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 60c.

Georgia Rattlesnake One of the largest varieties, and stands shipping long distances. Fruits of good size, oblong in form, distinctly striped and mottled; flesh bright scarlet and of excellent quality. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 60c.

Irish Gray

Mushroom Culture

Mushroom Culture Leaflet Mailed Free.
Ask for it when you order your Spawn

WE ALWAYS have a fine, fresh supply of "Pure Culture" Spawn on hand, and you can depend on getting the kind of spawn that will produce large mushrooms. This spawn comes in bricks weighing about 18 to 20 ounces. A brick is sufficient to spawn ten square feet of bed. Be sure to mention the cultural leaflet when you order your spawn. Per brick, 25c; 5 bricks, \$1.00. If wanted by parcel post add 5 cents a brick for postage.

Mushroom Culture By Robinson. The best English book, cloth bound. \$1.00 postpaid.

Mushrooms By W. Falconer. The best American book, cloth bound. \$1.50 postpaid.

Dwarf Green Okra

Mustard

(By parcel post, see Page 1.)
(One ounce will sow 40 feet of drill.)

MUSTARD is not only used as a condiment but the green leaves are used as a salad or cut and boiled like spinach. Sow as early in the spring as the ground will permit, in drills about eighteen inches apart, covering one-half inch deep. For succession, sow every few weeks till autumn. Water freely. In the south the seed may be sown in autumn and the plants used early in the spring as a salad and for greens.

Fordhook Curled When cooked like spinach the broad leaves of this variety are delicious. They are often more than a foot in length and crimped.

Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 65c; 5 lbs., \$3.00.

White or Yellow The leaves are comparatively small and smooth, deeply cut or divided and of medium dark green color. The plant is upright, of rapid growth and soon bolts to seed. The leaves, when young, are mild and tender. Seed light yellow and larger than that of other varieties. Seeds are used for pickling.

Pkt., 5c; oz., 10c; ¼ lb., 30c; 1 lb., 75c.

Southern Giant Curled The leaves are large, light green with tinge of yellow, much crimped and frilled at edges. The plant is upright or slightly spreading in growth. This variety is highly esteemed in the south for the market as well as the home garden on account of its vigorous growth, hardness and good quality. Seed small, reddish brown to nearly black. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 65c; 5 lbs., \$3.00.

Okra or Gumbo

THE young seed pods are used in soups, stews, cat-sups, etc. Highly esteemed in the south. After danger of frost is past, the ground being warm and in good condition, plant in rows about two and one-half feet apart, covering with about an inch of fine soil firmly pressed down. When about three inches high, thin to about one foot apart in the row. Cultivate and keep free from weeds. The pods are in best condition for use when from one to three inches long.

Perkins Mammoth Long Pod In productiveness this Okra is simply wonderful. Pods of an intense green color.

Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 75c. Postpaid.

Early Dwarf Green An extra early maturing variety. Very productive. Plants are more dwarf in habit of growth than those of other varieties. Pods short, deep green, slightly corrugated, tender and of good quality.

Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 75c.

White Velvet The plants are about three and one-half feet high, early maturing and very productive. The pods are white, long, smooth and are tender until nearly full sized.

Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 75c.

Onion

An ounce will sow 100 feet of drill. Four to five pounds to the acre for Large Onions

THE Onion is one of the most extensively used of all vegetables. It not only contains considerable nutriment and has valuable medicinal properties, but is most useful in counteracting the bad effects of sedentary life. The disagreeable odor it imparts to the breath may be avoided in a great measure by thorough cooking, or by eating a few leaves of parsley.

In onion culture, thorough preparation of the ground, careful sowing and the best of after culture, though essential for a full yield, will avail nothing unless seed of the best quality be used. Our equipment and experience enable us to produce onion seed that is unsurpassed. The seed we offer is the best obtainable.

Although onions are often raised from sets and from division, by far the best and cheapest mode of production is from seed. The facility with which seed is sown and the superior bulbs it produces, recommend it for general use.

As early in spring as ground can be worked, sow in rich soil, thoroughly pulverized and leveled, in rows twelve to fifteen inches apart, covering one-half inch deep. When the plants are well up, cultivate and keep free from weeds. The young plants may be thinned about one inch apart in the row. When grown for bunching, the rows can be made as close as ten inches.

Large Red Globe This celebrated variety differs from the Wethersfield in being almost a perfect globe and matures later and by its handsome appearance on the market sells better. An excellent keeper.

Pkt., 10c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.50.

Large Red Wethersfield This is the standard red variety and a favorite onion in the east, where immense crops are grown for shipment. It is very extensively grown for home garden use as well as the market. The bulbs are large and are flattened, yet quite thick. The skin is deep purplish red. The flesh is light purplish white, moderately fine grained, rather strong but of pleasant flavor. The variety is very productive, one of the best keepers and very popular for general cultivation. This medium early or main crop variety does best on rich, moderately dry soil but on low muck land it is more apt to form large necks. There is no better sort for poor and dry soils.

Pkt., 10c; oz., 20c; ¼ lb., 65c; lb., \$1.75.

Giant Yellow Prize Taker Our new Giant Yellow Prize Taker cannot be recommended too highly. There is a limit to the good qualities of other Onions. The king of all main crop varieties.

Pkt., 10c; oz., 20c; ¼ lb., 65c; lb., \$1.75.

White Globe A most desirable medium early or main crop variety for the home garden. It is sometimes called Southport White Globe. The variety yields abundantly, producing medium to large, handsome and finely shaped, clear white bulbs. The flesh is firm, fine grained, quite mild in flavor and is more attractive than the colored sorts when cooked. The bulbs are globe-shaped, full at the shoulder, rounded at the base, keep well and are desirable for shipping. We have by years of careful selection and breeding developed a strain which is unsurpassed in uniformity and beauty of shape and color.

Pkt., 10c., oz., 25c; ¼ lb., 85c; lb., \$3.00.

Mammoth Silver King (White Granus). One of the greatest, grandest and most delicious Onions ever offered. Grows very large, early; flat, but thick through; tender and of very mild sweet flavor; uniform in size and shape.

Pkt., 10c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.50.

Philadelphia Silverskin One of the leading white sorts, beautiful shape and mild flavor. It is largely used for growing sets on account of its fine shape when small.

Pkt., 10c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.50.

ONION SETS

(By Parcel Post, add 5c a quart postage. Prices subject to change.)

The advisability of planting onion sets is recognized everywhere and if you want fine young green onions in short time.

Yellow Onion Sets These, like the white and red, are for early setting in Spring. Fine for raising early big onions.

Qt., 25c; gal., 90c.

Red Onion Sets Very widely used for setting in early Spring to produce green onions for the table, and also for large onions.

Qt., 25c; gal., 90c.

White Onion Sets Crop failed.

If in the market for Sets in bushel lots write for price.

Large White Globe

Peas

(Peas by Parcel Post, add Postage; See Page 1)

CULTURE—Plant early, smooth varieties as soon as frost is out of the ground; follow with the early wrinkled sorts in a week or 10 days and make successive plantings every 10 days until middle of June. Plant 2 to 3 inches deep, in rows 24 inches apart, if cultivated by hand; if by horsepower, rows should be 3 feet apart. Dwarf varieties require no sticks; tall varieties do better staked. Use 1 lb. to 50 feet of drill, 2 to 3 bushels per acre.

EXTRA EARLY VARIETIES

St. L. S. Co.'s Improved Extra Early Superior to all rivals. Very prolific, bushes becoming loaded with large, smooth green peas of beautiful texture. Matures in from 40 to 45 days after germination, very uniformly.

Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 50 lbs., \$3.00.

Alaska One of the earliest smooth varieties. Pods are a dark green color, extra well filled and ripen very uniformly. Height about 2 feet.

Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 50 lbs., \$3.00.

Gradus, or Prosperity The earliest of all the wrinkled Peas. Produces large green pods 4 to 6 inches long. The vines are two feet high, pale green in color; the pods are borne singly and freely from top to bottom of the vine, contain from six to ten Peas of luscious quality.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 10 lbs., \$2.50; 50 lbs., \$10.00.

St. L. S. Co.'s Extra Early

SECOND EARLY AND MAIN VARIETIES

American Wonder The old popular favorite among all who grow Peas and year after year has seen greater plantings of this meritorious Pea and especially of our improved strain. In our American Wonder you have all the fine qualities that could be desired, for the small, dwarf-like bushes are so heavily laden with beans of the finest quality. Bushes grow to height of about 15 inches and peas are of that well-liked dark green color.

Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 50 lbs., \$8.00

St. L. S. Co.'s Suttons Excelsior Plants about 18 inches high. The excellent quality of the peas, large size of the pods, heavy yielding properties and hardness have made it a great favorite among the gardeners. Peas are of dark green color, stout and heavy and contain from 7 to 9 Peas of the most exquisite quality. Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 10 lbs., \$2.25; 50 lbs., \$9.00.

Laxtonian These Peas possess the admirable merit of preserving their tenderness and luscious flavor long after they are young and what is still more, they retain their attractive dark green color when served.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 10 lbs., \$2.50; 50 lbs., \$10.00.

Nott's Excelsior The vines are larger and more productive than American Wonder. The pods are medium sized, about two and three-fourth inches long. The peas, in sweetness and quality, are unsurpassed. Seed medium sized, wrinkled, green and somewhat flattened. Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 50 lbs., \$3.00.

Telegraph Peas are very large and of dark green color; seed almost smooth. Vines are tall, about four to four and one-half feet. Pods are exceedingly large, about four and one-half inches long. This is a splendid garden variety.

Pkt., 10c; ½ lb., 20c; 1 lb., 30c; 10 lbs., \$2.00; 50 lbs., \$3.00.

PEAS, EDIBLE POD

Edible Pod Tall Melting Sugar A foreign pea, little known in this country. A wonderfully productive sort. Pkt., 10c; ½ lb., 25c; 1 lb., 40c; 10 lbs., \$2.50.

Edible Pod Dwarf Grey Sugar Of a dwarf growth, a fine edible pod when young.

Pkt., 10c; ½ lb., 25c; 1 lb., 40c; 10 lbs., \$2.50.

Note: The above prices are not postpaid on 1 lb. or over.

Laxtonian

Parsley

One ounce will sow 100 feet of drill

CULTURE—Make the rows 12 to 14 inches apart. Thin to 3 or 4 inches apart, or transplant at this distance. Can be sown in hotbeds in February, or later in open ground. Late in Autumn place frames over some of the plants to lengthen out the season for cutting.

Double Curled Very robust, free growth. Leaves are large, very dark, green and beautifully curled; exceedingly large yields. Stands heat and cold better than most varieties.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 75c.

Hamburg, or Rooted A rooted variety of which the roots are the portion used; good in flavoring soup and stews.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 75c.

Plain Leaf Leaves are longer and darker green than the curled varieties; very hardy. Excellent for seasoning.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 75c.

Parsnip

One oz. of seed for 200 ft. of row; 5 lbs. seed required for an acre

CULTURE—Work the soil very deep and pulverize the surface thoroughly. Sow the seed in early Spring, $\frac{3}{4}$ of an inch deep, in rows 12 to 18 inches apart. As soon as the young plants appear, cultivate and hand weed them, and when 3 inches high thin to 6 inches apart in the row.

Hollow Crown (Large Sugar). The best and most widely cultivated variety. Grows long, smooth, tender, and is very sugary.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 65c; 5 lbs., \$2.75.

Pepper (All Postpaid)

One ounce will produce about 2,000 plants

CULTURE—Sow in hotbed in March or April; transplant in open ground when all danger from frost is over, in rows three feet apart and two feet apart in row. For prices on Pepper Plants, see Page 33.

Pimento This very popular variety used extensively by the Spanish people in their Pimento salads. It is a thick-meated variety of mild flavor, being brilliant red in flesh and very productive.

Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c; $\frac{1}{4}$ lb., \$1.50.

Crimson King The fruit is not quite as large as Chinese Giant; in shape not quite so blocky. In flavor it is the mildest we have ever known, as the flesh may be eaten raw from the hand.

Pkt., 10c; $\frac{1}{2}$ oz., 35c; 1 oz., 60c; $\frac{1}{4}$ lb., \$2.00.

Chinese Giant The compact plants are very prolific, setting 3 to 4 extra large fruits at the base quite early in the season. The fruit is quite square in appearance, while the flesh is thick and very mild, being entirely free from any fiery flavor.

Pkt., 10c; $\frac{1}{2}$ oz., 40c; 1 oz., 75c; $\frac{1}{4}$ lb., \$2.75.

Ruby King One of the standard Peppers, very large and of mild flavor. Bright ruby red color. Pkt., 10c; $\frac{1}{2}$ oz., 25c; 1 oz., 40c; $\frac{1}{4}$ lb., \$1.50.

Bell, or Bull Nose Early and of mild flavor. A favorite for pickling. Large bright red, thick flesh.

Pkt., 10c; $\frac{1}{2}$ oz., 25c; 1 oz., 40c; $\frac{1}{4}$ lb., \$1.50.

Sweet Mountain Larger in size and milder in flavor than Bell, or Bull Nose. Very productive.

Pkt., 10c; $\frac{1}{2}$ oz., 25c; 1 oz., 40c; $\frac{1}{4}$ lb., \$1.50.

Long Red Cayenne Of dwarf growth, bearing long, pungent pods. Very productive. An ideal home variety.

Pkt., 10c; $\frac{1}{2}$ oz., 25c; 1 oz., 40c; $\frac{1}{4}$ lb., \$1.50.

Red Chili Smaller and later than Cayenne. Extensively used for pepper sauce.

Pkt., 10c; $\frac{1}{2}$ oz., 30c; 1 oz., 50c.

Red Cherry The finest of the small, round varieties. Excellent for pickles, sauce, etc. Pkt., 10c; $\frac{1}{2}$ oz., 30c; 1 oz., 50c.

Tobasco This variety is used in manufacturing the well-known Tobasco Sauce.

Pkt., 10c; $\frac{1}{2}$ oz., 30c; 1 oz., 50c.

Above prices postpaid

Peanuts

PLANTED in April, they ripen in August, and planted as late as July 1st, they will mature full crops before frost. Lb., 25c; 5 lbs., \$1.00; add postage.

Crimson King Pepper

Northern Grown Seed Potatoes

PRICES ARE SUBJECT TO CHANGE ON ALL POTATOES

CULTURE—Any good, well drained, fibrous loam will produce Potatoes under right climatic conditions. For early Potatoes, which mature in 8 to 10 weeks from planting, the soil must be particularly rich. A rich clover sod, manured and broken the year before and planted to corn, beans, peas, etc., is in best shape for giving a good yield of nice, clean Potatoes. Stable manure had better be applied to the land the year before, while some good complete fertilizer, at the rate of up to 1,000 pounds per acre if applied broadcast, or 400 to 600 pounds if applied mostly in the rows, may be used directly for the Potato crop. Open furrows 3 feet apart and 3 to 4 inches deep. Then plant good-sized pieces, each containing no less than 2 or 3 eyes, 15 inches apart in the furrows for early Potatoes, and 18 inches apart for late ones. In some of the large Potato sections the Potatoes are always planted in check rows 3 feet apart each way. Cover with small plow or other suitable tool. Cultivate often. Spray with arsenate of lead mixture as a protection from flea beetle, potato beetle and blight. **8 to 10 bushels will plant an acre.**

BLISS RED TRIUMPH

Extremely prolific and a full week advance of Early Rose. Color, a beautiful light red. Size medium. Growth, very uniform. Shape, nearly round. The flesh is white; very mealy when cooked. This potato is in exceedingly high favor with Southern market gardeners and truckers and is shipped to the Northern markets. **10 lbs., 75c; 30 lbs., \$1.60; 60 lbs., \$3.00.**

EARLY OHIO

Northern Grown In the Red River Valley. Much need not be said of this great potato. Among the standard early varieties it undoubtedly stands at the head of the list. An excellent keeper for such an early variety.

10 lbs., 75c; 30 lbs., \$1.60; 60 lbs., \$3.00.

IRISH COBBLER

This has become one of the general favorites in all localities for early as well as late planting. When it was first sent out it was not claimed to be particularly early, but extensive growing in this locality proves that it is fully as early as the Early Rose. The tubers are round in shape, eyes somewhat deep, and tubers of both fine appearance and quality. **10 lbs., 75c; 30 lbs., \$1.60; 60 lbs., \$3.00.**

DU PONT SEMESAN BEL POTATO DISINFECTANT

Effective control, either as a dust or liquid, of surface seed-borne scab and Rhizoctonia.

DUST METHOD OF APPLICATION.

Each sixty pounds of whole seed pieces should be treated with two ounces of Semesan Bel dust.

Place the seed pieces and required quantity of Semesan Bel in the dusting container and, after tightly closing the lid or opening, gently shake or rotate it for two minutes or until all seeds are thoroughly coated.

1 lb., \$1.75; 5 lbs., \$8.00

Pumpkins

PUMPKINS are less sensitive than melons or cucumbers to unfavorable conditions of soil and climate but are cultivated the same, though on a larger scale. They are raised between hills of corn or in fields by themselves, but more properly belong to the farm than the garden as they readily mix with and injure the quality of the finer squash. After danger of frost is over plant the seed in hills eight to ten feet apart each way, dropping about a dozen seeds in a hill. If planted with corn two or three seeds 15 feet apart each way will be sufficient.

(By Parcel Post, add Postage; see Page 1)
One ounce will plant 50 hills

Mammoth King, or Potiron The best large pumpkin in use. Forms immense globular shape, flattened a little at the end. Skin reddish yellow in color and flesh rich orange. This is unquestionably the very best mammoth pumpkin we have. **Pkt., 10c; oz., 15c; ¼ lb., 25c; 1 lb., 90c.**

Large Cheese Shape flat; skin mottled light green and yellow, changing to a rich cream color. **Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 50c.**

Kentucky Field A large, round, slightly ribbed, soft shell, salmon-colored pumpkin that is very productive and excellent for stock. **Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 50c.**

Small Sugar Best for home use. **Pkt., 5c; oz., 10c; ¼ lb., 30c; 1 lb., 75c.**

Japanese Pie Similar in size and form to the well-known Cushaw, but the skin is a deep green, with dark stripes, turning to a rich golden yellow. Flesh, deep yellow of fine quality. **Pkt., 5c; oz., 15c; ¼ lb., 35c; 1 lb., 90c.**

Tennessee Sweet Potato A good variety for making pies and other cooking purposes. It is medium size, of a white, creamy color, and has an excellent flavor; good keeper. **Pkt., 5c; oz., 15c; ¼ lb., 35c; 1 lb., 75c.**

RURAL NEW YORKER

It is very large, usually smooth, oblong inclining to round, and rather flattened. Skin and flesh white; quality excellent; season intermediate. Tubers of great uniformity in size; almost every one marketable. Known everywhere as "Dusty" Rural. **10 lbs., 65c; 30 lbs., \$1.50 60 lbs., \$2.75.**

Early Scarlet Turnip White Tip

Early Scarlet Globe The interior of the root is pure white, mild, crisp and fine grained. Its season is rather short, and it must be pulled reasonably soon after maturity. Recommended for the market garden or for green house forcing. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., 75c; 5 lbs., \$3.50.

Philadelphia White Box This famous white turnip-shaped or globe-shaped radish is the foremost of its class. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., 75c; 5 lbs., \$3.50.

St. L. S. Co.'s Crimson Giant It is round, bright crimson, attaining a maximum size before becoming pithy, of one and three-quarter inches long by one and one-quarter inches in diameter. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., 90c; 5 lbs., \$4.00.

Early Scarlet Turnip The famous small round red, crisp, tender, solid and brittle. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 65c.

Yellow Oval Shaped A fine summer turnip-shaped variety; yellow in color, but white meat and tender. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 65c.

White Strassburg Even when comparatively small this variety is in good condition for use and continues crisp until matured. The roots are rather thick at the shoulder and are usually somewhat tapering. This is one of the best large, white later summer sorts. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 65c; 5 lbs., \$3.00.

French Breakfast Too well known to need any introduction. Scarlet with white tips. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 65c.

Wood's Early Frame In shape half long; much used for forcing. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 65c.

Icicle Our strain of ICICLE is excellent as well as profitable and used for either forcing or for outdoor planting. A fine variety for market and private gardeners, who have a demand for an early long white radish. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 65c.

WINTER VARIETIES

Round Black Spanish The roots are round, sometimes slightly top-shaped, three or four inches in diameter. The skin is almost black. The flesh is white, very compact, decidedly pungent, but well flavored. The variety keeps well through the winter. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 90c.

Long Black Spanish One of the best for winter use. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

White Spanish Very solid and tender. The best white radish for late fall planting; largely used by our market gardeners. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 90c.

Rose Colored China Root long, of a fine scarlet color. Extremely solid and a most excellent keeping variety. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

NOTE: The above prices are not Postpaid on 1 lb. or over

Radish

(By Parcel Post, add Postage; see Page 1)

If in the market for large quantities, please write for special price

CULTURE—Sow seed as early in Spring as ground can be well cultivated, in drills 10 to 12 inches apart; thin out to 1 inch apart for small, 2 to 4 inches for large varieties. Soil should be rich, light and well pulverized. Continue sowing every week or ten days for continuous crop. Quick growth insures good quality; they mature in from 18 days to 4 or 5 weeks, according to variety. One ounce to 100 feet of drill, 10 to 12 pounds per acre.

Early Scarlet Turnip A very handsome and attractive radish of a rich, carmine scarlet color and tipped white. It is invaluable for forcing or for open air growing and always a big demand for this fine variety. Its flavor is excellent and its qualities have made it stand out above the ordinary varieties for market growing.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., 65c; 5 lbs., \$3.00.

Fire Ball Radish It is a "Fire Ball" both in growth and appearance and radishes in 21 days from the time of planting is the unrivaled record held by this fine strain. Rich, crisp, brittle flavor, with remarkably good growth and fine pinkish red color.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; 1 lb., 75c.

Long White Strassburg

Rhubarb (Rharbarber)

CULTURE—This plant is mostly propagated by division of the roots. The best time to set out the plants is early in the Spring, although it is sometimes done in Autumn.

Early Linnaeus The earliest and tenderest variety, fine for sauce, pies, etc. Grown largely by gardeners for early market. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.50.

Myatt's Victoria Later than Linnaeus, but mammoth in size; also of a finer quality. Very juicy, tender and almost stringless. Pkt., 5c; oz., 15c; ¼ lb., 50c; lb., \$1.50.

Rhubarb Roots Strong roots. Two years old. Each, 20c; doz., \$2.25.

Hubbard Squash

Spinach

(Spinach by Parcel Post, See Page 1)
One ounce will sow 50 feet of drill. Twenty to twenty-five pounds will sow an acre.

If in the market for 50 or 100 lb. lots or over, please write for special price.

King of Denmark King of Denmark Spinach stood two weeks longer without running to seed than any other kind. The leaves are very thick, dark green and curled or blistered. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 40c; 10 lbs., \$2.50.

Long Standing A very dark green, crumpled variety in general appearance similar to Savoy Leaved but considerably larger and broader in leaf.

Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 40c; 10 lbs., \$2.25.

Bloomsdale, or Savoy This is by far the most popular Spinach among the gardeners and is the best Spring and Fall Spinach ever offered.

Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 40c; 10 lbs., \$2.00; 100 lbs., \$15.00.

New Zealand Makes a luxuriant growth all Summer. It is of exceptional fine quality and extremely tender.

Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 60c.

Oyster Plant or Salsify

One ounce will sow 50 feet of drill

Mammoth Sandwich Island The favorite variety of Salsify, as well as the largest and best sort in cultivation; very hardy. Grown extensively by gardeners and truckers everywhere. Pkt., 5c; oz., 20c; ¼ lb., 60c; 1 lb., \$1.75. Postpaid.

Squash

One ounce of the small seeded varieties will plant 20 hills;
2 to 3 pounds an acre.

CULTURE—Do not plant until settled weather, as plants are very tender. Use same methods as for Cucumbers and Melons.

Early White Scallop Bush A beautiful white Squash of light cream color, large size flat. Elegant for home use. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Mammoth White Scallop Bush This handsome large white variety is about twice the size of the Early White Scallop Bush. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Yellow Summer Crookneck This famous variety is an ideal baking sort as well as being enormously productive. It is of a bush form. Small crooked neck, with warts. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Hubbard Time-tried and worthy of the consideration of all and should be planted by everyone who relishes Squash. Flesh is of a dark yellow color, fine grained. Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 90c.

Improved Striped Cushaw It is of a beautiful variegated coloring, producing stripes of a mottled effect. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., 90c.

Cocozelle Bush A Summer Squash of compact bush form. The fruits are oblong, 12 inches or more in length and 4 to 5 inches in diameter. Skin dark green with stripes of a still darker shade. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.

Tomato (Prices Postpaid)

One ounce will produce about 1,000 plants.

Gulf State Market

CULTURE—The seed should be sown in a hotbed about the first week in March, in drills 5 inches apart and half an inch deep. When the plants are about 2 inches high, they should be transplanted into another hotbed and planted 4 inches apart, or planted in 4-inch pots, allowing a single plant to a pot. About the 15th of May the plants may be set out in the open ground 3 feet apart. Water freely at the time of transplanting. Sufficient plants for a small garden may be started by sowing a few seeds in a shallow box or flower-pot, and placing it in a sunny window of the room or kitchen. The fruit is greatly improved in quality if the vines are tied to a trellis or to stalks.

EARLY SORTS

Bonny Best This variety is a favorite for forcing; just the size wanted (round); color rich scarlet red, very smooth, fruit set in bunches and in great abundance. Everything is in its favor for a forcing Tomato.

Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c; $\frac{1}{4}$ lb., \$1.25.

Earliana (The Earliest Red Tomato). The plants are of compact growth, with short, close-jointed branches, setting the fruit very freely in the center. The Tomato is of uniform size, averaging 3 inches in diameter, and from 2 to 2½ inches in depth. Solid.

Pkt., 10c; oz., 30c; $\frac{1}{4}$ lb., \$1.00.

Early Detroit The largest and best of the early purplish pink Tomatoes. Vine vigorous and very productive. Fruits very smooth, uniform in size, nearly globe-shaped; firm, and excellent quality. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c; $\frac{1}{4}$ lb., \$1.25; 1 lb., \$4.50.

SECOND EARLY, OR MAIN CROP

Gulfstate Market Although this variety was developed primarily to meet the demands of Tomato growers who ship to distant markets, its many excellent qualities make it also a very desirable sort for the home gardener or the grower for local markets. Fruits medium to large, round or globe shaped, show but little depression about stem and are smooth and free from cracks. Color deep purplish pink.

Pkt., 10c; oz., 40c; $\frac{1}{4}$ lb., \$1.25.

St. L. S. Co.'s Improved Excelsior Our strain of this famous Tomato is simply superb. It is of a dark, glossy, purplish red, very large and very solid. The plants make a very strong growth, are hardy and bear most plentifully. This fruit is produced in clusters of four to six large and of perfect shape, and retain this size until late in the season. We have a very carefully selected stock of this universal favorite, and if you want to plant a Tomato for big crop, this variety is unexcelled. It stands supreme and we want everybody to grow some of this variety.

Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c; $\frac{1}{4}$ lb., \$1.25; 1 lb., \$4.50.

St. L. S. Co.'s Improved Excelsior

Tomato—Continued (Prices Postpaid)

SECOND EARLY, OR MAIN CROP

Livingston's Beauty This standard Tomato is well known. Grows in large clusters and retains its large size late in the season. Color, purple. Pkt., 10c; oz., 30c; $\frac{1}{4}$ lb., 90c.

Livingston Globe A large, purplish, pink, globe-shaped or very nearly round tomato of excellent quality. It is extensively used for shipping. The vines are very vigorous and productive. The fruits are rather uneven in size but are very smooth and mature a little earlier than most mid-season or main crop varieties. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c; $\frac{1}{4}$ lb., \$1.25; 1 lb., \$4.50.

Ponderosa A purplish pink. The vines are vigorous and very productive. The fruits are very solid, with exceptionally few seeds, fairly smooth and considered of very good quality, especially by those who prefer a tomato quite free from acid. It is very desirable for slicing. Pkt., 10c; $\frac{1}{2}$ oz., 30c; oz., 50c; $\frac{1}{4}$ lb., \$1.90.

Stone One of the largest and most solid, main crop or late bright red varieties. It is unsurpassed for slicing and canning. The fruits are bright deep scarlet, oval and very deep, exceptionally smooth and uniform in size. Our stock is distinctly superior to most of that offered under this name, being larger, smoother, more uniform and better colored. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 80c; 1 lb., \$2.90.

Dwarf Champion This is sometimes sold as the "Tree Tomato." Purplish pink variety, especially desirable where garden space is limited. The vines are about two feet high, vigorous upright and compact. The fruits are medium sized, exceptionally smooth and of very good quality. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c.

Mammoth Large Red This famous variety is enormous both in size and yield, it being one of the largest smooth, round, red Tomatoes. Clear, bright red color. Flesh is thick and heavy. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c; $\frac{1}{4}$ lb., \$1.25; 1 lb., \$4.50.

SMALL FRUITED TOMATOES

Golden Ball A beautiful large, round, yellow sort. Very fine flavored. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 45c.

Husk, or Ground Cherry A favorite canning or preserving variety. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 45c.

Peach Size, shape and color of a peach. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 45c.

Yellow Pear Excellent for "putting up." Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 45c.

Yellow Plum Popular small yellow, for preserving. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 45c.

Red Cherry Fruits small, about five-eighths of an inch in diameter, perfectly round and smooth. Fine for pickles and preserves. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 45c.

Red Pear Used for preserves and to make "Tomato Figs." Fruits bright red, distinctly pear shaped and of excellent flavor. Pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 45c. Above prices postpaid.

Livingston Globe

Tobacco

Missouri Broad Leaf A well-known standard sort; very large yielder, an ideal sort for home use. Pkt., 10c; $\frac{1}{2}$ oz., 25c.

White Burley The standard main crop variety which produces one of the most fashionable types for manufacturing and cutting. Pkt., 10c; $\frac{1}{2}$ oz., 25c.

Havana The leading smoking variety. Commands a high price for cigar stock. Pkt., 10c; $\frac{1}{2}$ oz., 25c.

Mo. Broad Leaf

We deliver free in the U. S. all vegetable and flower seeds by the packet, ounce or quarter pound.

Turnip

One ounce will sow 200 feet of drill,
one to two pounds for an acre

CULTURE—For early sow seed of flat varieties in open ground in spring in drills one foot or more apart, using seed sparingly. Thin to 3 or 4 inches apart. For succession sow every two weeks until June. For fall and winter sow in July and August. A good crop may often be grown by scattering seed thinly in the cornfield at last cultivation. For Rutabagas sow seed in seedbed in Spring and transplant to good warm soil, in rows at least 2 feet apart and 8 or 10 inches apart in the rows, or sow in open ground during June and early July. Take up the roots just before winter, top and store in cool cellar, or pit outdoors.

Early Purple Top Milan

Extra Early Purple Top Milan

Fully a week earlier than any variety. Flat and smooth; of medium size. Pure white flesh of choice quality. A good keeper. Fine table variety to grow either Spring or Fall. Pkt., 5c; oz., 15c; ¼ lb., 30c; 1 lb., 75c.

Purple Top White Globe

This excellent table variety is globular in shape, of good size and very attractive appearance. The roots are large, purple or dark red above ground, white below. The flesh is white, fine grained and tender. The roots when in best condition for the table are about three inches in diameter, but can be grown much larger for stock feeding.

Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 60c; 5 lbs., \$2.50.

Purple Top Flat Strap Leaf

A very early strap-leaved variety, very extensively used for the table. The leaves are few, entire, upright in growth. The roots are flat, of medium size, purple or dark red above ground, white below. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 60c.

White Globe

The King of all mammoth white Turnips. Immense white, globe-shaped roots. Considering the size it matures early. A very good autumn variety. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 75c.

Yellow or Amber Globe

Is the staple yellow Turnip both for table and for feeding stock. Heavy cropper and keeps well. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 75c.

Seven Top

Grown only for the tops, which are used for greens or salads in the South. Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 75c.

Rutabagas

American Yellow

The most satisfactory variety of Rutabaga to grow for either family use or stock feeding. Is very hardy and productive. Flesh yellow, solid and sweet.

Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 60c.

The above prices are not Postpaid on 1 lb. or over.

Purple Top White Globe

Herbs

SWEET, MEDICINAL AND POT HERBS

CULTURE—For early sow seed in hotbed in March, or open ground in May, in rows one foot apart. Cover very lightly and thin out when large enough to six or eight inches in row. They should be cut on a dry day, before they come into full blossom. Tie in bunches and keep where they will dry quickly.

The varieties marked in asterisk (*) are hardy perennials. To preserve herbs properly, cut the stems and leaves just as the plant is coming into bloom, dry them in the shade, and when perfectly dry wrap them up in paper or store them away in a dry room, or rub the leaves to a powder, pack in bottles and cork tightly, and store them away, which will preserve them for any period.

Anise Seeds aromatic and carminative. Pkt., 10c.

Balm For balm tea or balm wine. Pkt., 10c.

Basil Sweet For highly seasoned dishes, soups, etc. Pkt., 10c.

Borage Used as a salad. Pkt., 10c; oz., 15c; ¼ lb., 50c; 1 lb., \$1.50.

***Catnip or Catmint** Leaves for seasoning. Pkt., 10c.

***Caraway** For flavoring bread. Pkt., 10c.

Chervil, Curled Largely used in soup. Pkt., 10c.

Coriander For flavoring cakes, etc. Pkt., 10c; oz., 20c.

Dill For flavoring pickles and as a condiment. Pkt., 5c; oz., 15c; ¼ lb., 30c; 1 lb., 90c.

***Fennel** (Sweet). Used in sauce. Pkt., 10c.

***Hoarhound** For cough remedies. Pkt., 10c.

***Lavender** Leaves for seasoning, dried flowers for perfuming. Pkt., 10c.

Marjoram (Sweet). Used like sage and thyme in seasoning. Pkt., 10c.

***Rosemary** Hardy, aromatic, evergreen shrub. Pkt., 10c.

***Sage** (Common). Pkt., 10c; oz., 25c; ¼ lb., 90c; ½ lb., \$1.50.

***Savory** (Summer). Thyme-like flavor. Pkt., 10c.

***Sorrel** (Broad-Leaved). For boiling "greens" or salad. Cook like spinach or with it, one-third Sorrel. Pkt., 10c; 1 oz., 20c; ¼ lb., 50c; 1 lb., \$1.75.

***Thyme** (Sweet). For seasoning soups, etc., also tea for nervous people. Pkt., 10c.

Tarragon (Estragon). For flavoring. The young leaves are used for pickles, vinegar, etc. Pkt., 10c.

***Woodruff** Fragrant leaves and stems; used for putting among clothes. Pkt., 10c.

***Wormwood** Used medicinally and in liquors; a good tonic for poultry. Pkt., 10c.

VEGETABLE PLANTS

Frost-Proof Plants Ready February to April

These Plants Are Not Carried in Stock at Our Store, But Shipped Direct from Where They Are Grown in the Southern State.

ONION PLANTS

For those who desire an early crop, either for table use or for local marketing, these plants will prove most desirable, and the fact that they are inexpensive and call for the minimum of labor and trouble in producing the crop has created an ever increasing demand for them. They may be set out at the same time you would plant sets or cabbage plants. Plant in rows about 15 inches apart and 3 to 4 inches apart in row.

CRYSTAL WHITE WAX BERMUDA. Unquestionably the most attractive onion. It is an absolutely pure white Bermuda Onion with a most beautiful waxy appearance that makes it sell on sight in all markets. No other onion has such clear white skin, such mildness of flavor. It is deliciously tender and can be eaten raw like an apple.

YELLOW BERMUDA. The most popular of all the Bermuda varieties. It is the standard variety with the large commercial Bermuda Onion growers. It is a light straw-colored onion. Our special stock ripens early, is of the best color and the heaviest yielder.

Price, 45c per 100; \$1.35 for 500 or \$2.35 per 1000, postpaid. By express, not prepaid, 1000 to 4000, \$1.75 per 1000; 5000 to 10,000, \$1.50 per 1000.

Onion Plants

FROST-PROOF CABBAGE PLANTS

The market gardener who grows cabbages for shipment or the market, must have extra early maturing crops if he wishes to obtain the highest prices. The home gardener who desires extra earliness and who wants to avoid the trouble of sowing cabbage seed and the necessary protection of early sown seed and plants, will find our frost proof plants to be a great convenience.

These plants can then be set out anywhere, and although the top of the plant does not grow until Spring weather, the roots take hold immediately and develop even though they should be covered with snow. Later when the weather becomes favorable, they make an astonishing growth, due to their early start. You know what the difference in profits will be, if your crop is harvested three or four weeks earlier than from home grown plants.

Our Cabbage Plants are grown from the best seed and in a section where they have low temperature in early spring, which makes them hardy and frost proof and they will usually live at any temperature exceeding 26 degrees above zero; however, frost proof does not mean freeze proof.

Orders for plants will be shipped in about four or five days after they are received if weather conditions permit. If plants do not arrive as soon as you expect them you may know that conditions beyond our control are causing the delay.

Frost-Proof Cabbage Plants Varieties: Early Jersey Wakefield, Charleston Wakefield, Early Flat Dutch. Terms: Remittances must accompany all orders. By parcel post in lots of 100 or 300, at 70c per 100 plants; 500 for \$2.25; 1,000 or more at \$3.50 per 1,000 plants, postpaid.

SPECIAL NOTICE

The plants when received will be somewhat wilted and have a stunted appearance, which will be disappointing to persons who have never used these plants before. Regardless of appearance, they will produce results.

PLEASE NOTE. No other varieties supplied except as listed. We cannot sell any one variety of frost proof cabbage plants in less than lots of 100 or except in multiples of 100 no matter how large the order. This means we cannot accept any order for 25 or 50 of one variety and the balance of the 100 in another. Shipment is made when we consider planting conditions best suited to your district or at any time you may specify on your order. Plants are shipped between February 1st and May 1st. They are shipped direct from our growing station and are therefore not sent with seed orders.

Vegetable Plants

Plants sent by express, purchaser paying charges.

Please note: All vegetable plants on this page are grown especially for us, and are in stock at our store and are strong, transplanted plants.

ASPARAGUS ROOTS

Extra-choice Two-year Roots.

ONION SETS

(By Parcel Post, add 5c a quart postage. Prices subject to change.)

The advisability of planting onion sets is recognized everywhere and if you want fine young green onions in short time.

White Onion Sets Crop failed.

Yellow Onion Sets These, like the white and red, are for early setting in Spring. Fine for raising early big onions.
Qt., 25c; gal., 90c.

Red Onion Sets Very widely used for setting in early Spring to produce green onions for the table, and also for large onions.
Qt., 25c; gal., 90c.

Strawberry Plants

(By Parcel Post, add 10c per 100 Postage.)

Strawberry plants are not in stock, but are sent direct to you from the nursery.

PLANTS READY MAY AND SEPTEMBER

Aroma Fruit very large, roundish, conical, rarely misshapen, glossy red, of excellent quality. One of the very best varieties.

Excelsior (Early). Plant a vigorous grower, tough and hardy, and very productive. Fruit large, conical. Color dark glossy red; excellent flavor.

Klondyke Of large and uniform size, fine form and color, great vigor of plant and productive.

Gandy (Late). Very productive, fruit large and a good keeper. All varieties
25 for 35c; 100 for \$1.00; 1000 for \$8.50.

Progressive This is the most wonderful ever-bearing strawberry ever produced. A healthy and strong grower; very productive, from June until freezing weather; succeeds well anywhere.
25 for 75c; 100 for \$1.50; 1000 for \$12.00.

Clover Seed

(Bu. 60 Lbs.)

(Field Seeds by Parcel Post, See Page 1.)

Bags extra at cost. $\frac{1}{2}$ bu. cotton, 20c; seamless, 35c each.

ALL PRICES ON FIELD SEEDS ARE SUBJECT TO MARKET CHANGES. ALL ORDERS FILLED TO THE AMOUNT OF REMITTANCE AT MARKET PRICES WHEN ORDER IS RECEIVED

500 lb. lots, write for price.

CLOVER can be sown in the Spring, from February to April in this locality, varying earlier or later according to other latitudes. Excellent results can also be obtained from sowing it on late snows, as with the melting of these the seed soaks into the earth about the right distance. The Summer and early Fall sowing of clover is also giving most satisfactory results, and a full crop can be cut the succeeding year when this is done.

ALFALFA CLOVER (Fancy)—The King of Forage Plants.—Alfalfa is the corner-stone upon which is being built the prosperity of wide areas of our agricultural country—with its never-failing three and four crops of from five to six tons per acre.

Lb., 40c; 5 lbs., \$1.75; 25 lbs., \$6.00; 100 lbs., \$22.50.

ALSIKE CLOVER—This is one of the hardiest varieties known. It is perennial and does not winterkill. It will do better on moist land than any other variety of Clover, and is suitable for either hay or pasture.

Lb., 60c; 5 lbs., \$2.50; 25 lbs., \$10.50; 100 lbs., \$40.00

RED CLOVER—This is regarded as the most valuable of the clover family. It makes two crops each year. The first is usually cut when it is in blossom for hay; the last crop may be harvested for seed. Our strictly "Fancy Recleaned" grade cannot be surpassed by anyone. Lb., 60c; 5 lbs., \$2.50; 25 lbs., \$10.50; 100 lbs., \$40.00

CRIMSON CLOVER—It can be seeded at any time from June to October, at the rate of fifteen to twenty pounds to the acre, and makes the earliest possible spring pasture.

Lb., 30c; 5 lbs., \$1.25; 25 lbs., \$4.50; 100 lbs., \$16.00.

SWEET CLOVER (White Blossom)—It is a biennial leguminous plant, tall, somewhat like coarse alfalfa, growing 8 to 10 feet high. Its blossoms, which rarely appear until the second year, are white and give a strong smell of honey. If not allowed to reseed, it will die out the second year.

Lb., 25c; 5 lbs., \$1.25; 25 lbs., \$4.50; 100 lbs., \$16.00.

Crimson Clover

WHITE DUTCH CLOVER

A low, close growing Clover; round, white heads very fragrant. Very desirable for beautifying the lawn. $\frac{1}{2}$ lb., 45c; lb., 80c; 3 lbs., \$2.25.

Semesan

Controls seed diseases, quickens germination, invigorates seedling growth, produces sturdier plants, increases crop yields.

DUPONT SEMESAN is the first seed, plant and soil disinfectant that can be applied in either dust or liquid form. Extensive seed tests show that Semesan will successfully prevent or control the majority of externally and many internally-borne diseases of seeds without in the least impairing their vitality. It is also effective in curing a number of common diseases that attack plants and infest the soil.

"Brown Patch": Semesan prevents and cures "Brown Patch," a disease of grasses that destroys the turf of golf greens, grass tennis courts, parks and estates.

"Damping Off": Seedlings grown from Semesan-treated seeds are more resistant to the costly "damping-off" fungi which so severely attack both seedlings and cuttings.

Farm and Field Seeds

"PURE AND SURE SEEDS"—BIGGER AND BETTER CROPS

MOST important to all who depend for their living on the products of the soil is **Selected Seeds**, that not only will germinate and are reliable, but that will produce bumper crops, that will fill the granary with fine high-priced wheat, and the corn bin full of this great product. "Pure and Sure" Seeds are the kind that produce the crops that mean great big profits from a small outlay of money. You cannot afford to waste your time planting cheap seeds when you look for results from your plantings. It is poor economy to plant untested seeds when for a little more you can have seeds of the highest quality, and that is what you want. You can have confidence in the quality of our Pedigreed Seeds, for we have made a specialty of farm seeds and the value of the same cannot be exaggerated. Let us know what you want in the line of field seeds, and we guarantee you quality that cannot be equaled for the price.

56 Lbs.

GRADED SEED CORN

WE CAREFULLY grade all seed corn which we send out, removing the extreme tip and butt kernels so that it is readily planted with edge-dropping planters. But the grading is only a part of the labor which we give to the production of good seed corn. It is gathered early and stored in seed corn house, and only those absolutely true to type and of strong vitality are shelled for seed purposes.

CHAMPION EARLY WHITE PEARL

(90 days)

This is the earliest snow white Dent corn. Grown extensively by gardeners for roasting ears. It is an immense yielding variety and very uniform in shape, size, etc., and therefore its great market demand. The ears grow very large—the cob small, two great factors of profit in corn. Our selected seed of this variety is without equal anywhere and the many good reports about this variety have far exceeded our expectations. You cannot buy better seed corn at such a low price. 5 lbs., 60c; 15 lbs., \$1.20; 25 lbs., \$1.50; 56 lbs. (1 bu.), \$2.75.

PRIDE OF THE NORTH

(90 days)

The great favorite of the extreme Northern States and a most useful variety where a late planting is necessary. The ears run from seven to nine inches long, with small cob and deep kernels; ears usually contain from fourteen to eighteen rows; will ripen and mature anywhere in ninety days; can be planted as late as June 25th and make itself by September 10th. Good soil is capable of growing four to six stalks to the hill; many stalks have two ears and usually produce from forty to fifty bushels of good, sound corn per acre. 5 lbs., 60c; 15 lbs., \$1.20; 25 lbs., \$1.50; 56 lbs. (1 bu.), \$2.75.

IOWA SILVER MINE

(Matures 100 days)

This is not a new variety, but is one of the best-known sorts, on account of its great popularity and wonderful record. It is noted for its great vitality to withstand and resist extreme conditions of weather, wet or dry; also hot weather, and makes good crops where other sorts wither, burn up and perish under hot winds and scorching sunshine. Each year we have grown this corn we have sought to select and improve it in every way possible, not so much to increase the size of the ears, but to increase uniformity of size and number of ears to the stalk.

Stalks grow 8 to 10 feet in height and ears set well down toward the ground. 5 lbs., 60c; 15 lbs., \$1.20; 25 lbs., \$1.50; 56 lbs. (bu.), \$2.75.

Champion Early White Pearl

Pride of the North

St. L. S. Co.'s White Star

ST. L. S. CO.'S WHITE STAR

(Matures 110 days)

This wonderful white dent corn is known, grown and more extensively planted than any White Corn. It is adapted to a wide range of conditions, and is a corn of the North, South, East and West, and a variety that always, everywhere gladdens the hearts of the farmers and fills his cribs at harvest time.

Our seed of this variety is from selected ears. You cannot plant a better variety and you know that your order for this corn will be filled with the highest grade, selected seed corn. 5 lbs., 60c; 15 lbs., \$1.25; 25 lbs., \$1.75; 56 lbs. (bu.), \$3.25.

REID'S YELLOW DENT

The Most Popular Yellow Dent Corn in the Great Central Corn Belt.

(Matures 110 days)

The Reid's Yellow Dent Field Corn has been bred up and selected with painstaking care to what is at the present time—one of the best varieties of yellow corn grown. Ear medium in size, remarkably uniform, and of a bright yellow color, with solid, deep grain and small red cob. Has from 18 to 24 rows of kernels on the cob, 50 to 60 grains in the row, and is well-filled over the ends, and especially the butt. 5 lbs., 60c; 15 lbs., \$1.25; 25 lbs., \$1.60; 56 lbs. (bu.), \$3.00.

GOLD BOND

If any seed grain can truly be called pedigreed, the Gold Bond Field Corn is certainly entitled to be known as such. It has been bred up and selected to one of the best varieties of yellow Corn grown. Ear medium in size, remarkably uniform, and of a bright yellow color, with solid, deep grain and small red cob. Has from 18 to 24 rows of kernels on the cob, 50 to 60 grains in the row.

You will be an enthusiastic booster of our Gold Bond once you have planted it. 5 lbs., 60c; 15 lbs., \$1.25; 25 lbs., \$1.75; 56 lbs. (bu.), \$3.25.

BOONE COUNTY WHITE

(Matures 120 days)

BOONE COUNTY WHITE—Is a highly bred variety of white corn of extra large size, containing a high percentage of oil. It is late maturing, but with good long seasons and favorable conditions, it is a splendid yielder. In many places it is a great favorite. The ears are from 9 to 12 inches long, $7\frac{1}{2}$ to $8\frac{1}{2}$ inches in circumference, containing 18 to 24 rows. The cob is medium large and pure white in color. We supply only the very best quality seed, true to type in every way. 5 lbs., 60c; 15 lbs., \$1.20; 25 lbs., \$1.50; 56 lbs. (1 bu.), \$2.75.

ST. CHARLES WHITE, RED COB

(Matures 120 days)

This excellent variety was introduced in St. Charles County, Missouri, and is very popular with a large number of our customers, especially in that vicinity, where plantings are made every year. It is a very handsome, pure variety of white corn, set on a red cob and the ears are usually 8 to 10 inches long, 16 to 18 rows of deep, broad kernels.

Our seed stock of this variety was grown from pure, genuine stock and can be relied upon to give the best possible results to be obtained from this variety. 5 lbs., 60c; 15 lbs., \$1.20; 25 lbs., \$1.50; 56 lbs. (1 bu.), \$2.75.

POP CORN

See Page 15.

Lawn Grass Seeds

One lb. will sow 300 square feet. 50 to 75 lbs. to the acre.

We desire to call particular attention to the fact that Grass Seeds are sold to the trade by sample, and each sort is divided into three or four grades, according to purity, germination and weight. The price of the best grade is often double that of the ordinary. The Grass Seeds here offered by us are in every case the VERY HIGHEST GRADE.

THE essentials for a fine lawn are: First, a rich, well drained soil; second, careful preparation of the ground, making it as fine and smooth and mellow as possible; third, a wise selection of seeds; fourth, sowing at such a time as to give the young plants a chance to become well established before being subjected to very dry or cold weather or to the direct rays of the hot summer sun. However much care is bestowed on the soil and seed, no lawn will be beautiful without frequent mowing and rolling. Too much care cannot be bestowed upon the selection of grasses, as some varieties are the most luxuriant in spring, others in summer, others again in autumn and a combination of the proper sorts is required for a perfect, carpet-like lawn. It may be planted early in spring or fall and should be sown at the rate of sixty to one hundred pounds per acre. If sown in the spring, sow as early as possible.

Our Famous HAVALAWN MIXTURE See Page 2

Clover (White or Dutch). A low, close-growing clover; round, white heads, very fragrant. Very desirable for beautifying the lawn. It will stand close cutting and very rapidly throws up an abundance of leaves and blossoms.

½ lb., 45c; 1 lb., 80c; 3 lbs., \$2.25.

Bermuda Grass Used extensively in the South for lawns, where other lawn grasses cannot be successfully grown. Sow seed in the Spring.

½ lb., 35c; 1 lb., 60c; 5 lbs., \$2.75; 10 lbs., \$5.00.

Creeping Bent Grass (*Agrostis stolonifera*). This is particularly valuable for lawns that are to be used for croquet grounds or for tennis courts, because it is benefited more than hurt by tramping and by its bright color adds to the beauty of the lawn.

½ lb., 75c; 1 lb., \$1.25; 5 lbs., \$6.00.

Canadian Blue Grass A hardy perennial with creeping root-stalks which form a strong turf. It withstands drought better than most cultivated grasses and is especially valuable in Lawn Grass mixtures. It succeeds best on clay soils. For hay or pasture it is best sown with other grasses. Height six to twenty inches. 1 lb., 60c; 3 lbs., \$1.75; 10 lbs., \$5.50.

Kentucky Blue Grass (*Poa pratensis*). Fancy Clean. Kentucky Blue Grass is the most nutritious, hardy and valuable of all northern grasses. Sown with White Clover it forms a splendid lawn; for this purpose use not less than seventy-five pounds of Blue Grass and six pounds of White Clover per acre.

1 lb., 50c; 3 lbs., \$1.45; 10 lbs., \$4.50; 25 lbs., \$10.25; 100 lbs., \$34.00.

Perennial Rye Grass A very valuable variety for permanent pasture. Succeeds well on almost any soil, but is particularly adapted to moderately moist or irrigated lands. Sow thirty to forty pounds per acre in spring.

1 lb., 25c; 3 lbs., 70c; 10 lbs., \$2.00.

Mixtures for Golf Links While there are on the market numerous ready prepared golf mixtures of more or less value, we have found that the best results are obtained by giving individual attention to each customer and making a special mixture to suit his needs. Write us a description of your links, telling what the nature of the soil is, how drained, how much it has the sun, whether the winters are long or open and whether the summers are wet or dry and we will offer you two or more mixtures especially adapted to the various parts of your grounds.

1 lb., 60c; 10 lbs., \$5.00; 100 lbs., \$40.00.

Red or Creeping Fescue A creeping rooted grass, resisting extreme drought, and especially adapted for forming a close and lasting turf in shady places. Valuable also for exposed hillsides, and golf courses. Sow 40 pounds per acre.

1 lb., 60c; 10 lbs., \$5.50.

St. L. S. Co.'s Shady Lawn Mixture This mixture is intended for all situations that are in partial or complete shade, and will be found invaluable on grounds lying under the shadows of trees or buildings. This mixture is a combination of fine dwarf-growing ever-green varieties of grass, which grow naturally in the woods or in shaded spots. Sow thickly.

½ lb., 30c; 1 lb., 60c; 3 lbs., \$1.75; 10 lbs., \$5.50.

Grass Seeds

In 500-pound lots, write for prices.

Orchard Grass (Rough Cock's Foot). A rather coarse perennial grass that forms dense tufts. Flourishes best in the shade.

1 lb., 40c; 5 lbs., \$1.25; 100 lbs., \$17.00

Red Top A very hardy perennial grass, succeeding best on moist land. It accommodates itself to a variety of soils, however, even to quite dry situations, and stands our hot climate admirably. Fancy or solid seed.

1 lb., 50c; 10 lbs., \$4.25; 100 lbs., \$34.00.

Sudan Grass Is probably the wild original form of the cultivated sorghums. It is a tall annual grass, growing under favorable conditions to a height of 6 to 10 feet, but when broadcast thickly, it grows from 3 to 5 feet. The stems are fine. The grass cures easily, making hay of excellent quality, which is readily eaten by all kinds of livestock. It is considerably earlier than the earliest Amber Sorghum, and will probably mature as far north as the Canadian line.

1 lb., 20c; 10 lbs., \$1.50; 25 lbs., \$2.50; 100 lbs., \$8.00.

Timothy (45 lbs. per bu.) The best of all grasses for hay. It should be cut when in blossom, in June or July. It is preferable to sow in the Fall, but we sell almost as much seed in the early Spring, and it is frequently sown then with equal success.

1 lb., 20c; 5 lbs., 85c; 25 lbs., \$2.75; 100 lbs., \$9.50.

PASTURE MIXTURES

Pasture Mixture "A" (Good Moist Soils). Sow 25 pounds per acre. This is intended for the average soil. Use more seed where land is drier. If stock does not keep down to six or ten inches, use the mower to do so. Do not pasture too closely. This is well suited for "patching" your present pasture by disking or harrowing in.

5 lbs., \$2.00; 25 lbs., \$5.75; 100 lbs., \$22.00.

Pasture Mixture "B" (Dry, Hilly Uplands). Sow fifteen to twenty pounds per acre. Recommended for rolling ground, or where stones or sand in soil demand drought-resisting varieties. Plow or disk in where possible, and on unplowed, stumpy or stony ground brush thoroughly.

5 lbs., \$2.00; 25 lbs., \$5.75; 100 lbs., \$22.00.

Pasture Mixture "C" (Shaded Pastures). Sow 25 to 30 pounds per acre. This is especially planned to suit the woods, which is often waste except for its timber. Get the seed on and into the ground; do not leave on top of the leaves. The more open use the more seed.

5 lbs., \$2.25; 25 lbs., \$6.50; 100 lbs., \$25.00.

PLEASE WRITE FOR PRICES IF IN THE MARKET FOR 500 LB. LOTS—BAGS EXTRA; SEAMLESS, 35c.

Barley (Spring). It can be grown on almost any kind of soil and produces a crop even on light soil which will not produce wheat or oats.
Lb., 15c; 5 lbs., 50c; 25 lbs., \$1.25; 100 lbs., \$4.00.

Buckwheat (Common). It is much more productive than any other and succeeds well almost any place. Lb., 15c; 5 lbs., 50c; 100 lbs., \$4.50.

Broom Corn (Standard Evergreen). Grows about eight to ten feet high, stands up well and is entirely free from crooked brush. Lb., 15c; 5 lbs., 60c.

Cane (Early Amber). Farmers and stockmen say that Early Amber Cane is the most valuable fodder plant in existence. Not only is it adapted for feeding purposes, but it has great qualities for Sorghum.
Lb., 15c; 5 lbs., 50c; 25 lbs., \$1.50; 100 lbs., \$3.75.

Cane (Early Orange). A variety well adapted for the South. It is from eight to ten days later than the Early Amber.
Lb., 15c; 5 lbs., 60c; 25 lbs., \$1.50; 100 lbs., \$3.75.

Cow Peas are very valuable for hay when cut and also a great soil enricher when plowed under. Cow peas should be sown at the rate of 1 to 1½ bu. per acre. In 100-pound lots, write for prices.

Cow Peas (Whippoorwill). This variety matures in about 70 days and is very largely grown as a soil improver and for pasturage. Has brown speckled seeds.
Lb., 15c; 5 lbs., 50c; 25 lbs., \$2.00.

Cow Peas (New Era). This famous variety is grown extensively everywhere and is an early maturing variety of quick, upright growth. The vines make a splendid dry forage, cure easily.
Lb., 15c; 5 lbs., 50c; 25 lbs., \$2.00.

Cow Peas (Mixed). We always have a supply of mixed varieties; usually a little lower in price because of this, but equally valuable for forage or for enriching the soil. Lb., 15c; 5 lbs., 50c; 25 lbs., \$2.00. Write for prices on larger quantities.

Kaffir Corn One of the finest fodder plants, yielding two crops each season. Stalks grow to a height of five or six feet, each bearing numerous wide leaves. It is a wonderful yielder and one of the most profitable crops grown.
Lb., 10c; 5 lbs., 40c; 25 lbs., \$1.00; 100 lbs., \$3.50.

Millet (German or Golden). It is a strong grower and will yield enormous crops of the finest hay, and should be cut before the seeds will harden. For hay, sow from May to August 1st. For grain, sow in drills not later than June 20th. Fancy.
Lb., 15c; 5 lbs., 50c; 25 lbs., \$1.75. (50 lbs. per Bushel.)

Oats (Early White Champion). This is a well-known variety throughout the central states and north-west. It ripens early and yields abundant crop. It is a large, white oat, free from black kernels. In comparison with other sorts, one close observer has stated: "It has the plumpest kernel of any variety."

Bu., 85c; 10 bu. 80c per bu.

Oats (Mixed Black). They are preferred by those who have had experience with them principally on account of their superior yielding qualities, but besides being fully equal if not better than white oats in point of feeding qualities, they, possess another very valuable characteristic in the unequaled stiffness and strength of straw.

Bu., 95c; 10 bu., 90c per bu.

Oats (Texas Rustproof). The ideal Rustproof variety, grown extensively throughout the South, an immense yielder, a sure cropper. Bu., 95c; 10 bu., 90 per bu.

Peanuts Planted in April, they ripen in August, and planted as late as July 1st, they will mature full crops before frost. Lb., 25c; 5 lbs., \$1.00.

Peas (Canada Field). Valuable for northern climates, for cattle-feeding, especially for milch cows. This pea also makes fine ensilage and for plowing under as a green manure has no equal.

Lb., 15c; 5 lbs., 50c; 25 lbs., \$2.50; 100 lbs., \$6.00.

Rye If sown early in the spring it makes an early and abundant pasture. It is quite commonly employed recently and used with great profit as a catch crop where grain has been winter-killed. Sow 1½ to 2 bushels to the acre. Lb., 10c; 5 lbs., 30c; 25 lbs., \$1.00; 100 lbs., \$3.00.

Sunflower (Mammoth Russian). Sunflower Seeds are superior for poultry (said to improve the meat). Lb., 15c; 5 lbs., 65c; 25 lbs., \$2.50.

Rape—Dwarf Essex As a forage plant for hogs, cattle or sheep it cannot be surpassed. No owner of stock can afford to be without this great forage crop.

Lb., 15c; 8 lbs., \$1.00; 25 lbs., \$3.00.

Soy Beans Have been grown successfully in all sections of this country, and by many farmers are preferred to Cow Peas, both for their larger yield of beans, and the fact that they are easier to gather. Medium Early: Lb., 15c; 5 lbs., 50c; 25 lbs., \$1.60. Yellow: Lb., 15c; 5 lbs., 50c; 25 lbs., \$1.60.

General List of Flower Seeds

We mail all Flower Seeds POSTPAID to any Post Office in the United States.

SURROUND your house with flowers, the most refining and uplifting influence in the world. Nothing can add to the beauty of your home like a flower garden. Here you can spend many pleasant hours; it is an enjoyable task to plant them, watch them grow and pick them for ornaments.

Years of experimenting, testing and selection have made "Pure and Sure" Seeds the highest quality seeds that have ever been offered the lover of flowers. Everything that would aid in producing better seeds, more beautiful flowers, and finer, improved varieties, has been done and the acme of perfection has been reached in our "Pure and Sure" Flower Seeds.

ACONITUM

(Monk's Hood, Wolfsbane)

NAPELLUS BLUE—A hardy perennial, growing in any good garden soil, producing long spikes of curiously-shaped blue flowers. Well adapted for planting among shrubbery or in shady corners of the garden; 3 to 4 feet. **Pkt., 10c.**

ACROCLINIUM

(Everlasting Flower)

A pretty everlasting, bearing graceful, daisy-like flower, pretty bright rose with yellow center, which, when cut in the bud state, can be dried and used for winter bouquets. Double mixed; 1 foot. **Pkt., 10c.**

ADONIS AESTIVALIS

(Flos Adonis)

Beautiful annual dark scarlet flowers with light center. Of easy culture and showy. Fine cut foliage. A very pretty plant; 1 foot. **Pkt., 10c.**

AGERATUM

(Floss Flower)

An excellent annual plant for edging or solid effects. For early bloom sow indoors from March till May; sown outdoors in May will flower in August. A continuous bloomer.

BLUE PERFECTION—Large heads of deep blue flowers produced in abundance; 15 inches. **Pkt., 10c.**

IMPERIAL DWARF BLUE—Clear blue; compact growing plant; height, 9 inches. **Pkt., 10c.**

IMPERIAL DWARF WHITE—**Pkt., 10c.**

LITTLE BLUE STAR—Plants densely covered with bright blue flowers; height, 5 inches. **Pkt., 15c.**

MIXED—Blue and white; 12 inches. **Pkt., 5c; ¼ oz., 25c.**

ABRONIA UMBELLATA

(Sand Verbena)

Verbena -Like rose colored flowers. Elegant trailing habit. Hardy annual. **Pkt., 10c.**

ABUTILON

(Flowering Maple)

CHOICE MIXED—Used extensively for ornamental bedding; foliage is of maple form and has variegated coloring; flowers bell-shaped; height, 3 feet. **Pkt., 20c.**

ACHILLEA

(Milfoil or Yarrow)

THE PEARL—Tall erect plant bearing its pure white double flowers in great profusion all summer; hardy perennial; easily grown from seed; flowering the first season if seed is sown early; excellent cut flower for vases; 2 feet. **Pkt., 15c.**

Ageratum

AGROSTEMMA CORONARIA

(Rose Champion)

Exceedingly handsome and free-flowering. Perennial. Red. 1½ ft. Pkt., 10c.

ALYSSUM (Annual)

This is one of the finest hardy annuals we have, and is beloved by many on account of its modest blossoms, very similar to white forget-me-nots. It is pleasantly fragrant, and just the thing for personal adornment or the breakfast table. It begins to blossom early in the season and blooms more or less constantly until Fall.

MARITIMUM (Sweet)—Of trailing habit; flowers white. Pkt., 5c; oz., 50c.

CARPET OF SNOW—We know of no other white flower which is so particularly well adapted to borders, ribbons, etc., as our Carpet of Snow Alyssum. The plants commence to bloom when quite small, and will flower all Summer long, till late in the Fall. This habit, with its fragrance, makes it indispensable. Pkt., 10c; ½ oz., 35c.

LITTLE GEM—The best variety for bedding. Very dwarf and compact. Pkt., 10c; ½ oz., 35c.

LILAC QUEEN—A distinct, new annual variety with pure lilac colored flowers. The plants are of dwarf compact growth and are equally as useful for carpet bedding and edgings as the dwarf white varieties. Pkt., 10c.

SAXATILE—Hardy. A grand variety of exquisite coloring. This new variety forms a perfect little bush with miniature flowers in great masses, of a bright yellow. This species is a hardy perennial, but blooms the first season from seed if sown early, grows about 12 inches high. Pkt., 10c.

AMARANTHUS

Beautiful colored foliage plants; succeeds best in sunny, dry locations.

TRI-COLOR (Joseph's Coat)—Decorative foliage plants, easily raised from seed, either by starting them early indoors or sown outdoors in May. Useful in borders of tall plants or for the center of large beds; annual; 3 feet. Pkt., 10c.

PRINCE'S FEATHER—Dark red feathery flowers. Pkt., 10c.

CHOICE MIXED—Pkt., 5c.

AMPELOPSIS (Boston or Japan Ivy)

VEITCHII—Clings to the walls of wood, stone or brick. Dense foliage; glossy green; changing to red yellow in Autumn. Hardy. 20 feet. Pkt., 10c.

ANCHUSA (Dropmore Variety)

ITALICA—One of the finest hardy plants of recent introduction, remarkable for its free and continuous flowering and the beautiful gentian-blue color of its flowers; grows about five feet high, and should be in every hardy border. Pkt., 10c.

Antirrhinum Half Dwarf

Anemone

ANEMONE (Windflower)

A very pleasing perennial, producing large flowers; few plants compare with them in beauty; fine for bouquets. Sow outdoors in Spring, keeping shaded till the plants appear.

ST. BRIGID—Mixed colors. Pkt., 10c.

ANTHEMIS (Hardy Marguerite)

KELWAYI—A most satisfactory hardy perennial, bearing all Summer daisy-like golden-yellow blossoms; excellent for cutting, 2 ft. Pkt., 10c.

ANTIRRHINUM

Half Hardy Perennial Treated as an Annual.

Antirrhinums or Snapdragons have increased in popularity within the last few years until now, when used for cutting or grown in the garden for display, they rival even the sweet pea in beauty and gracefulness. They are one of the most valuable flowers that grow from seed.

Seed sown out of doors the first week of May will bloom early in July, remaining in full flower until November. For earlier flowering they may be started indoors or in a frame in March, transplanting them to the open when the weather is suitable.

Snapdragons thrive best in positions partly shaded from the sun. It reproduces itself freely from seeds which ripen in abundance and may frequently be seen growing scattered throughout the garden.

ANTIRRHINUM

ARABIS (Rock Cross)

ALPINA—A hardy perennial and one of the earliest and prettiest Spring flowers. The spreading tufts are covered with a sheet of pure white flowers as soon as the snow disappears. 6 inches. Pkt., 10c.

ASPARAGUS

PLUMOSUS NANUS—Probably the most popular house plant today. Pkt., 10c.

SPRENGERI—Similar to Plumosus in coloring, only hardier and more easily grown. Pkt., 10c.

AQUILEGIA (Columbine)

Few hardy perennials are so easily grown from seed. A most desirable border plant. It forms large clumps, blooms early, long and abundantly, is useful for cutting and elegant in habit. Sow in the fall for flowering the following season.

CALIFORNIA HYBRIDS—Exquisite flowers, in yellow and orange shades, all with low spurs Pkt. \$0.10

CANADENSIS—Scarlet and yellow. 10

COERULEA—Splendid light blue and white. 10

FLABELLATA—Japan white 10

DOUBLE—All colors mixed. ½ Oz., 50c 10

SINGLE—All colors mixed. ½ Oz., 50c 10

Mrs. Scott Elliott's Strain of Long Spurred Hybrids. The blooms are of large size and the spurs very long. The colors range through shades of lavenders, mauves, blues, purples, whites, creams, yellows, pinks, reds, etc. Pkt., 10c.

ST. L. S. CO.'S LONG-SPURRED HYBRIDS—This beautiful strain of Columbines comprise new and pleasing shades and combinations, ranging through all the shades of lavender, blue, mauve, white, yellow, orange, scarlet and bright rose-pink. Pkt., 10c.

CHRYSANTHA—Golden-yellow. Pkt., 10c.

ANTIRRHINUM—Continued**TALL, LARGE-FLOWERING VARIETIES**

The varieties offered below are the best and most improved of the largest-flowering sorts. The blooms are double the size of the old varieties and for a select strain of this great favorite, plant our improved strain.

ARCTOTIS GRANDIS

BLUE-EYED, or African Daisy—White and Lilac. The large daisy-like blooms of this fine, hardy annual are excellent for cutting. 2 feet. Pkt., 10c.

Aquilegia

Asters (Annuals)

CHOICEST VARIETIES FOR SUMMER FLOWERING

ASTERS will thrive in any good soil, prepared in the same way as you would for a crop of vegetables, but it is well to remember that any extra care taken in the preparation of the soil is repaid by finer plants, larger blooms, with longer stems and more profuse flowering. They should have an open, sunny position, and prefer a good, heavy, loamy soil. For early flowering, seeds should be started in a sunny window, hotbed or coldframe in April and transferred to their place in the garden as soon as danger of frost has gone by. For August (midseason) and September (late) sow seeds outside in finely prepared ground in May, thinning out to one foot in the rows and two feet between. With the above prescribed treatment and frequent cultivation of plants to insure a steady growth until flowering, excellent large blooms with long stems can be obtained.

QUEEN OF THE MARKET ASTER

An extra early variety, bearing large double flowers; plants of branching habit, having long stems, 2 feet.

	1/2 Oz.	Pkt.		1/2 Oz.	Pkt.

ST. L. S. CO.'S NOVELTY MIXED ASTERS

This superb mixture is composed of all new novelties of recent introduction. The plants form strong, branching bushes, 2 to 2½ feet high, bearing on long, strong stems their handsome Chrysanthemum-like flowers.

Pkt., 15c; ½ oz., \$1.25.

Improved Giant Crego

Balsam

BEGONIA

A beautiful flower of various colors. Blooms in constant profusion from early Summer until late Fall, and an excellent plant for Winter blooming.

PRIMA DONNA—Light rose, shading to carmine. Pkt., 15c.

ERFORDIA—Easily raised from seed, which should be started either indoors or in a hotbed. Pkt., 15c.

LUMINOSA—Brilliant, fiery, dark scarlet. Pkt., 15c.

DWARF VERNON—Bright orange-carmine flowers, deep red foliage. Pkt., 15c.

FINE MIXED—Similar to above, mixed. Pkt., 10c.

BRACHYCOME (Swan River Daisy)

IBERIDIFOLIA MIXED—Very effective in edgings, beds, and rustic baskets. Good for house culture in winter. Always in full bloom. Pkt., 10c.

CACALIA (Tassel Flower)

A pretty free-blooming plant with tassel-shaped flowers, also called Devil's Paint Brush. Of easy growth; annual; 18 inches. Pkt., 10c.

CALENDULA (Annual)

Large double flowers, blooming all Summer, closing somewhat at night and opening slightly on cloudy days; flowers borne on long, stiff stems. 2 feet.

LEMON QUEEN—Very large and extremely double flowers of a pleasing rich lemon-yellow, dark eye. Pkt., 10c.

ORANGE KING—Very large double orange-red. Pkt., 10c.

METEOR—Creamy center, edged with orange. Pkt., 10c.

NANKEEN—A very distinct variety, the double flowers of a creamy-yellow, slightly flushed apricot, dark brown eye. Pkt., 10c.

MIXED—Pkt., 5c; oz., 50c.

BALLOON VINE (Love-in-a-Puff)

A rapid-growing annual climber; succeeds best in light soil and warm situation; flowers white; seed vessels look like miniature balloons. 5 to 10 feet. Pkt., 5c.

BALSAM (Lady Slipper)

An old favorite garden flower, producing its gorgeous masses of beautiful, brilliant-colored double flowers in the greatest profusion. Tender annuals, 2 feet.

CAMELLIA FLOWERING DOUBLE—The flowers are very large, measuring from two to three inches in diameter, of perfect form.

BEAN, SCARLET RUNNER

A great favorite in England and Europe, not only as an ornamental climber, but for the delicious edible beans. Pkt., 10; ¼ lb., 25c; 1 lb., 60c.

Calendula

CALCEOLARIA (House Plant)

Colors—Yellow, maroon, white, etc., spotted and blotched in the most unique fashion. 1½ feet. Large flowered, Mixed. Pkt., 25c.

CALLIOPSIS (Annual)

One of the most showy flowers, very easily grown; will thrive almost anywhere without trouble or care. A favorite for the home yard or lawn.

CRIMSON KING—A fine dwarf sort, 9 inches high; color rich velvety crimson-garnet. Pkt., 10c.

CROWN OF GOLD—Large, rich, golden-yellow, 18 inches. Pkt., 10c.

GOLDEN RAY—Dwarf, compact plants, not over 9 inches high, covered with flowers of rich maroon edged with golden yellow and having twisted petals like a Cactus Dahlia. Pkt., 10c.

SUPERB HYBRIDS, MIXED—Unlike other varieties, this is a fine bedding plant, besides being useful for bouquets.

The colors are richer and more varied. Height, 14 inches. Pkt., 10c.

TALL MIXED—Valuable for mixed beds and borders. About 2 feet. Pkt, 5c; oz., 50c.

CAMPANULA (Canterbury Bells)

Very beautiful, hardy, herbaceous perennial, bearing a great profusion of attractive Bell-flowers; thrives best in light, rich soil; some of the varieties flower first season if sown early.

CANNA (Annual)

Cannas are famous for their luxuriant growth and immense Gladiolus-like flowers of most brilliant colors; their profusion and continuity of bloom under all climes and conditions render them easily the most useful, showy and universally popular garden plants grown.

Mixed Pkt., 10c. Canna Roots, see pages 74 and 75.

Calliopsis

CANARY-BIRD VINE

(*Tropaeolum Canariense*)

A beautiful rapid annual climber, the charming little canary-colored blossoms bearing a fancied resemblance to a bird with its wings half expanded; 15 feet. Pkt., 10c.

CANDYTUFT (Iberis) (Annual)

The Candytuft is almost as fragrant as the sweet alyssum and very popular. Very useful as a bedding plant or for border work. Sow outdoors in April, where they are to bloom, and thin well when the plants grow about 1 inch. Sow also in July for fall blooming.

EMPRESS—The best pure white and the best for cut flowers; fragrant. Pkt., 10c; ½ oz., 25c.

GIANT HYACINTH-FLOWERED—As a result of extra care and painstaking selection this is now the finest of all flowers, in a pyramid of bloom. Pkt., 10c; ½ oz., 40c.

GIBLARTICA HYBRIDA—White flowers, shading to lilac. Pkt., 10c.

SEMPERVIRENS—A profuse, white-blooming, hardy perennial coming in flower early in the Spring; much used for cemeteries, rockeries, etc. 1 foot. Pkt., 10c.

CARDINAL CLIMBER

We consider it the most beautiful and brilliant annual climber ever sent out. It is a strong and rapid grower, attaining a height of 30 feet or more, with beautiful fern-like, lacinated foliage and literally covered with a blaze of circular fiery cardinal-red flowers from Mid-Summer till frost. The flowers are about 1½ inches in diameter, and are borne in clusters of 5 to 7 blooms each.

Pkt., 10c; ½ oz., 75c.

Candytuft Umbellata

Carnations

CARNATIONS are general favorites for their delicious fragrance and richness of colors. The Chabaud's types are the best for Summer flowering.

CHABAUD'S EVER-BLOOMING MIXED—Resembles the Marguerite Carnation, but is prepetual growing or perennial. Exquisite colors.

Carnation

Celosia (Coxcomb)

CENTAUREA (Annual)

(Corn Flower, or Bachelor's Button)

This favorite, old-time flower is also known as Ragged Sailor, Blue Bottle, etc. It is a free flowering bloomer, very showy, growing from 2 to 3 feet high and is largely used for cut flowers. It grows in any soil and almost equals the Aster popularity.

CYANUS SINGLE BLUE—Rich deep blue, 1½ feet. Pkt., 10c; ½ oz., 25c.

CYANUS SINGLE MIXED—Contains all the popular colors. 1½ feet. Pkt., 5c; ½ oz., 20c.

CYANUS DOUBLE WHITE—Pkt., 10c; ½ oz., 40c.

DOUBLE BLUE—This was introduced in 1907, and is now a standard variety and largely used by the commercial florist, who quickly recognized its value as a cut flower.

Pkt., 10c; ½ oz., 40c.

DOUBLE ROSE—A splendid variety for cutting, color clear rose-pink. Pkt., 10c; ½ oz., 40c.

CYANUS DOUBLE MIXED—A much better strain than the above. Bunch this with Sweet Peas and it makes a pretty combination. Pkt., 10c; ½ oz., 35c.

IMPERIALIS (Giant Royal Sweet Sultans)—This is a new type of annual Centaurea. Bushes are from 3 to 4 feet in height, flowers are finely fringed, soft and feathery and frequently 3 inches across. Fine for cutting and of a strong, hardy constitution.

	Pkt.		Pkt.
Brilliant Pink	\$0.10	Rose	\$0.10

Purple10	Red10
Mixed	½ oz., 50c; .10		

CANDIDISSIMA—Ornamental Leaved Centaurea (Dusty Miller)—For bedding, hanging baskets and pots and for edging of beds where white basket foliage is desired. Easily raised from seeds. Silvery white finely cut leaves. 1 foot. Pkt., 10c.

GYMNOCARPA—Leaves not so white as the above. 1½ feet. Pkt., 10c.

MONTANA—Blue; hardy. Pkt., 10c.

CINERARIA (House Plant)

Magnificent flowering plants for Spring decorations for the conservatory or window garden. The flowers measure 2 to 3 inches across, are of white, blue, violet and crimson shades; usually two or more colors are shown in one flower, covering the plant with a sheet of blooms.

Giant Prize—Semi-Dwarf, Extra. Pkt., 20c.

MULTIFLORA NANA

POTSDAM—This is an extra fine dwarf select mixed variety, nothing better. Pkt., 25c.

Chrysanthemum

CLEMATIS

HYBRIDS (Mixed)—The best known and most valued variety. A great variety of colors. Hardy. **Pkt., 15c.**

PANICULATA (Climbing)—15 ft. Fall-flowering vine with white flowers. For plants, see Climbing Vines. **Pkt., 10c.**

CLEOME (Giant Spider Plant)

Large spikes of rosy carmine flowers. Large bushy plants; 3 to 4 feet high. Annual.

GIGANTEA—The finest strain. **Pkt., 10c.**

COLEUS

Coleus grown from seed make very thrifty plants the first season. For sub-tropical groups the endless variety and combinations of brilliant colors are very captivating. Tender perennial. Fine Mixed. **Pkt., 20c.**

COBAEA (Cup and Saucer Vine)

A climber of rapid growth, attaining a height of 20 to 30 feet during the season; valuable for covering trellises, arbors, trunks of trees, etc., will cling to any rough surface. Annual.

SCANDENS, BLUE—Large, bell-shaped purple flowers. **Pkt., 10c.**

SCANDENS, WHITE—Pure white. **Pkt., 10c.**

COREOPSIS

LANCEOLATA GR. FL.—One of the finest hardy garden plants grown, forming large clumps 2 to 3 feet high, and increasing in beauty, luxuriance and floriferousness each year, though it flowers the first season from seed sown early, producing immense, long stemmed, rich yellow flowers, shaded with orange, flowering in profusion for a long period during the Summer; unequaled for cutting; grows anywhere. **Pkt., 10c; ½ oz., 35c.**

COTTON (Annual)

Grown extensively for decorating purposes. Very showy and attractive. **Pkt., 10c; oz., 20c.**

CHRYSANTHEMUMS (Annual)

There are many people, however, who do not realize how easily they may be grown from seed, and that all of the magnificent new varieties were raised from hybridized seed, similar to that which we are now offering.

BRIDAL ROBE—Of very compact and upright habit; 10 inches in height; the sturdy plants throw out their finely feathered foliage from the base and deck themselves with a mantle of extra double pure white flowers. **Pkt., 15c.**

CARINATUM—Owing to its magnificent golden yellow, white and red shades, it is fast becoming a florist favorite.

	Pkt.		Pkt.
Double Purple King.....	\$0.10	Double Yellow	\$0.10
Double White10	Double Red10
Double Mixed10

ECLIPSE—Yellow with dark brown disk. Single. **Pkt., 10c.**

LEUCANTHEMUM (Shasta Daisies)—A splendid hardy perennial variety, with flowers rarely less than 3 inches across, of the purest glistening white, with broad, overlapping petals, and borne on long, strong stems; a beautiful cut flower. **Pkt., 10c.**

CLARKIA

This pretty and easily grown annual has been much improved in recent years, growing 2 to 2½ feet high, with leafy racemes of double flowers. **Pkt., 10c.**

CLIMBERS, RAPID MIXTURE

This mixture contains flowers of gigantic size, and the coloring and markings beyond description. The seed we offer is of our own importation direct from Japan, and embraces all variations, which are really the most handsome, semi-doubles, quilled and frilled, crimped and scalloped, and double. Annual. **Pkt., 10c; oz., 40c.**

Coreopsis

COSMOS

THIS beautiful annual is one of the most showy and useful of our garden plants. Plants grow from 4 to 6 feet in height, and are very bushy and compact. Flowers borne on long, delicate stems, and are similar to single dahlias. Foliage very finely cut. Excellent for cutting.

MAMMOTH EARLY

The long-stemmed flowers are of immense size, frequently measuring 5 inches across. The petals are broadly oval and overlap, forming a circular flower of perfect symmetry, having splendid substance and lasting qualities.

LADY LENOX, PINK—Lovely shell pink. Pkt., 10c; oz., 50c.

LADY LENOX, WHITE—A fine pure white selection from the above. Pkt., 10c; oz., 50c.

Single Cosmos

DOUBLE COSMOS

Double Cosmos

These new hybrids form bushy plants 5 to 6 feet high and flower profusely during the Autumn months. Only 40 to 50 per cent of the plants will bear double flowers, the balance producing large single blossoms, the reason being that the double flowers are pistillate—having no stamens and consequently bear no pollen—so to produce seed must depend upon staminate singles for polination. The progeny, therefore, comes about half doubles and half singles. Double Cosmos flowers, aside from their novelty and beauty, are of lasting substance, both on the plants and as cut flowers.

CACTUS MIXED15

DAISY (Dimorphotheca)

AURANTIACA—African Golden Daisy—1 ft. Rare and very showy annual from South Africa, having daisy-like flower of a glossy-salmon-orange shade with black central ring, a lovely color when flowers open in the sun. Pkt., 10c.

SHASTA DAISY (Alaska)—Extra large flowers, of pure glistening white, with broad overlapping petals; a beautiful cut flower; 2 feet; hardy. Pkt., 10c.

DOUBLE DAISY—See Bellis Perennis, page 45.

DATURA

ANGEL'S "TRUMPET"—A new annual variety and exceedingly fine, bearing great trumpet-like flowers, 6 to 8 inches long, with double frilled interiors; sweet-scented; plants 4 feet high, bushy and free-flowering, of fine sub-tropical effect in the garden. Mixed. Pkt., 10c.

DELPHINIUM (Perennial Larkspur)

There is perhaps no better known hardy plant than the Delphinium. The beautiful flowers borne on tall stately spikes are a gorgeous sight and a charm to the garden. Sow seeds in early Spring in shallow boxes indoors or in a hotbed. Set out 6 inches apart in the garden. In the fall they may be lifted and set out in groups of colors; three or four plants at a distance of 3 feet apart, in the rear of hardy perennials, where they make a fitting background.

BELLAMOSUM—A rich, deep blue form of the popular light blue Belladonna. Pkt., 15c.

BELLADONNA—This is one of the finest and most continuous blooming hardy Lark-spur. The clear turquoise-blue of its flowers is not equaled for delicacy and beauty. Pkt., 15c.

ST. L. S. CO.'S HYBRIDS—This splendid strain is of strong, vigorous habit, with immense spikes from 2 to 3 feet long, of large flowers mostly in fine shades of light blue. Pkt., 10c; ½ oz., \$1.25

CHINESE BLUE—A distinct and neat variety, growing about 18 inches high, with fine, feathery foliage. Pkt., 10c.

CHINESE WHITE—The white-flowered form of the preceding. Pkt., 10c.

CHINESE MIXED—Pkt., 10c; ½ oz., 50c.

DIGITALIS (Foxglove)

Handsome and highly ornamental hardy plants of stately growth. Blooms during June and July. 3 to 5 feet.

GLOXINIAEFLORA MIXED—This is a fine strain of the ordinary Foxglove, with handsome spotted Gloxinia-like flowers on long spikes. Pkt., 10c; ½ oz., 40c.

DRACAENA (Indivisa) (Dragon Plant)

Beautiful ornamental-leaved plants; long, narrow green foliage; indispensable for vase and house decorations. Pkt., 10c.

Dahlia

DIANTHUS or PINKS

The family of Pinks is unrivaled for brilliancy and rich variety of color; the plants are bushy, of symmetrical form—blooming perfectly until fall, rendering them most satisfactory for summer flower gardens. Sow out-of-doors when danger of frost has passed and they will, in several weeks, become a mass of bloom, continuing until frost. Annual.

DOUBLE ANNUAL

CHINESE DBLE. MIXED (China, or Indian Pink)—Blossoms in clusters, flowers very double and bloom in a large range of bright colors. Pkt., 5c; $\frac{1}{2}$ oz., 25c.

FIREBALL—Extra double brilliant dark scarlet, very beautiful. Pkt., 10c.

SNOWBALL—Large double white; excellent for border or cutting. Pkt., 10c.

LACINIATUS FL. PL. (Double Fringed Pink)—Large double flowers, edges fringed; in a great variety of colors. Pkt., 10c.

SINGLE ANNUAL

These single sorts contain beautiful varieties, flowers often measuring 2 to 3 inches in diameter, and are very effective for borders or beds.

NOBILIS (Single, Mixed)—A beautiful fringed variety; various colors. Pkt., 10c.

HARDY GARDEN PINKS

LARGE FLOWERING GRASS or SPICE PINKS—These are great improvements over the charming time-honored inhabitants of old-fashioned gardens. The flowers are large and borne profusely on short, stiff stems.

PLUMARIUS, SINGLE MIXED (Pheasant's Eye)—Pkt., 10c; $\frac{1}{2}$ oz., 25c.

PLUMARIUS, DOUBLE MIXED—Pkt., 10c.

Dianthus or Pinks

DOLICHOS (Hyacinth Bean)

A rapid growing annual climber, flowering freely in erect racemes, followed by ornamental seed-pods; for covering arbors, trellises, etc. Sow the seed in the garden in beds where they are to remain. 10 feet.

WHITE—This grand Hyacinth Bean comes from Japan. Seed sown late in May will, by the middle of July, often attain a height of 10 feet. Pkt., 5c; oz., 15c.

PURPLE—The most beautiful purple. Pkt., 5c; oz., 15c.

MIXED COLORS—Pkt., 5c; oz., 15c.

LIGNOSIS (Australian Pea Vine)—A rapid growing, ever green climber, flowering freely in clusters of rose pea-shaped flowers. For covering arbors, trellises, etc., it has no superior. Pkt., 10c; oz., 50c.

DIDISCUS

COERULEUS (Blue Lace Flower)—An annual, blooming from July until frost; color, pale lavender; excellent for cutting. Pkt., 10c.

ERYSIMUM

This Annual Border Plant is one of the sweetest scented annuals in cultivation. It is a beautiful orange yellow coloring. 3 feet.

PEROFISKIANUM—The favorite orange coloring. Pkt., 10c.

EUPHORBIA (Poinsettia)

VARIEGATA (Snow-on-the-Mountain)—Is very popular. Green foliage, veined and margined white; 2 to 4 feet; annual. Pkt., 10c.

HETEROPHYLLA (Mexican Fire Plant or Fire-on-the-Mountain)—An annual, resembling the beautiful hothouse poinsettia in habit and color. About 3 feet. Pkt., 10c.

Didiscus (Blue Lace Flower)

Four O'Clock, or Marvel of Peru

FEVERFEW (Matricaria)

An old garden favorite. This is the annual Feverfew, and one of the numerous flowers called "Bachelor's Button." Elegant for cutting and bouquet work.

DOUBLE WHITE—About 2 ft.Pkt., 10c.
GOLDEN BALL—Beautiful yellow.Pkt., 10c.

FERNS

A beautiful plant used for foliage, bouquets, etc. Are a favorite everywhere and are very easily grown. Sow seed in rich loam.

FINE MIXED—Greenhouse species.Pkt., 20c.
HARDY—Species for outdoor.Pkt., 20c.
FOXGLOVE—See Digitalis, Page 50.

FUCHSIA (Eardrops)

FINEST MIXED—This elegant pot variety is one of our showiest plants. Pkt., 25c.

GAILLARDIA (B'anket Flower)

Splendid showy annuals, remarkable for the profusion, size and brilliancy of their flowers, continuing in bloom from early Summer till November; 1½ feet.

ANNUAL DOUBLE—A splendid variety of mixed colors. Pkt., 10c; ½ oz., 35c.
ANNUAL SINGLE—Highly colored as the Perennial Pkt., 10c; ½ oz., 35c.

HARDY HYBRID GAILLARDIA

The flowers are extraordinarily large, and very highly colored, as scarlet with gold edge, blood-red with yellow edge, yellow with orange disk.

GAILLARDIA (gr. fl. Oculata)—New light shades with red center. Pkt., 10c.

GRANDIFLORA COMPACTA, MIXED—Pkt., 10c.

ESCHSCHOLTZIA (California Poppies)

Beautiful and popular annuals, being of the easiest culture and giving great satisfaction. From Spring-sown seeds they flower profusely until late in the Autumn, making them invaluable bedding plants.

CALIFORNICA—Bright yellow. Pkt., 10c.

CARMINE KING—Carmine-rose on both sides of the petals. Pkt., 10c.

MANDARIN—Red flowers, orange within and scarlet without. Pkt., 10c.

DOUBLE AND SINGLE MIXED—Pkt., 5c; oz., 35c.

FORGET-ME-NOT (Myosotis)

These daintily elegant little flowers are hardy perennials that love cool, moist soil, and, like pansies, bloom most freely in the Fall and early Spring.

ALPESTRIS ROBUSTA GRANDIFLORA—This Forget-me-not plant is of compact habit with glossy dark green foliage. Pkt., 10c.

PALUSTRIS SEMPERFLORENS—An ever-blooming variety of the above, beginning in May and continuing till Autumn. Large, clear, blue. Pkt., 10c.

INDIGO BLUE—Early and free-flowering, with the deepest indigo-blue flowers produced on long sprays which are excellent for cutting; 9 inches. Pkt., 10c.

OBLONGATA PERFECTA—A very fine variety for forcing. Long stems, deep blue flower. Pkt., 10c.

VICTORIA DWARF (Alpestris)—Bright azure blue. Very early. Dwarf. Pkt., 10c.

MIXED—A pretty trailer. Pkt., 10c; ¼ oz., 50c.

FOUR O'CLOCKS

FOUR O'CLOCKS, or **Marvel of Peru**—This is another good old-fashioned flower of bushy habit bearing hundreds of flowers during the season, of white, yellow, crimson and violet. Annual. Pkt., 5c; oz., 15c.

Gaillardia

GLOXINIA

Gloxinias are most charming greenhouse plants, of dwarf habit. Their flowers are produced in greatest profusion, and of the most exquisite and gorgeous colors, many of which are magnificent spotted, mottled and blended.

GIANT HYBRIDS, MIXED—Pkt., 25c.

GODETIA (Annual)

They are of a dwarf habit of growth. The flowers are of handsome shape, in the most brilliant as well as delicate colors, and are produced in marvelous profusion. Of easiest culture. Mixed. Pkt., 10c.

GOMPHRENA (Globe Amaranth)

Also called "Bachelor's Buttons"; a showy annual, everlasting; flowers resemble clover heads and when dried are useful for winter bouquets; fine for bedding.

GOURDS—ORNAMENTAL

They attain the remarkable growth of from 10 to 20 feet in height and are grown extensively for household as well as ornamental purposes.

DIPPER—Useful for many household purposes. When grown on the ground, produces differently shaped gourds than on the trellis. Pkt., 5c.

DISH CLOTH OR LUFFA—Sponge-like, porous lining is dried and used in the bath or for dish cloth. Pkt., 5c.

HERCULES' CLUB—The longest of any of the gourds. Pkt., 5c.

JAPANESE NEST EGG—Resembles hen's eggs in color, size and shape. Pkt., 5c.

PIPE CALABASH—The stem ends of the fruits are much used in making pipes. Pkt., 5c.

SUGAR TROUGH—Very light, but durable. Used for buckets, baskets, soap and salt dishes. Pkt., 5c.

SMALL VARIETIES, MIXED—Pkt., 5c; 1 oz., 25c.

Gypsophila

Geraniums

GERANIUMS

These grow readily from seed and produce blooming plants the first summer. There is a great deal of pleasure in watching them develop from seed and there is always a chance of securing something new and desirable in that way.

APPLE-SCENTED	Pkt., .35

GRASSES—ORNAMENTAL

For large beds or groups on lawns used in many of the finest public parks, etc.

BRIZA MAXIMA (Quacking Grass)—Very beautiful; annual.Pkt., \$0.10

COIX LACHRYMA (Job's Tears)—2 ft.; annual. Pkt., .10

GYNERIUM ARGENTEUM (Pampas Grass)—The most noble grass in cultivation; 12 ft.; annual.Pkt., .10

LAGURUS OVATUS (Hare's Tail Grass)—Bushy and puffy; annual.Pkt., .10

EULALIA ZEBRINA (Zebra Grass)—Light green. barred with creamy white; hardy.Pkt., .10

PENNISETUM RUEPPELIANUM. Pkt., 10c.

STIPA PINNATA (Feathered Grass)—Hardy. ..Pkt., .10

ALL COLORS MIXED.Pkt., .10

GREVILLEA (Silk Oak)

ROBUSTA—A very beautiful and graceful decorative plant with fern-like foliage; excellent for table decoration; easily raised from seed, producing good-sized plants in a short time. Pkt., 10c.

GYPSOPHILA

Gypsophilas are valuable for bouquet-making, either green or dried. They are very graceful.

PANICULATA (Baby's Breath)—Flowers white. A hardy perennial which will stay in the ground all Winter.

Pkt., 10c; 1/2 oz., 35c.

PANICULATA, Fl. Pl.—The new double flowering Baby's Breath. Hardy. Pkt., 15c.

ELEGANS Gr. Fl. (Paris Market)—Pure White. Annual. Pkt., 10c; 1/2 oz., 35c.

ELEGANS, Rose—An elegant variety; rose colored. Annual. Pkt., 10c; 1/2 oz., 35c.

HELICHRYSUM (Strawflower)

One of the best and most popular of the everlasting flowers; the varieties offered below are all of the Monstrosium type, producing larger and more perfectly double flowers than the old variety. Valuable for cutting or decoration, either when fresh or in their dried state. 2 feet.

HEUCHERA

SANGUINEA SPLENDENS—The foliage is evergreen, flowers fiery coral, shading to brilliant crimson, borne on graceful spikes. Hardy perennial. Pkt., 15c.

HOP

JAPANESE VARIEGATED—Rapid Summer climber, in three or four weeks' time attaining a height of 20 to 30 feet; annual. Pkt., 10c; ½ oz., 35c.

HUNNEMANIA (Bush Escho'tzia)

The plants grow into a shrubby bush 2 ft. high and produce large cup-shaped flowers; annual.

FUMARIAEFOLIA—Yellow. Pkt., 10c.

ICE PLANT

Handsome and curious plant for hanging baskets, rock work, vases and edgings. Trailer. Pkt., 10c.

IMPATIENS SULTANA

THE ZANZIBAR, or SULTAN'S BALSAM—Ideal for either pot or garden culture; a tender perennial that cannot be surpassed. Rose color. Pkt., 15c.

KOCHIA (Burning Bush)

Forms regular pyramids from 2 to 3 feet in height, having a cypress-like appearance. Autumn coloring has given it another name, "Mexican Fire Plant." Annual.

Pkt., 5c; oz., 35c.

KUDZE VINE

A twining vine of remarkably rapid growth, hardy. Foliage large and lobed; purple, pea-shaped flowers in clusters, borne late in the season. A fine vine for arbors, verandas, etc.

Pkt., 10c; oz., 50c.

Kochia

LARKSPUR (Annual)

HARDY LARKSPUR—See Delphinium.

Seeds sown in the open ground before the close of April will produce flowering plants by the beginning of July. They make handsome beds, very effective when interspersed in the old-fashioned flower or shrubbery border.

LANTANA

HYBRIDA, Dwarf Mixed—Of dwarf growth, they will be found a great improvement upon the older sort, and a splendid acquisition to our list of window and garden flowers. Pkt., 10c.

LAVATERA (Annual Mallow)

ROSEA SPLENDENS—A very beautiful and showy annual, growing about 2 feet high and covered during the entire Summer with large cup-shaped shrimp-pink flowers. Pkt., 10c.

LEMON VERBENA

The seed of this grand old favorite is very scarce. The leaves are delightfully fragrant and refreshing. House plant. Pkt., 15c.

LINARIA

CYMBALARIA (Kenilworth Ivy)—Very pretty, new variety with light green foliage and violet flowers. Hardy annual. Pkt., 10c.

LINUM

SCARLET FLAX—One of the most effective and showy bedding plants of long duration, with brilliant scarlet-crimson flowers. Annual. Pkt., 10c.

Larkspur

LOBELIA

The annual Lobelia are plants of dwarf, compact growth, four to six inches in height, covered with numerous small, star-like flowers. Very pretty when grown as an edging for flower beds, also for hanging-baskets and vases.

CRYSTAL PALACE COMPACTA—Large, deep blue flowers and bronzy foliage. Of fine, close habit. 6 in. Pkt., 10c.

FLORISTS' FAVORITE COMPACTA (Pumila Splendens)—Brilliant dark blue with white eyes. Very dwarf. Pkt., 10c.

SAPPHIRE—Trailing Lobelias are also coming much into demand. This new variety is of remarkably strong growth and is called Sapphire, as the flowers show the wonderful deep blue of this gem. Pkt., 15c.

LUPINUS (Lupine)

Annual sorts. Free flowering, easily-grown annuals, with long, graceful spikes of rich and various colored pea-shaped flowers; valuable for mixed borders, beds and for cutting; prefers a little shade; 2 feet.

	Pkt.		Pkt.

LYCHNIS (Burning Star)

HYBRIDA MIXED—Grand hardy perennials. White rose, vermillion. Pkt., 10c.

MIMULUS

Showy, profuse flowering plants; fine for greenhouse or moist, shady locations; half-hardy perennials, blooming the first year from seed if sown early; 1 foot.

OSCHATUS (Musk Plant)—Fine for hanging baskets, etc. Small yellow flowers, fragrant foliage. Pkt., 10c.

TIGRINUS (Monkey Flower)—Fine mixed spotted varieties. Pkt., 10c.

Lobelia Sapphire

Orange Prince Marigold

GOLDEN MACHET—Distinct variety of Machet, with massive spikes of golden-yellow blossoms. Pkt., 10c.

RED GOLIATH—The spikes of flowers are immense, measuring 6 to 8 inches long by 2½ inches in diameter and are compactly filled with giant florets measuring ½ inch across and packed full, even in the center. Pkt., 10c.

ST. L. S. CO.'S GIANT—Of dwarf pyramidal growth, bearing numerous flower stalks; highly colored and very fragrant; one of the best. Pkt., 10c.

LARGE FLOWERING—Mixed.. Pkt., 10c; ½ oz., 25c.

MORNING GLORIES

(Annual)

IMPERIAL JAPANESE FRINGED—The gorgeous colors of the Imperial Strain Morning Glory surpasses anything ever seen in these flowers. Petals are of a large size and blotched with magnificent colorings of different shades and tints.

Pkt., 10c; oz., 20c.

ROCHESTER—Flowers 4 to 5 inches across, deep violet blue in the throat, blending out to an azure blue, bordered with a wide band around the edges.

Pkt., 10c; oz., 20c.

SETOSA (Brazilian Morning Glory)—Setosa is the botanical name of this magnificent Summer climbing annual. It grows with the greatest vigor and luxuriance. The leaves are 4 to 6 inches across, overlapping each other and making a dense shade. The flowers are of beautiful rose color and are borne in large clusters. Pkt., 10c; oz., 25c.

ST. L. S. CO.'S NEW JAPANESE GIANT—So rich and beautiful are its gorgeous markings of handsome blotched petals that it cannot be compared with the ordinary Japanese Morning Glory. The flowers of this variety are of largest size, often three inches or more across; some are brilliant red or rich blue, others are equally brilliant, with broad margins of clear white. Pkt., 15c; oz., 35c.

FINE MIXED—All colors. Pkt., 5c; oz., 15c.

MARIGOLD

The African and French Marigolds are valuable for their flowers in Autumn, and can be grown to advantage in little clumps with other plants in the front of the shrubberies or in the garden border. Annual.

AFRICAN TALL DOUBLE MIXED—Taller than the French, and the flowers are larger; 2 feet.

Pkt., 10c; ½ oz., 40c.

EL DORADO—Flowers very large, imbricated and extremely double. Colors in all shades of yellow. Pkt., 10c.

LEMON QUEEN—Another fine variety, with soft double lemon-yellow flowers and forming a fine contrast to the preceding. Pkt., 10c; ½ oz., 50c.

LEGION OF HONOR—Single golden yellow blossoms marked with red. Pkt., 10c; ½ oz., 35c.

ORANGE PRINCE—A high-bred type, bearing densely double flowers of a rich deep golden-orange color; very showy. Pkt., 10c; ½ oz., 50c.

FRENCH DWF. GOLDENBALL—Large flowers of a deep golden orange color; very showy. Pkt., 10c; ½ oz., 50c.

FRENCH DWARF DOUBLE MIXED—Many striped and blotched. Earlier than the African. 1 foot.

Pkt., 10c; ½ oz., 30c.

MARVEL OF PERU—See Four O'Clock on Page 52.

MIGNONETTE

This is one of the grandest garden flowers ever produced, and no garden is complete without an assortment of the following varieties. The colors of the florets vary on account of the density of the florets and spikes. For cutting they are superb, remaining fresh for 8 to 10 days in water. Annual.

ALLEN'S DEFIANCE—Will throw flower stalks of a foot in length and for an unequalled delicious fragrance. Good forcing variety under glass. 1½ feet. Pkt., 10c.

Morning Glory

MOON FLOWER (Ipomoea)

WHITE, LARGE FLOWERING—This greatly improved variety of the popular Moon Flower Vine, produces much larger flowers and in greater profusion, with immense saucer-shaped flowers from 7 to 8 inches across and as glistening white as disks of white satin. They are also softly fragrant. The flowers open about sunset and close the next morning. **Pkt., 10c; oz., 40c.**

BLUE BONA NOX (Evening Glory)—Beautiful, large violet flowers. **Pkt., 10c; oz., 35c.**

GIANT PINK—The soft lilac-pink flowers are produced abundantly all summer and fall. **Pkt., 10c; oz., 35c.**

NASTURTIUMS

DWARF or TOM THUMB VARIETIES

The Dwarf Nasturtiums will always be general favorites, for the reason that they stand any amount of heat and drought, growing vigorously and flowering freely; annual.

NICOTIANA (Ornamental Tobacco)

A beautiful hardy annual, fine for its sweet-scented and ornamental leaves.

AFFINIS—An annual with sweet-scented, pure white star-shaped flowers, 3 inches across, blooming continually; 2 to 3 feet high. **Pkt., 10c.**

SANDERAE—A Brazilian novelty, the entire bush being covered with large brilliant carmine red flowers. Height of about 2 feet. **Pkt., 10c.**

NEMOPHILA

Splendid, free flowering hardy annuals, of very neat, compact habit. Flowers are cup-shaped, appearing in many brilliant colors, the blue shades being particularly striking. **Pkt., 10c.**

NIGELLA

(Love in a Mist or Devil in the Bush)

A compact free-flowering plant with finely cut foliage, curious-looking flowers and seed pods; of easy culture, growing in any garden soil, hardy annuals; blue and white mixed; 1 foot.

DOUBLE BLUEPkt., 10c
MIXEDPkt., 10c

OENOTHERA (Annual)

(Evening Primrose)

These are among our most beautiful plants for mixed garden beds and borders. They grow in branching from 1 to 2 feet in height and produce freely and continuously large single poppy-like flowers of white, yellow, rose color, etc.

MIXEDPkt., 10c

PANSIES

LARGEST FLOWERING VARIETIES

Sow the seeds in drills, covering them not more than four times their diameter, and firming the soil well above them. Seeds sown in April or May will produce blooming plants by the last of June, which will give an abundance of flowers through-out the remainder of the season. About the middle of August is the best time for starting pansy seeds for early Spring blooming.

EXHIBITION—This wonderful Giant Pansy we offer as our leader. The colorings of this pansy are mixed, there being no end to the numerous shades which nature has endowed upon this gigantic marvel, every petal being a veritable display of shades and coloring in itself. **Pkt., 25c.**

MASTERPIECE—This grand Giant Pansy is remarkable in having the borders of the petals waved or frilled which gives the flower an almost double appearance; the type is altogether novel and distinct. **Pkt., 15c.**

ST. L. S. CO.'S "NONPAREIL" MIXTURE—This is certainly one of the grandest collections of the rarest and most beautiful varieties of Pansies. There is no end to the countless shades of color. The flowers are of a large size and the plants grow more compactly bushy than other mixtures. We have the best mixture of the European specialists who raise it. **Pkt., 20c.**

IMPERIAL GIGANT MIXED—They embrace all the solid or self-colors, delicately shaded, of various colors, dark and light marbled varieties, flowers with clear, distinct eyes.

Pkt., 15c.

SPECIAL OFFER TO PANSY LOVERS

This diagram when properly laid out as shown in illustration, and sown with the following named varieties as per their respective numberings, will produce one of the most striking sights obtainable in the floral world. This collection will produce a bed 6 feet in diameter.

PANSY PLANTS READY APRIL 1st.

Price: 12 Plants, \$1.00 (By Express Only).

St. L. S. Co.'s "Nonpareil"

TRIMARDEAU GIANT MIXED—Extra large flowers, but not of such perfect form as the Imperial Giant. Most of the flowers have three large blotches or spots.

Pkt., 10c; ¼ oz., 75c.

FINE MIXED—Pkt., 5c; ½ oz., 50c.

EARLY FLOWERING SWEET

(Scented Mixed)

This new race of Pansies promises to be an important introduction on account of the extreme hardiness of the plants and in consequence their earliness in flowering. With slight protection, such as meadow hay, leaves or similar material, full-grown plants winter over in the open ground. **Pkt., 10c.**

TUFTED PANSIES, or VIOLAS—While the flowers of the Tufted Pansies are not so large as the regular type, yet they bloom so freely that they are superior to pansies where effect is wanted, the colors being particularly clear and distinct; they also bloom for a longer time. **Pkt., 10c.**

PASSIFLORA (Passion Vine)

COERULEA—Very popular for window decoration or sunny locations in the garden. Blue. Perennial. 10 feet.

Pkt., 10c.

PENTSTEMON (Beard Tongue)

GIANT FLOWERING MIXED—It grows about 2 feet high, every branch being a spike of large, Gloxinia-like flowers in a very wide range of bright colors. Hardy. Pkt., 10c.

Petunias

For outdoor decoration, porch or window boxes few plants equal the Petunia in effectiveness. They commence flowering early and continue a sheet of bloom throughout the whole season until killed by frost; easily cultivated, only requiring a good soil and sunny position. It is best to sow them indoors and transplant to the open in May. The Single Bedding kinds can be sown out of doors in May. We have long been celebrated for our magnificent strains of both the large-flowering single and double varieties, which we endeavor to improve each year by careful selection and hybridization.

BALCONY MIXED—Single large flowering sorts especially recommended for window porch boxes. Pkt., 15c.

BLOTCHED AND STRIPED—They flower in a few weeks' time from seed and continue to grow, bud and bloom in luxuriance until frost. Pkt., 10c.

GIANTS OF CALIFORNIA—The richest colors, the largest flowers and the finest markings of all Petunias. Flowers of gigantic size, many of them measuring 5 inches in diameter and of an astonishing variety of colors. Pkt., 15c.

Ruffled Giant Petunia

PERILLA (Annual)

LACINIATA—A beautiful showy plant. Highly prized for its foliage, producing leaves similar to the Coleus. 1½ ft.

Pkt., 10c.

HOWARD'S STAR—A beautiful free-flowering strain, color crimson, maroon with a clearly-defined five-pointed star of bluish-white. Pkt., 10c.

RUFFLED GIANTS—Flowers of extraordinary size and substance, and distinguished from the large flowering fringed section by the deep fluting, giving the appearance as if artificially ruffled. Pkt., 25c.

DOUBLE FLOWERING, Fringed Mixed—It is well known that seed saved from the most carefully hybridized flowers produce but a small percentage of double flowers, the balance being single of unusually fine quality. Pkt., 25c.

EXTRA CHOICE BEDDING MIXED—A very choice strain, partly made up from named large-flowering sorts.

Pkt., 10c; ½ oz., \$1.25.

FINE MIXED—Good bright colors. Pkt., 5c; oz., 75c.

SPECIAL DWARF BEDDING VARIETIES

CRIMSON—A beautiful deep red. Of compact growth, covered completely with beautiful flowers. Pkt., 10c.

ROSE OF HEAVEN—Very Dwarf, Rose Pink. Pkt., 10c.

ROSY MORN—Soft carmine pink with white throat; makes a very dainty and at the same time effective border.

Pkt., 10c; ½ oz., \$1.50.

SNOWBALL—A fine, compact sort, producing its pure satiny-white flowers throughout the entire season.

Pkt., 10c.

VIOLET—Very compact and free flowering. A beautiful steel blue or deep violet. Pkt., 10c.

DWARF FRINGED LARGE-FLOWERING—The plants, though branching freely from the base, rarely exceed 8 inches in height and form dwarf, compact little bushes which carry, well above the foliage, numerous large fringed-edge flowers of all the beautiful Petunia colors. Mixed. Pkt., 25c.

DWARF MIXED—Splendid dwarf varieties; large flowering.

Pkt., 10c; ½ oz., \$1.25.

Dwarf Large Flowering

PHACELIA

CAMPANULARIA—Flower a rich deep blue; height 1 to 2 feet. Excellent for bees. Annual. **Pkt., 10c.**

PLATYCODON (Wahlenbergia)

Hardy perennials, bearing large, broad, bell-shaped blue flowers; very handsome for garden decoration.

GRANDIFLORUM, Blue—Very hardy. Height 2 feet. **Pkt., 10c.**

PHLOX

It occupies a first place as a garden annual, being one of the most brilliant and at the same time one of the easiest and most satisfactory plants, which can readily be grown from seed. Seed may be sown in the open ground any time after danger of frost is past, and in a few weeks they are a sheet of bloom.

Petunias—Continued

Petunia Grandiflora Nana, Dwarf Large-Flowering

Considering the ever increasing demand for dwarf Petunias, we are now in a position to offer an excellent dwarf strain. These plants only grow about eight inches high and while branching freely from the base they nevertheless remain quite compact, so that no tying is required. Thus the individual plants make handsome small bushes, on which the numerous flowers appear well above the foliage. In color the blooms are a mixture of white and dark crimson, forming many blotched and striped designs.

Our new dwarf Petunia will doubtless be especially welcome to growers as a pot plant, but will also prove of immense value for the laying out of flower beds and borders. **Pkt., 35c.**

GIANT PORTLAND PETUNIAS

For planting of veranda boxes and for choice potted plants or for bedding out these Petunias in select colors, never fail to please.

Elks' Pride. Large size; deep royal purple. **Pkt., 15c.**

Triumph Pink. Flowers fringed, peach blossom color. **Pkt., 15c.**

Pride of Portland. Large, deep rose pink fringed flowers. **Pkt., 15c.**

Scarlet Beauty. Flowers fringed; color, shading from cherry red to deep maroon. **Pkt., 15c.**

White Beauty. Pure white flowers with finely fringed edges. **Pkt., 15c.**

Mixed Colors. **Pkt., 15c.**

Phlox

PHYSALIS (Chinese Lantern Plant)

FRANCHETI—Forming dense bushes about 2 feet high, producing freely its bright orange-scarlet lantern-like fruits; hardly annual. **Pkt., 10c.**

POPPIES

ANNUAL POPPIES should be sown as early in the Spring as possible where they are to remain, as they do not stand transplanting. Sow very thinly.

AMERICAN LEGION—This new single poppy of the Shirley type is a dazzling orange-scarlet of immense size, borne on long, stout stems. **Pkt., 10c.**

DANEBOEG, or DANISH CROSS—Very showy variety, producing large flowers of brilliant scarlet, with a silvery-white spot on each petal, forming a white cross. **Pkt., 10c.**

DOUBLE CARDINAL—Round as a ball, red as fire. The flowers are of very large size and finely fringed. In color it is a glowing cardinal scarlet. Height, 16 inches. **Pkt., 10c.**

DOUBLE CARNATION-FLOWERED—Large, showy flowers. 2 feet. Mixed. **Pkt., 5c; ½ oz., 25c.**

SHIRLEY-MIXED—This magnificent species sports to numberless shades of color, from pure white to rose pink, carmine and deepest crimson. **Pkt., 10c; ½ oz., 25c.**

TULIP FLOWERED SCARLET—Large, bright scarlet flowers. The two outer petals of the flower form a tulip cup. Strikingly beautiful. About 1 foot.

Pkt., 10c; ½ oz., 50c.

HARDY PERENNIAL POPPIES

ICELAND MIXED—White, salmon, rose and orange, with yellow stamens. Petals delicately fringed. Dwarf. **Pkt., 10c.**

ORIENTAL HYBRIDS—Large, showy flowers, ranging in color from orange-scarlet to crimson. Very brilliant. About 2½ feet. **Pkt., 10c.**

Poppy

PORTULACA

Sometimes called Rose Moss. Few flowers make such a dazzling display of color in the bright sunshine as a bed of Portulacas. Many shades of red, white, pink, orange, yellow, striped, etc. Annual.

LARGE FLOWERING SINGLE MIXED—**Pkt., 5c; oz., 50c.**

DOUBLE FINE MIXED—All colors mixed. **Pkt., 10c; ¼ oz., 75c.**

Portulaca

PRIMULA (Primrose)

OBCONICA GIGANTEA—This is one of the most useful flowering plants. If sown early in the Spring the seedlings will commence to bloom in May or June and continue to flower throughout the whole year.

Pkt., 15c.

MALACOIDES—Best for florists. A fine house plant; flowers delicate lilac. **Pkt., 15c.**

CHINENSIS (Chinese Primrose)—Our mixture includes all the choicest colors of the single flowering Primulas in all their dainty shadings. Large flowering and fern-leaved mixed. **Pkt., 25c.**

PRIMROSE—HARDY

These are among the best of the early Spring-blooming plants. With a slight protection they will stand the Winter, but will do better if protected by a cold frame.

AURICULA—Beautiful low growing early Spring-flowering plants, fine for borders, pot culture, etc.; the fragrant flowers of many rich colors are borne in clusters on the top of stalks 4 to 6 inches long.

Pkt., 10c.

POLYANTHUS VERIS—Showy, early Spring, free-flowering plants; fine for either pot or outdoor culture; hardy perennials; 9 inches. **Pkt., 10c.**

VULGARIS—True Yellow. **Pkt., 10c.**

Ricinus, or Castor Oil Plant

SALVIA (Scarlet Sage)

THE Salvia is among our most popular and useful bedding plants. There is nothing more effective in the mid-summer or fall than these bright scarlet flowers. Seeds should be started either in the house or in hotbeds from February till April. Seed may also be sown in the open ground in May about 3 feet high.

AMERICA (Globe of Fire)—A very pleasing, recent introduction which has become very popular. It being of a dwarf bushy habit, filling a want where other varieties attain too great a height. Plants grow about 15 inches high.
Pkt., 15c.

BONFIRE—This is one of the finest of the Scarlet Sages, growing in a compact bush 2 feet high by 2 feet in diameter. Its erect spikes of brilliant scarlet flowers stand clear above the dark green foliage and completely cover the plant. It attracts immediate attention in the garden, and is one of the most effective and gorgeous plants in cultivation. Pkt., 10c.

FIREBALL—The most compact type of Salvia yet introduced. Splendid for beds or borders, of somewhat dwarf habit.
Pkt., 15c.

SPLENDEN'S GRANDIFLORA, SCARLET—A rich-flowered border. 3 feet. Pkt., 10c; ¼ oz., 75c.

ST. LOUIS—This is one of the finest of the Scarlet Sages, growing on a compact bush 2 feet high by 2 feet in diameter.
Pkt., 15c.

ZURICH—One of the earliest flowering of all salvias; plants are of dwarf, bushy growth and produce an abundance of bright scarlet flowers from early July until frost; for bedding it is very effective, either planted alone or as a front row for the taller varieties; 18 inches. Pkt., 15c.

FARINACEA—A perennial variety, but best treated as an annual, blooming from July to frost from Spring sown seed; color, light-blue; 2 feet. Pkt., 10c.

POTENTILLA (Flowering Strawberry)

A beautiful border plant, flowers from yellow to bright red. Leaves resemble strawberry plants. An unexcelled plant for border and naturalizing effect. Hardy. 1 foot. Double sorts mixed. Pkt., 10c.

PYRETHRUM (Feverfew)

ROSEUM GRANDIFLORUM SINGLE MIXED—Flowers of enormous size, ranging in color from light pink and rose to deep carmine; hardy. Pkt., 10c.

AUREUM (Go'den Feather)—Yellow foliage. Hardy annual. Pkt., 10c.

RHODANTHE (Everlasting)

MIXED—Fine for outside border, or for greenhouse flowering during the Winter. Pkt., 10c.

RICINUS (Castor Oil Bean)

Ornamental plants of stately growth and picturesque foliage. Annual.
ZANZIBARIENSIS—Surpasses all in size and beauty of colors, which include glaucous-green, coppery brown, metallic red, brownish purple, red maroon and bronze; 8 to 10 feet. Pkt., 5c; oz., 15c.

BORBONIENSIS ARBOREUS—The tallest of the Ricinus family. 15 feet. Pkt., 5c; oz., 15c.

CAMBODGENSIS—A beautiful black-leaved species, a handsome foliage. Pkt., 5c; oz., 15c.

GIBSONI—Purplish leaves and stems, 6 feet. Pkt., 5c; oz., 15c.

MIXED SORTS—Pkt., 5c; oz., 15c.

SALPIGLOSSIS (Painted Tongue)

As pot plants they are elegant and for cut flowers for vase and bouquets they are unsurpassed.

LARGE FLOWERING (Painted Tongue)—Yellow, rose, scarlet, light blue, purplish violet mixed. Pkt., 10c.

RUDBECKIA (Golden Glow)

(Cone Flower)

NEWMANII—An effective, hardy, perennial sort, producing in masses during August and September brilliant orange-yellow flowers; 3 feet. Pkt., 10c.

Salvia

SCABIOSA

(Mourning Bride, Sweet Scabiosa, Pin-Cushion Flower, Etc.)

Firm favorites with many of our customers. Seed can be sown any time in the Spring, after the danger of frost is past. They grow about 2½ feet high, and come into bloom early in July, and continue without interruption until hard frost. Annual.

CAUCASICA (Blue Bonnet)—One of the most handsome of hardy perennials, especially valuable for cutting lilac-blue; 3 feet. Pkt., 10c.

SCHIZANTHUS

LARGE-FLOWERED MIXED—as pretty as miniature Orchids. Exceedingly profuse bloomers. Forming compact pyramidal plants a foot high, literally covered with large, beautiful orchid-like flowers in a bewildering range of colors. Annual. Pkt., 10c.

SENSITIVE PLANT (Mimosa Pudica)

A curious and interesting plant with pinkish white flowers; the leaves close when touched or shaken. 1½ feet. The favorite variety. Pkt., 10c.

SILENE (Catchfly)

Very pretty dwarf plants, used mostly for borders; thriving in almost any common soil and easy of cultivation. Annual. 6 in. Pkt., 10c.

SMILAX

In many respects the smilax is the most useful and it is certainly one of the most graceful climbers. Green-house climber. Pkt., 10c.

Scabiosa

STATICE

Long panicles of small flowers, which if dried make nice Winter bouquets.

STOCKS

Sometimes called Gilliflower. Considered almost indispensable where a fine display of flowers is wanted and particularly valued for edgings, bedding and pot culture. The improved varieties we offer of this favorite garden plant produce dense spikes of very fragrant and beautiful rosette-like double flowers in a wide range of attractive colors. They are suitable for cutting.

CUT-AND-COME-AGAIN

Splendid perpetual-blooming class; sown is March or April they begin flowering in July, continuing until frost, and are especially valuable during September and October, when other flowers are scarce.

Red Sunflower

STEVIA

SERRATA—Free blooming plants for Summer or Winter; bearing a profusion of fragrant white flowers; excellent for cutting; 2 feet. **Pkt., 10c.**

SWEET WILLIAM (Dianthus-barbatus)

Extensively used in old-fashioned gardens; flowers borne in large clusters of most brilliant colors, and are fine for cutting. Hardy.

PINK BEAUTY—In color it is what florists call water-melon-pink or salmon-rose. Strikingly brilliant and beautiful; the flowers are borne in massive heads on stems 18 inches high. **Pkt., 10c.**

SCARLET BEAUTY—A very effective rich, deep scarlet variety. **Pkt., 10c.**

HOLBORN GLORY—This strain is a large-flowered selection of the auricular-eyed section, the most beautiful and admired of all Sweet Williams. **Pkt., 10c.**

SINGLE WHITE—**Pkt., 10c.**

FINEST SINGLE MIXED—**Pkt., 5c; ½ oz., 35c.**

DOUBLE MIXED—This mixture contains the finest colors. Impossible to find anything that can compare with it. **Pkt., 10c; ½ oz., 50c.**

ANNUAL MIXED—The old favorite Sweet William, as all know, does not flower until the second year from seed, but this new type commences blooming in early Summer from Spring-sown seed. **Pkt., 10c; ½ oz., 75c.**

SWEET ROCKET (Hesperis)

Old-Fashioned garden plant, and among the most desirable of hardy flowers; grows from 2 to 3 feet high.

FINE MIXED—**Pkt., 10c.**

SOLANUM (Jerusalem Cherry)

This is a very useful pot plant for Winter decoration. It is of the dwarf branching habit; leaves small and oval shaped, bearing in the greatest profusion bright, scarlet, globular berries. Very ornamental. 1 foot.

CAPSICASTRUM NANUM—A beautiful decorative variety. **Pkt., 10c.**

STOKESIA (Hardy)

Highly valuable for cutting, supplying a shade of coloring not overly plentiful at any season of the year.

CYANEA (Blue)—The earliest and best sort. **Pkt., 10c.**

SUNFLOWER (Helianthus)

Far superior to common Sunflowers. The large, rich golden yellow flowers are produced on each branch. Makes a beautiful hedge. Annual.

GOLDEN BALL—A beautiful large double variety. **Pkt., 10c; oz., 45c.**

DWARF DOUBLE—Similar to the above variety, only of a dwarf nature with variegated leaves. **Pkt., 5c; oz., 35c.**

SINGLE FLOWERING SORTS

The single Sunflowers are indispensable for cutting. Sown on a sunny spot in April or May, they come into bloom early in Summer.

RED—This new Sunflower we believe to be a novelty of real merit, and feel sure it will come into general use. Planted a border or in front of taller shrubbery or along a wall, they are very showy. **Pkt., 10c; oz., 75c.**

STELLA (Improved Miniature Sunflower)—Differs from the above by its large and better formed flowers of the purest golden yellow, with black disc. **Pkt., 10c.**

Sweet William

Early Flowering Spencer Sweet Peas

A COMPARATIVELY new class of Sweet Peas that is rapidly becoming prominent for Winter flowering indoors. The flowers are large, of the same form as the Spencers and are beautifully waved or frilled. When planted out of doors they will commence blooming a month or more earlier than the late flowering varieties planted at the same time.

SPENCER OR BUTTERFLY

THE Spencer Waved Sweet Pea is a distinct advance in the development of the Sweet Pea. The chief characteristic of the Spencer Sweet Peas is their robust growth, plants frequently attaining a height of 6 to 10 feet, requiring a foot of space in the row for each plant to fully develop. The flowers are gracefully formed.

WOOLFLOWER—CHINESE

(Celosia Childsii)—The flowers are ball-shaped and resemble a ball of wool. The plants will average 2 feet in height. They branch freely, and by midsummer are simply covered with blooms. It keeps blooming all during the fall and retains its full beauty and color until severe frost.

CRIMSON—The plants are simply covered with the handsome balls of rich crimson. A magnificent variety which blooms from midsummer until frost. Excellent for cutting.
Pkt., 10c.

PINK—This is a delicate, yet rich shade of pink. Pkt., 1Cc.

ST. LOUIS SEED CO.'S

Collection of

Giant Zinnias

The Zinnia, one of the most brilliant and showy of our annual garden flowers, has gained more steadily in popularity recently, not only because it is one of the most satis-

Woolflower—Chinese

Giant Double Zinnia

factory annuals for bright and gaudy border effects, but because the last few years have given us strains of greatly improved form and color. The old-fashioned forms of Youth and Old Age have been displaced by the Giant Double-flowered, strains, including new, softer and more pleasing shades of salmon, rose, golden yellow, red, purple, and yellow. Few, if any, of the annuals have greater utility value and can be grown with equal degree of success. In the mixed border or in solid masses, Zinnias will bloom continuously from early summer until cut down by hard frost. They add a range of color for house decoration, or as cut-flowers, not to be found in any other flower. To get the best blooms, sow the seed in the open ground in April and transplant later. Space the large-flowering and taller sorts rows 2 feet apart and 8 to 10 inches in the row, as they are robust growers and need plenty of space to grow to maximum size.

Giant Zinnias—Continued

YOUTH AND OLD AGE

ONE of the most popular and most extensively used of all our hardy annuals. The following list comprises a very choice strain of large variety and of the most brilliant colors. Requires but little attention; will grow in any good garden soil.

Sow the seed early in spring, in open ground in good rich soil, preferably in rows two feet apart and covering about one-fourth inch deep. When the young plants are one to two inches high thin to eight inches apart. Half hardy annual; tall growing, usually about one and one-half to two feet high.

GIANT DAHLIA FLOWERED—This new giant flowered type has petals which overlap in such a manner as to give the flowers the appearance of a decorative dahlia. The flowers, although not so brilliant in color as those of the older type, are many of them in exquisite shades of rose, lavender and old gold. The plants are strong and vigorous growing and produce an abundance of blooms throughout the summer and early fall.

CANARY BIRD—A delicate shade of primrose, very large and holds its color well until out of bloom.

Pkt., 15c.

CRIMSON MONARCH—By far the largest and best of the red shades. Flowers often six inches in diameter. Plants very vigorous. A marvelous production of extraordinary merit. Pkt., 15c.

DREAM—A fine, deep lavender, turning to purple—a new desirable shade in Zinnias. Pkt., 15c.

EXQUISITE ROSE—By far the most pleasing of our collection. Truly DAHLIA flowered as regards form and size. Color light rose with center a deep rose. Pkt., 15c.

GOLDEN STATE—A very rich orange yellow. Yellow in the bud, turning to an attractive orange when in full bloom. Pkt., 15c.

ORIOLE—We consider this the most beautiful of its class. It is an immense orange and gold bicolor, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named.

Pkt., 15c.

POLAR BEAR—A very large pure white, the best white yet seen in Zinnias. True Dahlia form.

Pkt., 15c.

DAHLIA-FLOWERED, MIXED—These flowers have a very marked distinction from the ordinary giant-flowering class, being of a true Dahlia-flowering type—a fine mixture of the very best colors.

Pkt., 15c; ½ oz., \$1.50.

GIANT DOUBLE ZINNIAS

This mammoth strain has produced excellent results to hundreds of customers who have grown it with great success. The plants are of exceedingly robust habit.

The flowers are borne on long, stiff stalks, of a semi-globular form, are mostly very double, and together with their immense size, produce a very marked effect.

Dahlia Flowering Double Zinnia

DWARF DOUBLE

This we consider the best Zinnia for general use, forming bushy, compact plants not over 2 feet high, and bearing large perfect double flowers in good, clear distinct colors. The salmon-rose variety is especially effective.

Mixed—Pkt., 5c; oz., 50c.

CURLED AND CRESTED

The petals of this beautiful strain are twisted, curled and crested into the most fantastic and graceful forms. The colors comprise all the brilliant shades characteristic of the Zinnia. Mixed—Pkt., 10c; ½ oz., 40c.

Hardy Ornamental Shrubs

Ready for shipment from March 1st to April 10th.

NOTE—Shrubs will be shipped on receipt of orders or as soon as they can be dug, unless instructed to the contrary, and can only be sent by Express, at Purchaser's expense.

The use of shrubbery adds materially to the beauty and attractiveness of the home grounds or perhaps shrubs combined with shade trees, with some conception as to the effect to be produced in future years, is a matter to be considered by everyone who wishes to complete the picturesqueness of a villa residence or country home. Shrubs around a house hide unsightly corners and the hard straight lines of the architecture; or grouped at a distance, by the sides of walks, carriage drives and fences, they break what might be a monotonous line of vision over bare lots, and give a tone of privacy to the home surroundings.

ALTHEA

HIBISCUS—(Rose of Sharon)

This has become one of the most popular flowering shrubs, coming in flower, as it does, in July or August, when few shrubs are in bloom. The entire plant is covered with beautiful double flowers, which at a distance, look like roses. They make a very pretty flowering hedge. Three-year-old plants. About three feet high.

	Each	10 for
Red	\$0.60	\$5.50
Pink60	5.50
White60	5.50

AMPELOPSIS VEITCHII

(Sometimes called "Boston Ivy" and "Japan Ivy")

Entirely hardy in the exposed places, attaining a height of 20 to 30 feet in two or three years, clinging to stones, brick or wood work with the greatest tenacity. For covering dead trees, boundary walls, etc., it has no equal. Beautiful Autumn foliage.

Strong three-year plants, each, 60c.

Ampelopsis Veitchii

AMYGDALUS—Almond, and Plum

A class of ornamental shrub or small tree introduced from the mountains of Asia Minor, and succeeding well in common garden soil. The flowers are very showy, produced in great abundance, and useful for their earliness. Fine plants to use in grouping or for lawns.

ROSEA (Double Pink)—Small double pink flowers borne in abundance in May. Each, 90c.

Prunus Triloba (Double-flowering Plum.) A beautiful small tree or shrub of fine habit, with elegant, double, rosy flowers, set very closely on slender branches. Each, 85c.

CLEMATIS

The Clematis we offer this season are exceptionally fine, strong 2-year-old plants. We have reduced the number of varieties to such sorts as from experience, we know to succeed best in our climate.

HENRYII, LARGE WHITE—A pure white large-flowering variety, of fine form, and recognized as by far the finest of the single white sorts. Each, 85c.

MADAME EDOUARD ANDRE—Flowers large, of a beautiful bright velvety red, very free-flowering. Each, 85c.

JACKMANNI—The best known and most valued large flowering variety of this popular family. A perfect mass of bloom when in full flower. Color, dark, rich, royal purple. Each, 85c.

PANICULATA—This grand climbing vine is one of the most valuable ever sent to us from Japan. Blooms in the early Fall and is one mass of fleecy-white, fragrant flowers. These are succeeded by the silken seed vessels almost as ornamental as the flowers. It will grow 15 to 20 feet in a season, it is insect-proof, it is perfectly hardy, it adapts itself to all situations, thrives everywhere, and need only be seen to be admired.

Strong two-year plants, each, 50c.

Clematis Paniculata

Hardy Shrubs—Continued

BERBERIS THUNBERGII (Japanese Barberry)

THUNBERGIA—Perfectly hardy. Will make a dense hedge from 3 to 4 feet high, which will always remain symmetrical without any pruning. Bears large, nearly round, crimson berries.

Each, 40c; 10 for \$3.50.

RED-LEAVED JAPANESE BARBERRY—It is similar in all respects to the green-leaved Japanese Barberry which is so popular, but the foliage of this new variety is of a rich, lustrous, bronzy red.

Each, 85c; 10 for \$8.00.

BUDDLEIA—BUTTERFLY BUSH

A most beautiful shrub and one that should be in every garden. The second year after planting it generally begins to bloom in June and continues throughout the summer until frost. The flowers are produced on long, graceful stems that terminate in tapering panicles of beautiful lilac-colored flowers of miniature size and borne by the hundred on flower heads frequently 10 inches long. This admirable shrub should be classed as semi-herbaceous as it sometimes freezes back to the ground in severe winters, but comes up again from the roots. Each, 50c; 10 for \$4.00.

CALYCANTHUS

FLORIDUS—A well-known native bush, bearing very double, purple, fragrant flowers. Fine and glossy foliage; pineapple-scented, chocolate-colored flowers all summer; leaves dark green above and pale grayish beneath; a favorite shrub.

Each, 60c; 10 for \$5.50.

FORSYTHIA

FORTUNEI—Strong, erect habit, bright, golden-yellow flowers in early Spring. Each, 60c; 10 for \$5.50.

INTERMEDIA—Flowers bright yellow, glossy green foliage; 3 to 4 feet, extra bushy. Each, 60c.

HYDRANGEA

ARBORESCENS GRANDIFLORA ALBA (Snowball Hydrangea)—The snow-white blooms are of the largest size, coming into flower early in June and lasting until late in August. Is more hardy than any other sort and especially suited for shaded places. 2½ feet. Each, 75c.

PANICULATA GRANDIFLORA—The large panicles of white flowers are at their best during August; later they take on a reddish cast. Fine as single specimens on the lawn or grouped in large beds. Strong bush form, 3 ft. plants. Each, 75c.

Forsythia

CORNUS

PINK-FLOWERING DOGWOOD—A beautifully variegated shrub which should be planted more freely. Strong plants, 2 to 3 feet high. Each, \$1.75.

DEUTZIA

Very ornamental and popular shrubs with showy white or blush flowers appearing in tassel-like clusters in Spring or early Summer. Slender, arching branches.

PRIDE OF ROCHESTER—Grows to 6 feet. Blooms in May in advance of the others. With very large, double white flowers. Each, 60c; 10 for \$5.50.

CRENATA ROSEA (Double Pink Deutzia)—A tall shrub usually 6 to 8 feet high with numerous upright branches. Leaves dull green, rough on both sides, 2 to 3 inches long. Flowers double, pink. Each, 60c; 10 for \$5.50.

HEDGE PLANT

CALIFORNIA PRIVET—Unlike a fence, which needs painting, repainting, etc., and then never looks well, this hedge is no further expense after planted, and it adds dignity and charm to any home, and increases the value of real estate. Being absolutely hardy, it increases in beauty with each successive year. Privet is somewhat of an Evergreen nature and looks attractive until real winter sets in. Plants should be set 12 inches apart in double rows, in zig-zag fashion, so that the plants are diagonally opposite each other; this practically places them 6 inches apart, which is desirable to get a quick, dense growth. 2-vr. old, 24 to 30 inches.

10 for 90c; 20 for \$1.50; 100 for \$6.25.

HONEYSUCKLE (Climber)

HALLIANA (Hall's Japan Honeysuckle)—A strong, vigorous, almost evergreen sort; white flowers changing to yellow; very fragrant; flowering from July to December; holds its leaves nearly all winter. Extra-selected plants. Each, 40c.

SCARLET TRUMPET HONEYSUCKLE—This and its varieties are the handsomest in cultivation. It is a strong, rapid grower and produces scarlet, inodorous flowers. Each, 50c.

HONEYSUCKLE BUSH

LEBEBOURI ROSEA (Bush)—Pink flowers, which contrast beautifully with the foliage; scarlet berries. Each, 60c.

California Privet

Hardy Shrubs—Continued

LILAC OR SYRINGA

LILACS (Syringa)—Lilacs stand more neglect, heat or drought without showing any bad effects, than any other shrub that can take their place.

MARC MICHILI (Purple)—Very free bloomer of large flowers; an excellent variety; 3 to 4 feet. Each, 70c; 10 for \$6.00.

MARIE LEGRAYE (White)—Free bloomer. Each, 70c.

FLOWERING QUINCE

Hardy shrubs with handsome flowers in early spring. They are invaluable for border or garden planting, and make beautiful informal or clipped hedges. The fragrant fruits are often used for making a tart, delicious jelly. They thrive in almost any well-drained soil. A single shrub on the lawn is very attractive; brilliant crimson flowers, among the first in spring. Valuable for ornamental hedges; 3 to 4 feet, bushy. Each, 70c.

SNOW BALL

One of the most handsome bushes for the yard, known as Snowball Tree; of large size, with globular clusters of pure white flowers, blooming latter part of May; admired by home lovers everywhere; 3 to 4 feet. Each, 70c; 10 for \$6.50.

Weigelia

Spiraea Van Houtte

SNOWBERRY

Inconspicuous, rose-colored flowers in June and July; followed by large clustered, milk white fruits which remain far into winter. The combination of pink flowers and white berries on the same twig is charming; 2 to 3 feet.

Each, 60c.

SPIRAEA

ANTHONY WATERER—A valuable and distinct variety; color bright crimson; it is of dwarf, dense growth, never exceeding 30 inches in height; in bloom the entire summer and fall. Each, 50c; 10 for \$4.50.

DOUGLASII—Immense terminal spikes of deep rose-colored flowers. One of the best. Each, 60c.

VAN HOUTTE—The grandest of all the Spiraeas. It is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. 2 to 3 feet high.

Each, 50c; 10 for \$4.50.

SYRINGA OR MOCK ORANGE

CORONARIUS (Mock Orange)—For grouping with other shrubs, forming large screens or hedges which may not require pruning, or used as single specimen lawn plants they are desirable. Fragrant, pure white flowers, in dense clusters so numerous as to bear the branches down when flowering. Each, 60c; 10 for \$5.00.

TAMARIX (Tamarisk)

Strong, slender, tall-growing, irregular shrubs, with feathery foliage and small, delicate flowers, borne profusely on gracefully-bending branches. These pink flowers are very attractive during May. Each, 60c.

WEIGELIA

CANDIDA—Of vigorous habit, flowers pure white and produced in great profusion in June, and continue to bloom at intervals through the Summer.

Each, 60c; 10 for \$5.50.

ROSEA—A charming new Weigelia, flowers brilliant crimson; a beautiful, distinct, clear shade.

Each, 60c; 10 for \$5.50.

WISTERIA

A beautiful hardy climber, will grow in one season about 20 feet high; flowers in clusters, pale blue.

W. SINENSIS (Chinese)—Flowers in clusters; pale blue; sometimes gives a second crop of flowers in the Fall. Strong plants. Each, 70c.

W. SINENSIS ALBA—Of similar habit to sinensis, with pure white flowers. Strong plants. Each, 70c.

Hardy Ever-Blooming Field-Grown Roses

Our Hardy Dormant Roses are ready for delivery from the first of March until the fifteenth of April

PLANTS TRAVEL BEST BY EXPRESS—NO PLANTS SENT C. O. D.

Columbia

GRUSS AN TEPLITZ, H. P.—This grand Rose has proved one of the best and most valuable Hardy Crimson Ever-blooming Roses for garden planting. The color when first opening is a very dark, rich crimson; as the flower opens it discloses bright scarlet, shading to velvety, fiery red. The flowers on well-grown and established plants are large and full, very showy and handsome.

Each, 60c; doz., \$6.50.

HADLEY, H. P.—One of the very best garden roses; deep, rich, velvety crimson in color and one of the most fragrant roses in our collection. Free bloomer with long, stiff stems. Each, 70c; doz., \$3.00.

LOS ANGELES, H. T.—This rose is a giant among H. T.'s. One of the largest, and possibly the largest of them all. An unusually strong, vigorous grower, of ideal form, buds long and pointed, expanding into an immense flower of perfect shape. Color is a lovely flame pink, toned with coral. Each, 75c.

MME. BUTTERFLY, H. T.—A glorified sport of Ophelia with all the colors of Ophelia intensified, making it a harmony of bright pink, apricot and gold.

Each, 75c; doz., \$8.50.

MRS. F. KRUEGER, H. P.—Flowers large and full, exquisitely formed and produced in endless profusion. Orange-yellow the most charming.

Each, 65c; doz., \$7.25.

SOIL—Roses delight in a clay loam, enriched with well-rotted manure. Dig up the soil thoroughly to a depth of 12 to 15 inches, pulverize well; do not raise beds above the level of the surrounding soil.

LOCATION—Roses delight in an open, airy situation, unshaded by trees and buildings. Always plant in solid beds and each class for itself.

PROTECTION—As soon as severe freezing weather sets in, raise the earth around the plant three or four inches, cover entire bed with dry light manure, then cover with leaves.

GEN. JACQUEMINOT, H. P.—An old favorite. It is superb in bud, and its large flowers are bright scarlet-crimson, but not very double. Blooms quite freely in Autumn.

Each, 50c; doz., \$5.75.

FRAU KARL DRUSCHKI, H. P.—Undoubtedly the finest pure white Rose in existence. Color a pure snow white, very long buds, shell-shaped petals opening to very large flowers. A continuous and exceedingly free bloomer.

Each, 50c; doz., \$5.75.

COLUMBIA, H. P.—A true pink, deepening as it opens to a glowing pink. A peculiarity of the variety is that the shades all become more intense until fully open. Strong grower, sending up numerous stiff stems of good length with fine foliage free from mildew. Each, 65c; doz., \$7.25.

Frau Karl Druschki

Roses—Continued

MAMAN COCHET PINK, H. P.—Its large, full and firm buds show wonderful depth and richness of color, as they open into very large flowers. A clear, rich, pink. **Each, 65c; doz., \$7.25.**

MAMAN COCHET WHITE, H. P.—A duplicate of its parent, the well-known and justly popular Maman Cochet, except in the color of its flowers. The finest white rose for growing out of doors. **Each, 65c; doz., \$7.25.**

OPHELIA, H. T.—Salmon-flesh shaded with rose, large, and of perfect shape; of excellent habit, the flower standing up well on long, stiff stems and produced in great profusion. **Each 65c; doz., \$7.25.**

PAUL NEYRON, H. P.—Double and full; of a beautiful deep rose color and delightfully fragrant; borne on vigorous upright stems in great abundance. **Each, 50c; doz., \$5.75.**

PERNET—A most vigorous grower of erect branching habit, beautiful, brilliant green foliage, long pointed buds of exquisite shape, carried on long, stiff stems. Very large, full flowers with elongated deep petals, a beautifully formed bloom. Color most striking sunflower-yellow, deeper in the center. **Each, 90c.**

PRINCE CAMILLE—Deep velvety crimson-maroon, full and of good form and perhaps the best of all the hardy dark Roses. **Each, 50c; doz., \$5.75.**

RED RADIANCE, H. T.—All who know that grand Rose Radiance will welcome this red form of that great favorite. Radiance is a Rose that does well everywhere; a fine grower and free bloomer. **Each, 65c; doz., \$7.25.**

RADIANCE, PINK, H. T.—Brilliant rosy-carmine shaded with rich opaline-pink tints in the open flower, which is large, full, of fine form, with cupped petals; a constant bloomer. **Each, 65c; doz., \$7.25.**

ULRICH BRUNNER—A bright cherry-red; flowers large and full; a good strong grower and always does well. **Each 50c; doz., \$5.75.**

HYBRID RUGOSA ROSE

F. J. GROOTENDORST—This is a new type of Rose, which might properly be called a Rugosa Baby Rambler, it being a cross between Rugosa and the crimson Baby Rambler. It is not a Rose that you want to plant in with your bed of Hybrid-Tea or Hybrid Perpetual Roses, but is valuable to plant among shrubs in the shrubby border or use it for an everblooming hedge. **Each, 60c.**

HARDY CLIMBING ROSES

Desirable for covering trellises, walls or porches, as they succeed under any circumstances. Perfectly hardy, blooming in clusters of medium-sized flowers.

CRIMSON RAMBLER—Have you a fence or tree stump to cover, or a veranda or trellis? Try a Climbing Rose. None is more popular than the **CRIMSON RAMBLER**. **Each, 45c.**

CLIMBING AMERICAN BEAUTY—A Rose of great merit. A cross between American Beauty and an unnamed seedling; color a rosy crimson. The plant is of strong habit of growth, making shoots of ten to fifteen in one season. **Each, 50c.**

DOROTHY PERKINS or PINK RAMBLER—Blooms in clusters of from 8 to 25 flowers each, of a delicate rosy pink shade, suffused salmon. **Each, 45c.**

EXCELSA—The foliage is dark glossy green. Flowers very double, produced in large trusses. The color is intense crimson maroon; points of the petals tipped with scarlet. **Each, 50c.**

PAUL'S SCARLET CLIMBER—No other rose in any class can compare with it for brilliancy of color, which is a vivid scarlet that is maintained without burning or bleaching until the petals fall. The flowers are of medium size, semi-double, very freely produced in clusters. **Each, 50c.**

Crimson Rambler

Orchid or Large-Flowering Cannas

Ready for shipment during March and April.

By Parcel Post, add 5c dozen, postage.

OF ALL summer bedding plants, Cannas are the tallest and bulkiest, and furnish the widest range of colors. The foliage is of noble proportions, making a full compact mass which serves to conceal the ground or background, and is of itself attractive in rich shades of green, bronze, red and chocolate. The surmounting flower trusses are uniformly large and free, brilliant with most of the colors and combinations known among flowers.

Massed plantings in one color are recommended as being most effective; but many beautiful and striking combinations of colors may be arranged.

PLANTING DIRECTIONS

Dormant Canna roots may be started indoors during March or April, but should not be set out until the weather is settled and the ground warm, usually May or June in this latitude. When planting dormant roots, do not set too deep. The eyes should be 4 inches below the surface. Plant in good, rich garden soil mixed with one-half of old, rotted stable manure. Set them about 18 inches apart each way. Water sparingly the first two weeks after planting; when growing freely, water liberally. Our list embraces the best of the novelties and old standard varieties, every one of which we recommend to our customers. We give the approximate height attained by the different varieties so that they may be properly arranged in bedding.

RED FLOWERING, GREEN FOLIAGE

CANDELABRA (New)—4 ft. Three to five flower branches on each stalk at one time is the average, and every single branch is ablaze with a torch-like flame of orange-scarlet bloom. Each, 10c; dozen \$1.00.

The President

Souv. De Antoine Crozy

CHARLES HENDERSON—Deep, crimson yellow flame at throat. 3½ feet high. Dozen, 60c.

CRIMSON BEDDER—Dazzling crimson-scarlet, well displayed above the foliage, our most conspicuous and satisfactory red bedding Canna. 3½ to 4 feet. Dozen, 60c.

METEOR—Magnificent bedding variety with massive erect trusses of deep blood-red flowers, produced with a freedom that leaves nothing to be desired. The best deep red large-flowered Canna; 5 feet. Dozen, 75c.

THE PRESIDENT—Four feet. This Canna is superior to any other red variety in the quality and also the quantity of bloom. Color rich glowing scarlet, and the immense firm flowers are produced on strong erect stalks well above the large, rich green foliage. The foliage is entirely free from disease. Dozen, 75c.

RED, GOLD EDGED

GLADIOFLORA—3 ft. Crimson changing to carmen-rose and edged with gold. Dozen, 60c.

PENNSYLVANIA—6 ft. Large orchid-flowered scarlet, over-laid with orange. Dozen, 60c.

SOUV. DE ANTOINE CROZY—3 feet. Beautiful red, enlivened with a broad border of golden yellow. Dozen, 60c.

Cannas—Continued

BRONZE LEAF, RED FLOWERING

KING HUMBERT—The grandest Canna ever offered. Large, heart-shaped leaves of purple madder brown over bronze, the dark ribs sharply defined, crowned with immense heads of Orchid-like flowers. Individual petals are of the largest size; velvety orange-scarlet flecked carmine; rose tinted at margin and base. 4 to 4½ feet. **Dozen, 75c.**

NOKOMIS—Five feet. Large vivid crimson flowers with a rich silky sheen on the large petals. **Dozen, 75c.**

ORANGE AND YELLOW

KARL MERCK—4 feet. Flower a pure yellow with tinge of orange and flecked with pink dashes becoming red in throat. Fine large flowers and large truss. Strong grower. **Dozen, 60c.**

KING MIDAS (New)—A very large flowering, beautiful, glittering Yellow Canna, with green foliage about 5 ft. tall. Fine for bedding. Every Canna lover should have this grand variety in his garden.

Each, 10c; Dozen, \$1.00.

RICHARD WALLACE—4 feet. Canary yellow flowers. Very floriferous. One of the best yellows. **Dozen, 60c.**

YELLOW KING HUMBERT—An orchid-flowering sort of the well-known variety King Humbert. Has the same habit as its parent; foliage a very dark green. Color of flower a deep rich yellow softly spotted and blotched with bright red. **Dozen, 75c.**

Yellow King Humbert

PINK FLOWERING CANNAS

MRS. A. R. CONRAD—3 to 4 feet high. One of the most popular and exquisite cannas. The flower has the ideal canna shape with broad rounded petals opening wide and on a heavily filled truss so as to hide the past blooms. Color an exquisite, soft, opaque pale pink with darker pink in throat. **Each, 10c; Dozen, \$1.00.**

HUNGARIA—3½ ft. Large flowers borne on trusses of enormous size, color a pure La France pink with satiny sheen. The most popular pink. **Each, 10c; Dozen, \$1.00.**

SHENANDOAH—4 ft. Flowers salmon-pink borne in large clusters, foliage rich ruby-red. **Dozen, 60c.**

WHITE CANNAS

EUREKA—The best white Canna for all purposes. The large substantial flowers are very freely produced on strong vigorous plants, 4½ feet.

Each, 10c; Dozen, 75c.

A trial of our Collection of Giant Zinnia will prove it to be an exceptionally choice assortment of the best named varieties of the Giant-flowering type. See our Collection on page 67.

Dahlias

Dahlias by Parcel Post, add 3c each Postage.

THIS Dahlia deserves a place in every garden, much more so than it did twenty years ago; with the new varieties added each season and the extraordinary array of colors which they possess, the time must come when every lover of flowers will always have a few, if not large tracts of these beautiful Summer and Fall flowers.

Time of Planting.—The time for planting Dahlias varies quite a good deal, according to the locality, whether sheltered or open, earliness or lateness of the season, and the time when the general crops are desired. In the Central states tubers may be set out as early as May 1st in some sections and from then until the middle of June. Some of our best blooms have been grown from tubers planted out about June 20, obtaining the choicest flowers during the latter part of September. Dahlias should be planted from 2½ to 3 feet apart and covered to a depth of four inches.

CACTUS DAHLIAS

COUNTESS OF LONSDALE—A pleasing blending of Salmon-pink and amber; an early and profuse bloomer under any conditions. **Each, 40c.**

CARR'S PINK—A beautifully formed flower; perfect cactus type; free flowering, beautiful foliage. Large size. Excellent for cutting on account of its delicate coloring and long keeping qualities. **Each, 75c.**

ETENDARD de LYON—Everyone admires this beautiful rich royal purple. The flowers are distinct in shape from all others, with broad, curling, wavy petals which form a flower 6 inches in diameter and 4 inches deep, a large flower, yet without any stiffness or formality. **Each, 50c.**

FLORADORA—Pure garnet, beautiful form, profuse bloomer. **Each, 25c.**

LIBELLE—A grand variety of medium size, a profuse bloomer. Color a beautiful aster purple; very effective. **Each, 25c.**

PERLE de LYON—Pure white hybrid cactus of special merit; large free flowering; good stem. Petals cleft at the tips; one of the most satisfactory for florists' use on account of the waxy whiteness and long-keeping quality. **Each, 25c.**

SPRINGFIELD—For perfection of bloom, size and erectness of stem, abundance of flowers and general use as a garden flower, this variety has always given excellent satisfaction. It is undoubtedly the most profuse bloomer offered. The color is a rich salmon, tinted. **Each, 50c.**

SHOW AND FANCY DAHLIAS

A. D. LIVONI—One of the old varieties, but still a favorite on account of its beautiful color and perfect form and freedom of flowering. Color, clear cerise-pink, quilled petals, medium size. **Each, 25c.**

FLORAL PARK JEWEL—Perfect ball, red and white tipped; medium size. **Each, 25c.**

MAUD ADAMS—A perfect ball. Very effectively overlaid a clear delicate pink, without a doubt one of the most beautiful Show Dahlias among the light colors. The plants are a perfect bank of flowers resembling a huge bouquet desirable as a cut flower as well as for yard decoration; medium size. **Each, 35c.**

STORM KING—The most reliable white Show Dahlia to date. Color, a pure white. Flowers produced on good stems, well above the foliage. Free flowering. **Each, 25c.**

YELLOW DUKE—A free flowering, long stemmed; its full quilled blooms of primrose-yellow being exceedingly soft and pretty. **Each, 25c.**

JEAN CHAZOT—H. C. Golden bronze with faint suffusion of Nasturtium red. A free blooming, finely formed hybrid-cactus held on good stem. **Each, 75c.**

Springfield

Decorative Dahlias

AMUN RA—This Gold Medal Prize Winner is an immense bloom of a wonderful shade of burnished copper, shading to gold and orange, and deepening in the center to a rich reddish bronze.
Each, 90c.

AUTUMN BEAUTY—A very fine flower, very early and continuous good bloomer until frost, color beautiful shade of rich autumn brown, a good variety for garden and cut flowers.
Each, 25c.

BEAUTY OF ROSEMONT—A very large flower, rank grower, good stem. Color, deep salmon pink, buff base. Very free flowering, a very desirable variety. Each, 50c.

CRIMSON BEAUTY—Early, bright red, a fine bloomer, this variety should be in every garden. Each, 25c.

DELICE—A valuable addition to the cut-flower varieties; remains fresh long after cutting, long stems, perfect form. The color is a beautiful, soft, glowing rose-pink, shading slightly to the center. Each, 25c.

DOAZON—Perhaps one of the largest Dahlias grown. Very profuse bloomer, making the most gorgeous display for yard work. The color is a deep rich shade of orange-red.
Each, 25c.

DR. TEVIS—A magnificent blossom of a blend of copper, old rose and old gold. Immense flower with the best possible stem. A Californian variety which is a pleasure to boost. Has a tremendous record as a prize winner. Each, 75c.

MINA BURGLE—A seedling named and originated by Mr. Burgle, a California Dahlia lover. Producing flowers of gigantic size, and remarkable beauty. The best in existence; in color, a glowing and most brilliant scarlet. Each, 40c.

MRS. CARL SALBACH—An immense flower of light mauve pink, shading white in center, with every petal outlined in deep mauve. Each, 60c.

ORANGE KING—In the most unfavorable seasons "Orange King" has produced abundantly and the quality of the flowers has always been of the best. We do not think anyone will be disappointed with this variety. Each, 50c.

PRIDE OF CALIFORNIA—Beautiful cardinal red, shaded darker in center. A very large, deep bloom, held on extra good stems. Each, 50c.

ROYAL PURPLE—Purple. A fine flower for yard work, as it is one of the first to bloom, and is a mass of flowers until frost. Each, 25c.

SYLVIA—Best described as a giant Nymphaea. Flowers 4 to 6 inches in diameter, of fine form, soft pink on the outer petals. Valuable cut flower for long-distance shipments. Each, 25c.

PEONY-FLOWERED DAHLIAS

This class had its origin in Holland and was named on account of its resemblance to the Japanese Peony. Flowers large, on long stems, and have conspicuous open centers around which the large, broad, gracefully curled and twisted petals.

AUTUMN PERFECTION—I know of no Dahlia that will produce as many large flowers as this variety. Very early and continuous until cut down by the frost. Full to center, a beautiful shade of orange and copper.
Each, 50c.

CALIFORNIA PEONY—This is identical with California Peony in form, size and habit of growth. Color is delicate fawn. Each, 25c.

BERTHA VON SUTNER—A very popular Holland Dahlia. Color, salmon, shaded to apricot. Very large flower and long wiry stem; blossoms very freely. This is a most desirable Dahlia. Each, 25c.

SOUV. DE MILWAUKEE—Large blossoms; long wiry stem; yellow center, shaded to deep purple with lighter tips. Each, 25c.

Evelyn Kirtland

ANNA EBERIUS—An extra fine variety and one that is destined to become very popular; color, dark velvety purple, throat a deeper shade; flowers large, on long spikes.

Dozen, 75c; 100 for \$5.50.

ARIZONA—A new and one of the most fascinating varieties; long spikes of large flowers; color, fine dark pink with maroon markings on lower petals.

Dozen, 60c; 100 for \$4.50.

CHICAGO WHITE—A fine white variety with lavender stripes on lower petals. Medium sized flowers borne on a tall spike and from seven to eight flowers open at a time.

Dozen, 50c; 100 for \$3.50.

EVELYN KIRTLAND—Tall and stately; flowers fairly sparkling with a characteristic lustre, and joyous color tones. Rosy pink, darker at edges and dimming to shell-pink at center; brilliant scarlet blotches on lower petals.

Dozen, 60c; 100 for \$4.50.

FLORA—In color an improved Schwaben, clear canary-yellow with no markings. Its flower shape and habit resemble America, but the heads are larger even than Schwaben; early, and long-stemmed. Dozen, 75c; 100 for \$5.50.

GLORY OF KENNEMERLAND—Deep rose with creamy yellow throat blotch; very large wide open flowers on strong stiff stem, very striking. Dozen, 60c; 100 for \$4.50.

GOLIATH—Deep purplish maroon; very large flowers on tall strong stem, the best dark on the market.

Dozen, \$1.00; 100 for \$7.50.

Select Gladioli

Gladioli, by Parcel Post, add 5c per doz.

THE Gladiolus is one of the most called-for of our Summer flowering bulbs. In the following list of varieties we offer only those which we have grown with satisfactory results.

It is needless to say that Gladioli at the present time produce some of the finest colors and most exquisite shades; especially beautiful are the delicate contrasts of the outer segments and the deep veining and heavily colored blotches of the throat, thus making the Gladiolus one of the most attractive Summer-flowering bulbs. We advise the planting of Gladioli during May and June, and should successive plantings be made, flowers may be had until October.

AMERICA—A splendid Gladiolus. The color is a soft pink very much like the Enchantress Carnation, except slightly tinged with lavender effecting a perfect color harmony. A splendid bedding sort and an excellent cut flower. It is undoubtedly the most desirable variety in the market. Extra large bulb.

Dozen, 50c; 100 for \$3.50.

ALICE TIPLADY—A wonderful variety of an entirely new and distinct color, a rich orangy saffron, very beautiful and artistic blooms, the largest and finest of the Primulinus hybrids to date.

Dozen, 75c; 100 for \$5.50.

Chicago White

Gladioli—Continued

HALLEY—The predominating color of these flowers is delicate salmon pink with a slight roseate tinge, though the lower petals bear a creamy blotch with a stripe of bright red through the center, the whole producing a delightful effect. **Dozen, 50c; 100 for \$4.00.**

HERADA—Blossoms of immense size on tall straight spikes; the color is pure mauve, glistening and clear with deeper markings in throat. An unusual color and very effective as a cut flower. **Dozen, 75c; 100 for \$5.50.**

MAIDEN'S BLUSH—Beautifully formed flowers on long stems; early flowering; color, enchantress pink. **Dozen, 60c; 100 for \$4.50.**

MRS. DR. NORTON—Very large and well opened flowers, well set on a tall and graceful spike, four to eight flowers in bloom at one time. White, the edges suffused with soft pink. The three lower petals have a blotch of sulphur-yellow, strained at the base with fine specks of pink. A strong, vigorous grower and very free flowering. **Dozen, 60c; 100 for \$4.50.**

MRS. FRANCIS KING—Is a strong grower, vigorous and healthy. Has long, strong foliage and effective flower-spikes. The magnificent flowers measure $4\frac{1}{2}$ inches across, and there are five or six flowers well spread out on the spike at the same time. The color brilliant flamingo-pink, blazed with vermilion-red. **Dozen, 50c; 100 for \$3.50.**

MRS. FRANK PENDLETON—The sensational beauty, winner of awards and prizes everywhere; the petals show beautiful bright rose-pink on a pure white ground, contrasting in a most striking way with the deep rich velvety blood-red blotch on the lower petals; as showy as an orchid; the most perfect and delicate coloring is produced when spikes are cut and carried indoors as soon as the first blossoms open; no grander variety in existence. **Dozen, 50c; 100 for \$3.50.**

Mrs. Francis King

1910 ROSE—Extra large flower; pure rose-pink; exceptionally fine; early, good forcer. The large flowers are well expanded and of perfect form. **Dozen, 60c; 100 for \$4.50.**

NIAGARA—In color the flowers are a delightful cream shade with the two lower inside petals or segments blending to canary yellow. The throat is splashed with carmine, and the lower ends of the outside petals are also blushed with carmine. The stamens are purple and the stigmas pale carmine, this little addition in the coloring relieving the creamy effect of the petals. **Dozen, 60c; 100 for \$4.50.**

PRINCE OF WALES—A seedling of Halley, which it resembles, but is even earlier to bloom; attractive, nebulous orange color, very popular for early cutting. **Dozen, 50c; 100 for \$3.50.**

PANAMA—Exquisite and magnificent, being fully the equal of America in form and size, but superior to it in color, being more on the order of salmon-pink. Wherever this variety has been exhibited it has secured first premiums. **Dozen, 50c; 100 for \$3.50.**

CALADIUM ESCULENTUM

(Elephant's Ear)

One of the most effective plants in cultivation for beds, borders or for planting out upon the lawn; they are used extensively in many of the public parks, where their decorative value is greatly appreciated. To obtain the best results it should be planted where it will obtain plenty of water and an abundance of rich compost. When full size it stands 5 to 7 feet high, and bears immense light green leaves, 3 to 4 feet long by 2½ feet wide.

FANCY LEAVED CALADIUMS

FANCY LEAVED—Bulbs 1½ to 2 inches in diameter. For window boxes, show plants, or greenhouse growing they are invaluable. Rich, thrifty leaves, marbled, veined and striped with white, pink and dark red. Each, 30c.

Gladioli—Continued

PURITY—Pure white, long spike of many flowers open at one time, one of the best of the white varieties.

Dozen, 60c; 100 for \$4.50.

RED EMPEROR—Glowing deep blood red; flowers of immense size on strong stem, very showy.

Dozen, \$1.00; 100 for \$7.50.

SCHWABEN—A meritorious variety of wonderful vigor with strong erect spikes and large flowers of a clear yellow color. Small blotch of deep garnet in throat.

Dozen, 60c; 100 for \$4.50.

WILLBRINK—An early flowering variety, with attractive flesh pink flowers, with creamy white blotch on lower petals. A favorite variety for cutting. Dozen, 60c; 100 for \$4.50.

WILLY WIGMAN—A creamy white ground delicately rose tinted with a large soft carmine conspicuous blotch on lower petals. Dozen, 75c; 100 for \$5.50.

GLADIOLUS COLLECTION

Two bulbs each of six named varieties. Absolutely the finest assortment of Gladiolus offered by anyone. This collection gives you a magnificent display of Gladiolus of every conceivable color, shading and marking. Per collection of 12 bulbs, 50c.

CHOICEST MIXED GLADIOLUS

A wonderful collection, including many of the named varieties. Our Choicest Mixed Gladiolus will give a wide range of color of wide open flowers, beautifully marked. This mixture is fine for cut-flowers as well as bedding, having been especially selected as to combination and blending of colors.

Dozen, 40c; 100 for \$3.00.

PRIMULINUS MIXTURE

PRIMULINUS HYBRIDS—Self colors that are most pleasing on account of their delicacy, slenderness and peculiar form. The petals are quite thin, making the veining very prominent. They vary from pale yellow to bright orange salmon, apricot and light scarlet. These graceful flowers are of medium size, with the upper segments somewhat drooped, making a quite distinct hooded form. Dozen, 50c; 100 for \$3.50.

Caladium

Amaryllis

The amaryllis is pre-eminently a window garden plant for the amateur, producing under the simplest conditions one, two and even three spikes, two feet or more high, which are crowned with from three to six large and gorgeous trumpet-shaped blooms.

HYBRIDS—Flowers of largest size composed of broad, well-rounded, over-lapping petals; gigantic blooms of the most perfect form, ranging in color from pure whiterose, red and crimson to the richest self colors as scarlet. **Each, 60c.**

CINNAMON VINE

A beautiful, rapid-growing Summer climber, with bright green, glossy foliage, and spikes of deliciously cinnamon-scented, white flowers. It is perfectly hardy, the stem dying down in Winter, but growing with great rapidity in the Spring, so as to cover any trellis or arbor very early in the season. Large, select roots.

Each, 10c; Dozen, \$1.00.

BEGONIAS (Tuberous Rooted)

Enormous wax-like flowers appear uninterruptedly from June until frost. Plant bulbs outdoors about May 1st or start indoors any time prior to then.

CONVALLARIA (Lily of the Valley)

This popular and fragrant subject repays for being well treated. Grand for massing near shrubs or along shaded borders.

Clumps, 75c.

Linum Speciosum Auratum

ISMENE CALATHINA

(Pancratium Lily or Peruvian Daffodil)

One of the choicest of our summer flowering bulbs, blooming profusely during the summer. Handsome clusters of large, very striking, fragrant pearly white flowers. Bulbs should be kept warm and dry and planted out in the middle of May. They will commence flowering in July. It is really one of the most lovely of all the great Amaryllis tribe.

Large bulbs, Each, 20c; Dozen, \$2.25.

Lilies (Hardy Japan)

By mail, add 15c Dozen, Postage

Lilies have always been regarded as among the most beautiful of garden plants. Of queenly, faultless purity and stately form, too much cannot be said in their praise and we are glad to notice their increasing popularity from year to year. Nearly every variety will, with a little care, endure the severity of our winters and many are among the most hardy of our garden flowers.

Bulbs should be planted as soon as the frost is out of the ground; the earlier the better. Select well-drained spot, dig the soil deep and make it fine, enriching it abundantly with well rotted cow manure, adding a liberal mixture of sand. Set the bulbs from five to seven inches deep.

AURATUM (The Golden Rayed Lily of Japan)—The flowers are pure white, thickly studded with crimson spots, while through the center of each petal runs a clear golden band.

Large bulbs, each, 35c; dozen, \$4.00.

MELPOMENE—Frosted white spotted, clouded and bordered with pinkish crimson. Petals deeply recurved and widely bordered. **Large bulbs, each, 35c; dozen, \$4.00.**

SPECIOSUM RUBRUM—Petals are thickly dotted with rose or crimson spots and the graceful form and brilliant color make them very effective and desirable. Especially thrifty and hardy. **Large bulbs, each, 35c; dozen, \$4.00.**

PEONIES

Time of Delivery—All roots can be delivered from early March until the end of April, and again from September on and until freezing time in the Fall.

They are the "Queen of Spring Flowers." and are well adapted for massing in beds, and particularly valuable for planting in groups throughout the perennial or shrubbery border, where their brilliant hues add attraction to all around. Their requirements are so simple—a good, rich, deep soil, and an open, sunny position—which, however, is not absolutely necessary, as they thrive almost equally well in a partly shaded position, and a liberal supply of water during their growing season being sufficient to give an abundance and wealth of flowers, which rival the finest roses in coloring and fragrance, and produce during their flowering season a gorgeous effect not equaled by any flower, and once planted they take care of themselves, increasing in beauty each year.

DUCHESS D'ORLEANS—A deep pink, bearing fine flowers; one of the best keepers. Each, 50c; dozen, \$5.50.

EDULIS SUPERBA—Beautiful deep-rose pink, large and of good form; fragrant flowers, a fine variety. Each, 50c; dozen, \$5.50.

FESTIVA MAXIMA—Verv large, pure-white flowers; tall and vigorous stalks, early. Each, 60c; dozen, \$6.50.

QUEEN VICTORIA—A strong-growing, pure white variety with creamy-white center. Each, 50c; dozen, \$5.50.

FELIX CROUSE—Rich ruby red; bomb type; fragrant; midseason; blooms freely. Each, 85c; dozen, \$9.50.

Peonies

Madiera Vine

MADEIRA VINE

A favorite tuberous-rooted climbing plant with dense and beautiful shining foliage and of very rapid growth, twining on strings to a great height or forming garlands in many fanciful forms. It will grow anywhere, but does best in a warm sheltered, sunny location. It is also a very pretty plant for training around the windows in the house. Lb., 20c.

Summer Hyacinth

(*Hyacinthus Candicans*)

In July and August they produce spikes about two feet long, which are covered with bell-shaped white flowers. Large bulbs. 15c each; doz., \$1.50.

Tuberoses

TUBEROSE

By mail, add 10c Dozen, Postage

The flowers of this popular plant are waxy-like, one of the most delightfully fragrant and beautiful of the summer flowering bulbs. By skillful management a succession of flowers may be obtained all the year round. For early flowers they can be started in February or March in the greenhouse or hotbed; and for a succession they can be planted at intervals as late as July. For flowering in the open border, plant about the middle of May, or as soon as the ground becomes warm.

DOUBLE PEARL TUBEROSES

One of the most delightfully fragrant and beautiful of the Summer-flowering bulbs. By skillful management a succession of flowers may be obtained all the year around. For early flowers they can be started in February or March in the greenhouse or hotbed; and for a succession they can be planted at intervals as late as July. For flowering in the open border plant about the first of May, or as soon as the ground becomes warm. Strong flowering bulbs.

Each, 10c; per dozen, \$1.00; per 100, \$7.00.

MEXICAN EVER-BLOOMING SINGLE

The most free-blooming tuberose in existence. It is a native of the tableland district of Mexico. Each bulb produces only one flower spike; but the peculiar feature is the making of new bulbs, as the original one is blooming, which flower as soon as the old bulb has finished, thereby yielding a succession of blooms throughout the season.

These bulbs may be planted as early as the first of May and as late as the middle of June, and flowering in about eight weeks' time, they continue until after the first frost. The flower stalk is tall and stiff, usually bearing from six to twenty pure white blooms, having the same delightful odor as the regular double variety. The stalks when cut will last for a great length of time in water and the flowers will also increase in size.

This Mexican Ever-Blooming Tuberose is easily grown in the greenhouse and makes one of the best and most useful varieties for forcing. Dozen, 75c; per 100, \$6.00.

INTERNATIONAL SANITARY HOVER

The One Perfect Brooding Device

No one realizes better than we do that the entire success or failure of poultrymen depends upon their brooding system. They must be able to raise as large a number of the chicks hatched or bought as possible and therein lies the whole secret of the poultry industry and its successes.

We have seen poultrymen start out with practically nothing and grow into mammoth industries; we have seen others start with everything and fail. And to one thing can be traced this success or failure—the brooder that had to raise the chicks to large, healthy birds if the business was to succeed.

Large, unwieldy broods are never given the care they should be given. Sanitation demands smaller individual broods if you wish to succeed. The unit of 100 chicks has been proven to be the most satisfactory. This point should be given some thought and consideration.

We use and have used the Sanitary Hover exclusively in our baby chick department for over seven years. And in the recent shortage, we could have sold our old hovers for as high as \$25.00 apiece. We have sold thousands of Sanitary Hovers and have never heard anything but the highest praise for them. And for the first time in five years we have enough hovers to take care of the great demand.

The Sanitary Hover is endorsed by leading poultrymen such as Mr. Delano, owner of the Owen Farms, where over 10,000 chicks are raised a year. Chas. Key Cullom, Secretary of the St. Louis Poultry Association, and Editor of the National Poultry and Pet Stock Journal; Geo. C. Ziebold, owner of Whistlecote Farms and breeder of famous White Rocks; Dr. L. D. LeGear, president of L. D. LeGear Medicine Co., and breeder of White Rocks, and many others.

THE SCIENCE OF BROODING CHICKS

A brooder is an artificial hen. Its purpose is to perform the duties of a mother hen toward the chicks so far as the hovering is concerned. Baby chicks spend the day running in and out under the hover to get warmth when chilly and to scratch for food. This gives them plenty of fresh air so that almost any hover will do for the day time.

But at night it is different. They hover instinctively under the brooder—just as they would under the mother hen—and trust to the brooder to bring them safely through the night. If the hover is a good one they will come out healthy and happy in the morning, and the result will be healthy, robust broods. And how they come out in the morning depends upon the brooder.

The greatest loss in the poultry business is in the raising of baby chicks and that is why you should give a great deal of attention to your brooding problems. You ought to know why the Sanitary Hover has a canvas curtain. Why it is perfectly ventilated at night and every chick is sure of plenty of fresh air during the night, why the curtain prevents all drafts from striking the chicks, and why you can depend on seeing every chick ready to face the new day.

A complete catalog of the International Sanitary Hover will be mailed you free. Write for a copy and learn the system of perfect ventilation found only in "The One Perfect Brooding Device."

Price, \$13.50

**REMEMBER WE PAY THE FREIGHT
ON INCUBATORS AND BROODERS**

Sectional View of the Sanitary Hover

The cool air flows in through the intake flue, discharging at the bottom near the lamp, which keeps the oil fount always cool and safe. This circulation is caused by the current of warm air flowing constantly up through the tall draft pipe, which current of air carries off the fumes from the lamp after the heat has served its purpose. By this arrangement the heat is made to radiate in all directions from the top and sides of the lamp chimney. The black-iron radiating drum is thin and easily radiates heat; and inasmuch as the drum is higher at the edge than near the center, it gets warm first at the edge and is always warmer there than near the lamp. This feature, i. e., a higher temperature at the outer edge, is what especially pleases the practical poultry raiser, as it prevents crowding.

Moe's Incubators

COMMON SENSE MACHINES THAT PRODUCE CHICKS

MOE'S INCUBATORS cost much less than most good incubators. The egg tray is larger than most other machines rated at the same size, and the machine is heavier and sturdier built.

California red wood is used in the construction of Moe's Incubators. The case has thick double walls, with strong rigid joints which will not come apart when subjected to heat and moisture. There is a dead air space and insulating material between the outer and inner walls, which are both made of California red wood.

The heater lamp has a heavy metal bowl of large capacity, fitted with the famous "Sun Hinge" burner and burns with a steady and uniform flame.

The lamp rests in a strong galvanized container which encloses it on three sides. This acts as a perfect shield and insulator, prevents any oil from coming in contact with the wood cabinet, and is an efficient protection against danger of fire. It also confines the heat under the copper tank and makes for economy in fuel.

Moe's Incubators have solid copper tank and heating coils, with double locked and soldered seams. The water is heated in the copper tank above the lamp, and then circulates through the coils producing a soft, even, uniform heat of the correct temperature in every part of the incubator.

The filler cap is securely soldered to the tank (no screw connections to become worn and loose), and an automatic air vent or overflow tube provides for expansion and contraction, or any air pocket that might form in heating coils.

Moe's hot water heating system is simple, safe and dependable.

		No. 176.	1200 eggs\$120.00	

No. 168
Moe's Incubator

Moe's Colony Brooders

MOE'S COLONY BROODER is simple in construction with no complicated or unnecessary parts.

It is self regulating and requires very little attention. It will burn nearly any kind of fuel. Hard coal, chestnut size, is best, as it burns slowly with an even heat, but soft coal or coke can be used successfully.

The Stove has a large deep fire pot. It is filled from the top and takes 4-inch smoke pipe.

The Fire Bowl is wider at the base than at the top, allowing the fuel to feed freely to the grate without danger of clogging.

The Grate is two sections rocker type, center dump, making it easy to keep a clean, bright fire at all times.

Automatic Control. The fire is automatically regulated by twin thermostats which open and close the check draft on top of stove. Easily adjusted to any desired degree of heat, and after adjustment at the beginning of the season needs no further attention.

Moe's Colony Brooder is a new and improved design of brooder stove. It is made of highest quality iron castings which will wear and last indefinitely.

Moe's Stove provides a constant, correct heat and constant distribution that makes the chicks develop into strong healthy fowls.

Remember we pay the freight.

Moe's Square Brood Coops

Made of heavy, best quality, galvanized iron. The bottom is removable so the coop can be easily cleaned and kept in a sanitary condition. Provides a perfect shelter for both the hen and chicks. Has a combination door which can be adjusted.

- 1—To keep the hen in and permit the chicks their liberty.
- 2—To keep both hen and brood in, with perfect protection against weather, rats, cats and other animals, and yet allow ample ventilation.
- 3—To give both hen and chicks their liberty.

Made collapsible to save freight and space. Quickly set up.

Size, 16 inches wide, 23 inches long, 16 inches high.

Packed 3 in a crate. Shipping weight, 33 lbs.

No. 49. Price, each, \$1.95. Per dozen.....\$30.00

Lawn Park Extension Coop

This coop is a combination closed and open air coop. When the coop is extended it forms an open air coop. It keeps the hen and her brood together. The wire extension has no bottom. This allows the hen and little chicks to scratch and pick on the ground. It can be moved from place to place to give the brood a new place for scratching which they enjoy very much and makes them thrifty and prosperous. When the brood is confined in this coop it keeps the other fowls away from them and they are undisturbed. The bottom has a flange on each side extending upward so the little chicks cannot get their feet caught. When the extension is drawn out or pushed in the wire extension has three doors, the same as the Moe's coop, which can be used either when coop is extended or closed. When desired, close the coop by pushing in the extension.

They come nested one over the other and are packed one-half dozen in a wood crate and weigh about 188 pounds to the crate.

Size of coop extended, 46 inches by 20 inches and 18 inches high. When closed 24x20x18 inches.

Each\$4.00

Moe's Oats Sprouter

The frame is of steel, well braced and neatly painted. Has six heavy galvanized iron pans. Five of the pans have perforated bottoms to secure the proper drainage, and the bottom pan is solid to hold the drippings. Pans are interchangeable. Sectional frame, can be quickly taken apart and stored in a small space.

The best results are obtained if the sprouter is placed in a cellar near the furnace or in a room with a temperature of 65 degrees or 70 degrees. Use good oats and soak them in water for about 12 hours, then fill the trays to a depth of about 1 inch. Sprinkle and stir with a paddle each day until they sprout. Then discontinue stirring, but continue to sprinkle daily.

No lamp or heater required.

Total height of frame, 3 feet. Size of pans 16 inches by 18 inches.

Packed knocked down, one in a crate. Shipping weight, 25 pounds.

No. 110. Moe's Oats Sprouter. Each.....\$6.00

Cannot be mailed.

Poultry Water Fountains

MOE'S TOP-FILL FOUNTAIN

Fill in the morning and your chickens have an all-day supply of pure water at just the right temperature.

The double wall keeps water cool in summer and retards freezing in winter. No valves to get out of order. Thoroughly sanitary and as easily cleaned as an ordinary pail. Does away with slopping over when being filled. Can be hung up out of the litter and the square pan prevents spilling at that time. The square pan also affords drinking facilities for two pens at the same time.

Fills from top. The most popular fountain on the market.

SANITARY EARTHEN FOUNTAIN

Constructed of white stone ware, in two parts, so that it can be easily filled and cleaned. It is the best fountain for use in administering medicine in water to your poultry.

These fountains keep the water fresh and cool in the hot weather and are endorsed by many successful poultrymen.

Nothing to wear out on these founts, and for use during these hot summer months they are unsurpassed. The different sizes will do for baby chicks, grown fowl or pigeons. Cannot be mailed.

Sanitary earthen founts are made in the following sizes:

Sanitary Drinking Fountain.

We will not be Responsible for Sanitary Earthen Fountains Broken in Shipment.

MOE'S WINTER FOUNTAIN

A simple and reliable fountain with heater. Made of heavy galvanized iron, easily filled, with nothing about it to get out of order.

The fountain has a capacity of 5 gallons, and the lamp holds sufficient kerosene to burn continuously for one week.

The fountain can be removed from the heater and used independently when desired.

Packed one in a box. Shipping weight 11 lbs., complete. Heater can be used under any fountain.

No. 75. Winter Fountain. Each.....\$3.60
Heater only, shipping weight, 5 lbs..... 1.90

By mail, add Postage.

MOE'S MAGAZINE CHICK FEEDER AND WATERER

A new round chick feeder with a magazine or container to hold a good quantity of feed. The upper magazine is fitted to the feeder top with a spiral thread so it can be adjusted up or down to feed the various kinds of grain. It can also be used as a drinking fountain, as the magazine is water- and air tight.

Diameter of feeder, 8¼ inches. Capacity, 2 quarts. Shipping weight, 2 pounds.

No. 18. Moe's Chick Feeder. Each.....\$0.50

By mail, add postage.

MOE'S STAR FOUNTAIN AND FEEDER

The latest improved type of Mason jar founts. Made of single piece of heavy, non-rusting material. No seams, no solder, no loose parts, cannot leak. Provides a greater drinking surface than the round fountains. Can be used for feed as well as water. Little chicks cannot drown. Fits any mason jar. Convenient, practical, low in price and durable.

Price.....Each 10c Dozen \$1.20

Shipping weight, per dozen, 4 pounds. By mail, add postage. We do not furnish jars.

MASON JAR FOUNTAIN

Mason Jar Fountain, made of tin, and is screwed on an ordinary glass jar. Diameter, 6¼ inches. Shipping weight per dozen, 4 lbs. By mail, add postage.

No. 142. Price

Each, 10c; Dozen, \$1.20

(Glass jars are not included.)

While the above fountains are made for baby chicks only, we can also recommend the fountains, page 86, for the little chicks. The Moe's bottom fill fountains, the sanitary crock fountains listed on page 86 have been used for years and have given excellent results. These fountains can be used for larger broods of chicks than the small quart fountains, thereby saving time and labor.

We pay the Freight on Incubators and Brooders.

MOE'S DRY MASH HOPPERS

A Dry Mash Hopper of great merit, made of heavy galvanized iron. All parts accurately stamped with dies. The curved bottom keeps the feed within easy reach of the birds, and the taper shape of the hopper—larger at bottom—prevents the feed from clogging.

The wire grid and the wires running from the flange through the wire grid prevent the fowls from throwing out or wasting the feed.

The sloping top prevents them from roosting on the hopper.

When both covers are closed it is rat, mouse and weather proof.

Made in four sizes.

MOE'S LARGE CAPACITY FEEDER

A wonderful feeder for young growing stock. Has a large capacity, with 16 openings on each side, so that 32 chicks can feed at one time. The birds cannot roost on the cover or sides, so it is impossible to foul the feed.

Has a sliding top cover, easy to fill and clean.

A great time and labor saver where chicks are raised in large numbers.

Made of heavy galvanized iron. Length, 21 inches. Width, 8 1/2 inches. Height, 7 inches. Capacity, 10 quarts. Shipping weight, 5 pounds.

- No. 140. Chick Feeder. Each.....\$1.20

By mail, add Postage.

EXHIBITION COOPS

These exhibition coops, made of the best galvanized steel wire and sheet metal electrically welded, are the most attractive and best value on the market today. They contain no clips or projecting bolts to break the feathers of the fowl. The doors are large, making it easy to remove the birds or replace them.

The middle partitions are woven close so the birds cannot fight when close together. By removing the middle partition you can combine two or more coops, as many as desired, for trios or pens. Two coops made in one are large enough for a pen of five birds.

No. 46. Single coop, 24x24x27 inches high.

Each \$1.75; Dozen \$20.00

Pen, 48x24x27 inches high. Each\$3.00

Dozen 35.00

Exhibition coop cups. Each \$0.15 Postpaid .20

MOE'S LICE REPELLING WHITE NEST EGGS

A white, sanitary, lice repelling nest egg of superior quality and appearance. They are unsurpassed as a disinfectant in the poultry house and aid greatly in keeping the nest and the hen free from vermin.

Closely imitate a real egg in appearance, and contain a powerful disinfectant. Some breeders recommend placing one in a corner of each nest under the straw.

Soon pay for themselves in increased yield.

Shipping weight, per dozen, 3 pounds. By mail, add postage.

No. 66. Moe's Lice Repelling Nest Eggs.

Per dozen\$0.60

MOE'S PIGEON FEEDERS

Pigeons are particular and fastidious feeders with a strong tendency to scatter and waste feed. Moe's round pigeon feeder was especially designed to overcome this. Made of heavy galvanized iron, with feeding holes properly spaced all around the hopper. The hopper has a slanting bottom leading through a large tube to the feeding bottom. This feeding trough or bottom is also made on a slant, causing the birds to reach for the food and prevents them from bill-ing the feed out and wasting it.

A practical, economical feeder which will soon save its cost.

No. 105. 3-quart capacity. Shipping weight, 3 lbs. Each\$1.00

No. 106. 6-quart capacity. Shipping weight, 4 lbs. Each\$1.50

By mail, add postage.

MOE'S PIGEON NESTS

Made of galvanized iron. Diameter 8 inches with a small hole punched in center so it can be tacked to a board. Generally used in pairs.

Light in weight, yet substantial, and easily cleaned.

Packed 24 in a box. Shipping weight, 12 pounds.

By mail, add postage.

No. 107. Pigeon Nests. Each.....\$0.15

Per dozen 1.80

MOE'S CHINA NEST EGGS

Made of white porcelain, natural in appearance, and uniform in size. Will not easily break.

They induce the hen to lay where she should—in the nests provided for her.

Shipping weight, per dozen, 2 pounds. By mail, add postage.

No. 67. Moe's China Nest Eggs. Per dozen \$0.35

Thermometers and Hygrometers

All Thermometers sent postpaid, purchaser's risk.

The tested Incubator Thermometer is made in a triangular shape, as shown here, with heavy, black oxidized scale, so that same can be read easily, and lie on the eggs in proper angle. We cannot guarantee safe arrival of any thermometers. Sent at purchaser's risk.

Postpaid. Each.....\$0.75

No. 403 Universal Thermometer. The Universal Thermometer is a new pattern that can be used with perfect satisfaction in any make of incubator. It has a mercury-filled tube and is triple-tested for accuracy. We recommend this thermometer above all others for incubators.

Postpaid. Each.....\$1.00

Brooder Thermometer, 75c each, postpaid.

Moe's Incubators hatch the large hatches of healthy chicks

MOE'S PUNCH

A new improved punch, scissors type. Works easily, cuts clean and does not bruise the foot. Convenient to carry in vest pocket, and the lower end is an excellent cigar cutter. Nickel-plated finish. Length, 3½ inches. This punch is the best punch you can buy as it will last forever.

Postpaid. Each.....\$0.50

Hygrometer

This instrument is designed to meet the demand of the practical poultryman for a simple, direct reading gauge which will enable him to keep the amount of moisture in his incubator as near as possible to desired point.

By noting the position of the mercury column, the operator can tell at a glance whether to increase or decrease this amount.

Postpaid. Each.....\$1.25

HANDY EGG TESTER

This Egg Tester is designed for use on ordinary hand lamp, and fits over any style of burner with a diameter approximating that of the tester. In a dark room the light will be found strong enough to penetrate the shell and illuminate interior of egg.

Postpaid. Each\$0.40

PETTEY'S PUNCH

With this small punch you can make a small hole through the web between the toes of the chicks. In this way you can distinguish the chicks. There are sixteen different markings that can be used. The Pettey's Punch will punch a clean hole without bruising the foot. Fits in the vest pocket. A practical and popular punch.

POULTRY PUNCH

Postpaid. Each\$0.25

Parcel Post Egg Carriers

FARMER'S FRIEND EGG CARRIER

Farmer's Friend Egg Carrier

Insures safety of egg transportation through the mails. A boon to poultry raisers everywhere. Light in weight.

Strong in construction.

In our Farmer's Friend Egg Carrier you will find one of the most useful and convenient articles that a farmer and poultryman can have. No shipper of eggs can afford to be without these Parcel Post Egg Carriers. The demand from the city markets for fresh eggs is such that it is to the wide-awake farmer or poultryman's interest to be prepared to mail eggs as soon as laid. Parcel postage is cheap, hence big returns await the egg shipper.

The Farmer's Friend Egg Carrier is made with patent lid fastener and equipped with handle as shown in cut.

Metal Egg Carriers

These carriers assure safe delivery of eggs no matter how far they are sent. Being made entirely of metal, they are very durable and will last for years with a little care. Yet they are light and compact and cost very little more to send by mail than the other cases. They are far more economical in the long run than the other styles of cases.

"ZENITH" LAMP BURNERS

A "No-Chimney" Burner for Incubators, Brooders, Fountain Heaters, etc. Perfect combustion without a chimney. When used with our lamp fount the No. 1 burner is suitable for a lamp box 7 inches high, and the No. 2 burner for a lamp box 9 inches high.

No. 1.....	\$0.50	No. 2.....	\$0.65
------------	--------	------------	--------

MOE'S HIGH GRADE RED FELT LAMP WICKS

A good wick is very important, especially when it is in continuous use as on a brooder or incubator lamp. Our wicks are special high grade red felt, and a big improvement over the old style loosely woven cotton wicks, which often get clogged in the burner shaft. No loose threads to burn uneven and smoke.

No.	Width	For Burner	Per Dozen
208	5/8 in.	No. 1	\$0.25
209	7/8 in.	No. 2	.45

MOE'S LAMP BOWLS

Heavy galvanized iron bowls or founts for Incubators, Brooders and Fountain Heaters. Made in three sizes. The two larger ones are strongly braced and reinforced on the inside, making the top and bottom perfectly rigid. No give or spring to the top which is a common fault with ordinary bowls.

- No. 100—Lamp Bowl. Diameter, 6 in. Height, 1 1/2 in. Has a side handle. Takes size 1 burner. This is the same bowl as used in our No. 10 Fountain Heater. Shipping weight, 2 lbs. **Each**\$0.50
- No. 101—Lamp Bowl. Diameter, 6 3/4 in. Height, 2 1/4 in. Takes size 2 burner and size 2 chimney. Shipping weight, 2 lbs. **Each**\$0.60
- No. 102—Lamp Bowl. Diameter, 8 in. Height, 2 3/4 in. Takes size 3 burner and size 3 chimney. Shipping weight, 2 lbs. **Each**\$0.75

METAL CHIMNEYS

For Incubators and Brooders. Made of galvanized sheet steel, with round mica window. The mica can be easily replaced if it should accidentally be broken. In three sizes.

- No. 108—Metal Chimney. Height, 6 in. Fits size 1 burner. **Each**\$0.25
- No. 103—Metal Chimney. Height, 6 in. Fits size 2 burner. **Each**\$0.25
- No. 104—Metal Chimney. Height, 6 in. Fits size 3 burner. **Each**\$0.25

CAPONIZING SETS

Many poultry raisers convert their surplus cockerels into extra profits by caponizing them. With our tools the operation is simple and safe. An instruction book "How to Caponize" given free with every set of caponizing tools.

- Simplex "Grip-Slot." **Postpaid**\$5.75
- Simplex "Thread-Thru." **Postpaid** 3.50

LITTLE PUTNAM STOVE

THE Little Putnam Stove is a marvel of simplicity and efficiency—built upon an entirely new principle in oil combustion. The combustion is complete and perfect, doubling the heat value of the oil. The tank holds three pints and **burns three to four weeks without refilling or any other attention.** The wick never needs trimming. The Little Putnam stove is eight inches in diameter and four inches high. It is made of galvanized iron and brass. With any kind of fair usage it will last for many years, paying for itself over and over again each year. **Postpaid**\$2.50

WRITE FOR SPRATT'S BOOK ON FEEDING

HOOKWORM REMEDY

In the last few years there has appeared a worse menace than distemper, namely the hook-worm. Owing to the fact that these worms are hard to discover and usually have done their damage when they are discovered, makes them doubly dangerous. They are the cause of the death of many puppies, not only directly but also indirectly, because they weaken the puppy and make death an easy job for distemper. We are fortunate in having been offered the free services of a true sportsman, dog-lover and a great pathologist in Dr. Walsh, formerly in the Department of Pathology at Washington University. Write or ask for Dr. Walsh's booklet entitled, "Treatment of the Hookworm disease in dogs." Tetrachlorethylene will remove both hook and round worms. It is a safe and effective anthelmintic.

TETRACHLORETHYLENE

For small puppies. 50c, \$1.00 and \$2.50—Postpaid.

For medium puppies and small dogs.

50c, \$1.00 and \$5.00—Postpaid.

For large dogs. 50c, \$1.00 and \$5.00—Postpaid.

Assorted larger sizes. 50c, \$1.00 and \$5.00—Postpaid.

MAGNESIUM SULPHATE

The proper physic to be used after giving Tetrachlorethylene. Do not use oils after using Tetrachlorethylene.

50c, \$1.00 and \$5.00—Postpaid.

TAPE-WORM TABLETS

These tablets are the best that we have ever used for removing tapeworms. They work in 30 minutes to one hour and get the tape-worm, head and all. No physic required. 75, \$3.00 and \$5.00—Postpaid.

SLICKER

For combing dead, matted hair, fleas, etc., from dog coat.

Each\$1.50

HORN WHISTLE

These whistles are made of buffalo horn and serve very well for hunting dogs that do not go wide. They are not as loud as the "Acme Thunderer" but many sportsmen like them because there is no danger of their freezing to one's lips in cold weather.

Buffalo horn whistle. Postpaid...\$0.75

"ACME THUNDERER" WHISTLE

We believe that the "Acme Thunderer" is the best whistle made. It is very loud and is easy to blow.

The "Acme Thunderer" can be heard at a great distance. Most professional field trial handlers use the "Acme Thunderer." If you have a wide-going dog or an independent hunter that gets lost, this is the best whistle to use. Owing to the fact that we import these whistles in large quantities, we can sell them at a reasonable price.

SPRATT'S FOODS FOR DOGS

"The Backbone of The Canine Race"

The dog constitution needs a dog diet. Table scraps—toothsome and tasty though they may be—are not only totally unsuitable for the physical requirements of the dog, but are more often than not a direct cause of unfitness. The conditions under which dogs are at present bred and reared make necessary a diet which will provide all the food elements contributing to the formation of bone and muscle, the building and storing up of energy, stamina and vitality, and which will assist to maintain the highly organized canine brain. For sixty years Spratt's have made dogs and their requirements the subject of continued observation and research, and today for every dog, old or young, healthy or sick, there is a Spratt's Food guaranteed to suit exactly his requirements. Throughout the world Spratt's Foods are today the diet of millions of the fittest dogs—the diet directly responsible for their alertness, cleanliness, health and good spirits.

Spratt's Fibo—A unique food containing a larger percentage of Spratt's world famous Meat-Fibrine. It is very appetizing and highly recommended for shy or dainty feeders. Can be given either dry or soaked. **Cartons, 40c; bags, 5 lbs., 90c; 10 lbs., \$1.70; 25 lbs., \$3.55; 50 lbs., \$6.85; 100 lbs., \$13.50.** By mail, add postage.

Spratt's Meat Fibrine Puppy Biscuits—A complete and perfect food for puppies from weaning time onwards, and for small breeds as the regular food instead of Spratt's larger Dog Cakes. **Cartons, 40c and 75c; bags, 5 lbs., 80c; 10 lbs., \$1.50; 25 lbs., \$3.20; 50 lbs., \$6.20; 100 lbs., \$12.25.** If wanted by mail, add postage.

Spratt's Plain Puppy Meal—The Standard Weaning Food. This meal should be used before, during and after the weaning period to insure large, vigorous and healthy puppies. Also an invaluable food for dogs of any age out of condition. **Cartons, 40c; 5 lbs., 70c; bags, 10 lbs., \$1.35; 25 lbs., \$3.05; 50 lbs., \$5.95; 100 lbs., \$11.75.** If wanted by mail, add postage.

Spratt's Meat Fibrine Dog Cakes—For 60 years the standard dog food, used by the leading breeders and fed at the principal dog shows throughout the world. The best results are obtained by giving the biscuit dry, not soaked, thereby compelling the dog to gnaw the food and thus producing a copious flow of saliva which materially aids digestion. **Cartons, 35c and 75c; bags, 5 lbs., 70c; 10 lbs., \$1.35; 25 lbs., \$3.05; 50 lbs., \$5.95; 100 lbs., \$11.75.** If wanted by mail, add postage.

Spratt's Rodnim—The twice-a-week change from hard biscuit. Rodnim can be given dry, soaked in water, broth or gravy, or mixed with boiled chopped green vegetables. A fine food for old dogs whose teeth are out of condition. **Bags, 5 lbs., 85c; 10 lbs., \$1.60; 25 lbs., \$3.45; 50 lbs., \$6.55; 100 lbs., \$12.90.** By mail, add postage.

Spratt's Oval (The Pocket Dog Biscuits)—A small Meat-Fibrine Dog Biscuit, suitable as a staple diet for small dogs and toys, and to be carried on a ramble with the dog. **Cartons, 40c; bags, 5 lbs., 80c; 10 lbs., \$1.50; 25 lbs., \$3.20; 50 lbs., \$6.20; 100 lbs., \$12.25.** By mail, add postage.

Write for Spratt's free book on "The Care and Feeding of Dogs."

Calcum

MAKES PUPPIES GROW STRONG AND HEALTHY.

A mineral compound fed to the matron before and after whelping supplying the essential element in milk which nature requires for the health of the mother and the rapid, vigorous growth of her offspring.

Calcum takes the place of green-bone food and prevents acid milk and rickets or softening of the bones.

Calcum is not a complete food in itself, but a small amount being used in conjunction with the regular food. **1 lb., 75c; 5 lbs., \$3.00.** By mail, add postage.

All prices subject to change without notice.

Planet Jr. Farm and Garden Implements

Carefully made of best materials. Save time, labor, money. Specialized tools made by Specialists.

No. 4 PLANET JR. COMBINED HILL and DRILL SEEDER and WHEEL HOE

Soon pays for itself in the family garden as well as in the larger acreage. Sows all garden seeds (in drills or in hills), plows, opens furrows and covers them, hoes and cultivates quickly and easily.

Complete, \$18.00.

No. 4D, Hill and Drill Seeder, same as above less the cultivating attachments. \$14.25.

No. 25 PLANET JR. COMBINED HILL and DRILL SEEDER, DOUBLE WHEEL HOE, CULTIVATOR AND PLOW

A favorite among market gardeners, onion-growers, or large gardeners. It is a perfect seeder and combined double and single wheel hoe. No. 25. Complete, \$21.50.

PLANET JR. No. 3 HILL AND DRILL SEEDER

A favorite among onion-growers, market gardeners. The hill dropping is simple and reliable, making hills either 4, 6, 8, 12 or 24 inches apart. 15-inch Steel Drive Wheel. Holds 3 Quarts of Seed. Weight packed, 44 lbs. \$17.50.

No. 11 PLANET JR. DOUBLE WHEEL HOE CULTIVATOR, PLOW and RAKE

A single and double wheel hoe in one. Straddles crops till 20 inches high, then works between. Has steel frames and 14-inch steel wheels. The greatest hand-cultivating tool in the world.

No. 11 Planet Jr. Cultivator. \$13.75.

No. 12 DOUBLE AND SINGLE WHEEL HOE

No. 12 Planet Jr. Double and Single Wheel Hoe is identical with No. 11, except that the 4½-in. hoe and the rakes are omitted from the equipment. \$10.75.

No. 13 PLANET JR. DOUBLE and SINGLE WHEEL HOE

No. 13 has same frame, wheels and handles as Nos. 11 and 12, but has for equipment one pair of 6-inch hoes only, the most useful of the cultivating attachments, and all that some onion-growers and others want. \$8.00.

No. 17 PLANET JR. SINGLE WHEEL HOE

These Single Wheel Hoes have steel frames and 15-inch steel wheels. \$7.75.

Garden Implements—Continued

Give years of satisfactory service after moderate cost is forgotten. Cheapest in the long run.

No. 19 GARDEN PLOW AND CULTIVATOR

A very useful tool, particularly made for those who prefer a high wheel garden tool. Where the ground is somewhat rough, or not very well prepared, this 24-inch wheel hoe will run easily. The fine assortment of cultivating attachments will do any of your cultivating, plowing, hilling, etc.

Equipment: 1 1 1/4 - inch cultivating tooth; 1 4 - inch cultivating tooth; 1 garden plow; 1 reversible combination 24-inch steel wheel. \$4.75

No. 35 PLANET JR. SEEDER ATTACHMENT

For Wheel Hoes and Garden Plows

Ever since the wheel hoe replaced the hand hoe in the kitchen garden there has been an insistent demand for a small seeder. The seeding attachment shown here can be attached to any Planet Jr. Single or Double Wheel Hoe or Garden Plow. Remember this attachment does not replace our regular line of seeders—it is intended for the small kitchen garden where the rows are usually short—not large enough to warrant the purchase of a complete seeder. It is just as accurate as the larger models and change from one seed to another is made in a few minutes. Everyone raising his own table vegetables should have this attachment. \$6.50

STAR PULVERIZER, CULTIVATOR AND WEEDER

This new type of the Star Pulverizer has one row of star discs and an oscillating blade. The star discs break up the ground and the oscillating blade pulverizes it, at the same time cutting off the weeds directly beneath the surface. Useful in flower gardens or anywhere where plants are close. It cuts a width of eight inches. The curved handle makes it easy to handle. \$3.25

PLANET JR. JUVENILE WHEEL HOE

Patterned after the regular Planet Jr. Single Wheel Hoe, this tool is made for and will prove very attractive to those boys and girls who have a natural inclination to imitate their parents in the garden. Equipment consists of 3 narrow cultivator teeth. Tool is made of the best material, and is up to Planet Jr. quality in every way. It will instill in the youngster that spirit of industry that is so useful and will build up healthful and sturdy constitutions. \$2.50

Planet Jr. Tools Are the Standard of the World

FIREFLY GARDEN PLOW

Exceedingly useful to owners of small gardens, throwing a furrow four to six inches wide and one to three inches deep. This tool will enable a busy man to do all his garden work in a few minutes. Fine for scratching up the chicken yard. \$4.25.

No. 82—Garden Weeder

CYCLONE SEED SOWERS

The material used in the construction of the Cyclone is of the best throughout. The machine is practically and mechanically built. The hopper or sack has a capacity of $\frac{1}{2}$ bushel. It sows, with ease to the operator, all varieties of grain and grass seed, perfectly even.

Each, \$2.00; Postpaid, \$2.15.

LIGHTNING TIN HORN SEED SOWER

Has long tin sectional tube, having sack attached; also has adjustable feed for different grains and quantities. Suitable for small seeds only. Will spread seed evenly from 30 to 40 feet. Method of sowing is by swinging tube in horizontal position from right to left, which closely resembles the old method by hand.

Each, \$1.00; Postpaid, \$1.10.

CAHOON'S BROADCAST SOWER

The breadth of the cast will be according to the weight of the seed. Wheat and Rye, 30 to 36 feet. Oats, 21 to 25 feet. Barley, 27 to 33. Clover, Millet, Hungarian Seed, 20 to 24 feet. Hemp, 27 to 30 feet. Timothy, 15 to 18 feet. Each, \$4.00; Postpaid, \$4.25.

"PHILADELPHIA" LAWN MOWER

STYLE "A" ALL STEEL—Philadelphia Lawn Mower is practically indestructible. It is made by the best mechanics in the oldest lawn mower factory in the world. Every part is mechanically perfect. Style "A" is a light-running mower with all unnecessary weight eliminated. Roller bearings assure you of even wear all around. Cylinder with 4 blades; driving wheel, 10 inches; diameter of cylinder, 6 $\frac{1}{2}$ inches; train of 3 gears on one side. Double ratchet.

Each, 17-inch, \$27.50; 19-inch, \$28.75; 21-inch, \$30.00.

DEWEY—The Dewey is made in the same factory by the same experts that make the Philadelphia Style "A" Mower. The Dewey will give excellent service and is a good value at the price offered. Cylinder with 4 blades; driving wheel, 8 inches; diameter of cylinder, 5 $\frac{1}{4}$ inches, single pinion; geared both sides.

Each, 12-inch, \$11.50; 14-inch, \$12.00; 16-inch, \$12.50.

GRASS CATCHER—Heavy gauge galvanized wire frame, covered with extra quality 8-oz. green and white striped canvas sides and back.

Each, 14 to 16-inch, \$1.50; 18 to 20-inch, \$2.00.

Cahoon Seeder

"PHILADELPHIA" LAWN TRIMMER

LAWN TRIMMER—Will cut smoothly to $\frac{1}{4}$ inch of wall, making use of shears unnecessary. Built for durability and service. Cylinder with 4 blades. Driving wheel, 8 inches. Diameter of cylinder, 5 $\frac{1}{4}$ inches.

Each, 6-inch, \$9.50.

PENNSYLVANIA ROTARY LAWN RAKE

This is virtually a revolving lawn comb, having flexible steel wire teeth which go between the blades of grass and comb out all dead grass, crab grass, leaves, sticks and other rubbish. It leaves the grass standing upright. It has a dumpable collecting box. One man can do more work than four with rakes.

(Weight, packed for shipment, 90 lbs.)

Each 24-inch machine, \$35.00.

Dunham Lawn Rollers

Every lawn needs a lawn roller. Lawns should be rolled frequently, especially in the spring of the year, at which time the grass is often raised out of the soil due to alternate thawing and freezing. This leaves the roots exposed and by rolling frequently the soil will be packed firm. Rolling the lawn helps the ground retain moisture, preventing the roots from growing upward and being killed by the hot rays of the summer sun.

No.	Diam. Inches	Length Inches	Sections	Approx. Wt. Empty	Filled with Water	Each
5	18	24	1	85 lbs.	265 lbs.	\$20.00
7	24	24	1	110 lbs.	420 lbs.	23.00
9	24	32	1	130 lbs.	565 lbs.	26.00

RUBBER PLANT SPRINKLERS

PLANT SPRINKLERS—Made of the best rubber. Used for spraying house-plants, sprinkling clothes, etc. **\$1.50.**

PUTTY BULB—The best for distributing putty. Used by a large number of leading florists. **Each, \$1.50.**

LAWN SPRINKLERS

ELGIN SPRINKLERS—Each year meets with a greater sale of these. Has iron stand which will slide over the grass. Nothing to get out of order. **\$1.25.**

SAUCER SPRINKLER—An all brass springler with iron base. **75c.**

LAWN AND GARDEN HOSE

We make a specialty of the very best lawn and garden hose. We do not handle a wrapped hose; only the best moulded hose is worth buying. The moulded hose will last for years after cheap wrapped hose is worn out. **½-inch, 13c foot; ¾-inch, 16c foot.**

Elgin Sprinkler

HOSE MENDERS

"PERFECT CLINCHING" HOSE MENDER—The best mender on the market. Easy to put on and no danger of leaking.

½-inch, ¾-inch and 1-inch, 10c each; \$1.00 per dozen

"PERFECT CLINCHING" HOSE COUPLING—A self-fastening coupling that does not require extra bands, bolts or wires.

½-inch, ¾-inch and 1-inch, 25c each.

RUBBER HOSE WASHERS—¾-inch, dozen, 5c; 1-inch, dozen, 10c.

PATENTED 1910
Perfect

Cedar-Tree Tubs

CEDAR TREE TUBS

Made of the very choicest seasoned cedar, highly finished with black hoops; will last as long as cypress tubs.

Sprayers That Spray

SPRAY YOUR ORCHARD AND SAVE YOUR FRUIT

THE many advantages due to proper spraying are so numerous that they cannot be told here. Everybody knows that in the garden, the orchard and the poultry house, spraying returns a profit that far exceeds any on so small an investment and short time necessary to spray. Bigger crops and better fruit are one of the few results, and by producing such crops you can expect to make your orchard pay.

We can supply you with any kind of a sprayer from the small tin atomizer to the large barrel spray. Let us know your needs in the sprayer line and we are sure that we can supply you with what you need.

MYERS' COMPRESSED AIR SPRAYER

An extra heavy material chamber with a 1 3/4-inch brass tube cylinder attached to the can by means of a heavy brass screw nut. The handle is D-shaped and large enough to be operated by anyone in perfect comfort. By means of a small lever the spray can be adjusted from a broad fine spray to a heavy single stream. The valve is made of a pliable rubber disk supported by a metal plate held in position by a brass coil spring and brass spring on which it operates.

No. 296. Galvanized\$6.50
No. 297. Brass 9.50
Extra 34-in. pipe extension..... .40

PERFECTION SPRAYERS

A COMPRESSED AIR SPRAYER that is riveted. An extra strong sprayer. The automatic shut-off nozzle is built for high pressure work. Four-gallon capacity.

Galvanized\$6.50 Brass\$9.50

JUNIOR PERFECTION—A small compressed air sprayer of the "Perfection" type. The capacity is 2 1/2 gallons and owing to the fact that it is not so heavy, it is a great favorite among the ladies.

\$4.75; postpaid, \$5.00.

PRIZE BUCKET PUMP

Double acting, works on both up and down stroke and throws a continuous stream. Can be used with any ordinary pail or bucket. Pump has seamless brass body cylinder, heavy brass plunger, brass ball valves, is equipped with an Acme nozzle, 3 1/2 feet of rubber spray hose and strainer on bottom to prevent clogging.

\$4.00; by mail, \$4.25.

Perfect Success

Prize Bucket Pump

DEMING'S PERFECT SUCCESS

Has brass ball air chamber to cushion the stream, giving it uniform pressure. Working parts same as Prize bucket spray. Can be fastened to bucket and entire outfit carried from place to place. Comes with 4 feet 3/4-inch discharge hose and Bordeaux nozzle. \$7.00; by mail, \$7.25.

DEMING'S CENTURY BARREL PUMP

The "Century" is proof against corrosion, as all working parts are brass; is so substantially constructed as to be practically exempt from breakage; is easy to operate and a fine buy for the orchardist. Universal Iron Base—adjustable to any size or depth of barrel—fits the flat head or curved side of barrel. This, with foot lug, keeps pump absolutely rigid during operation. Base fits 7x10-inch hole. Four hook-bolts with large thumb nuts attach base to barrel head. The cylinder has a 4-inch stroke and is always submerged and primed. Plunger has a special fabric packing, chemically treated. Solid bronze valves and bronze valve seats. By removing four bolts, both suction and discharge valves may be taken out for examination and repairs. Twin paddle type agitator. Brass discharge "Y" for two leads of hose. \$18.50.

MYERS' PORTABLE SPRAYER R-336B

Made of extra heavy galvanized iron. Capacity, 12½ gallons. Pump has patented cog-gear handles. The valves are brass ball with a brass seat. The dasher agitator keeps the material stirred.

This sprayer comes with 15 ft. ½ in. 5-ply discharge hose, 8 ft. extension and Vermorel nozzle. An excellent all-around pump and is especially handy where turning in narrow places is necessary. Each\$25.00

MYERS' BARREL SPRAYER No. 305B

The entire pump sets inside the barrel containing the liquid, being bolted fast at its upper end to the barrel staves. The working parts are entirely submerged in the liquid, avoiding all possibilities of losing priming.

This pump has bronze ball valves and brass seats; the plunger is brass, fitted with hemp packing. Will handle hot, cold or any caustic mixture. The

cylinder and discharge pipes are all brass. The air chamber is 30 inches in length, enabling the pump to throw a uniform and elastic spray.

It has a good leverage, is very powerful and easily operated. Complete, with one lead of 15 ft. 5-ply discharge hose, graduating Vermorel nozzle and mechanical agitator.

Each\$14.00

NEW MISTY

The popular tin atomizer designed for insecticides, disinfectants. Especially useful for the small garden and the flower garden, or for house plants.

HOUSE WITH CARBOLA

Fertilizers

For Lawn, Garden, Field—A Necessity To All Growing Plants

BONE MEAL—For top dressing for lawns, pastures and meadows; also for use in the vineyard and about fruit trees and bushes. It carries ammonia and phosphoric acid. Use 400 to 600 lbs. per acre.

10 lbs., 65c; 25 lbs., \$1.50; 50 lbs., \$2.50; 125 lbs., \$5.00.
FLOYD'S ODORLESS—After the soil has been thoroughly worked, broadcast one to one and one-half pounds Plant Food to the square yard and rake into soil. 10-lb. bags, 50c; 25-lb. bags, \$1.00; 50-lb. bags, \$1.75; 100-lb. bags, \$3.00.

HYDRATED LIME—Hydrated lime used for top dressing on lawns and mixing soil for potting plants. 50 lbs. to cover 1,000 square feet.

10 lbs., 45c; 50-lb. bags, \$1.00.

HUMUS—An excellent article to incorporate with poor soil in the garden, greenhouse or in potting plants. When used in garden work, the ground should be covered with $\frac{1}{2}$ to 2 inches of Humus and spaded in. For lawns cover $\frac{1}{2}$ inch thick. 50 lbs., 90c; 100 lbs., \$1.50.

NITRATE OF SODA—Carries nothing but nitrogen (ammonia)—no phosphoric acid or potash. It is highly stimulating. On grass or other vegetation it is visible in a few days after application.

Lb., 15c; 10 lbs., \$1.00; 50 lbs., \$3.00.

PLANT JOY—It will make weak plants strong and make healthy plants have brighter flowers and prolong the period of blooming. Small size, 25c; large size, 50c.

PULVERIZED LIMESTONE—As a crop-producer, we hardly believe it has an equal. It is made from the purest crystalline white limestone obtainable. Bags of 100 lbs., \$1.50.

PULVERIZED SHEEP MANURE—As a top dressing for lawns there is nothing better. Promotes a steady and rapid growth in the vegetable garden. For garden and field crops, 1 to 2 tons per acre—Fall or early Spring. For lawns, use 100 lbs. to 1,500 sq. ft. For Mixing Potting Soil, use 1 qt. to 20 qts. of earth. 5 lbs., 30c; 10 lbs., 50c; 25 lbs., \$1.00; 50 lbs., \$1.65; 100 lbs., \$2.90.

VIGORO

Use Vigoro on lawns, flowers, shrubbery, trees, and in the vegetable garden. It will give new life to your plants. Vigoro is a scientifically prepared plantfood, clean, odorless and easy to apply. 100 lbs. cover 25x100 ft.

5 lbs., 50c; 25 lbs., \$1.75; 50 lbs. \$3.00;
 100 lbs., \$5.00.

GRANULATED PEAT MOSS—Is used with good results in flower and vegetable beds, around bush fruits, vines, shrubs, hedges and under fruit and ornamental trees. Peat Moss stimulates the development of roots of all plants, which results in a quickened growth, because of the improved water and air supply. Highly recommended for top dressing on lawns as its use guarantees a soil that is light and friable, has good drainage and will not crust or bake after watering. Large Bale (covers 240 square feet one inch deep), \$4.50.

Insecticides and Fungicides

Goods marked * can be mailed at buyer's expense. Goods not marked cannot be mailed.

***APHIS PUNK** (40 Per Cent Strength, for Fumigating)—Specially prepared for Greenhouses and Conservatories. It vaporizes the nicotine economically and evenly.

Box of 12 rolls, 80c; 1 case 12 boxes, \$7.50.

ARSENATE OF LEAD POWDER—The best known and most extensively used stomach poison for insects. It is safe to use on most plants. For general use, 1 pound to 50 gallons of water, or 3 teaspoonfuls to 1 gallon of water. $\frac{1}{2}$ lb., 30c; 1 lb., 50c; 4 lbs., \$1.60; 12 lbs., \$4.50; 24 lbs., \$8.40; 48 lbs., \$16.00; 96 lbs., \$31.00.

BORDEAUX MIXTURE POWDER (Fungi-Bordo)—For blight, mildew, rust and fungus diseases. For ordinary use it takes 6 pounds to 50 gallons of water.

1 lb., 35c; 4 lbs., \$1.50; 25 lbs., \$7.00; 50 lbs., \$13.00; 100 lbs., \$25.00.

***FISH OIL SOAP**—Used as a wash during the summer to prevent spread of scale. Destroys sucking insects and plant lice. $\frac{1}{4}$ lb., 10c; $\frac{1}{2}$ lb., 20c; 1 lb., 35c.

***FLOWERS OF SULPHUR**—Used to check mildew and fungus diseases. 1 lb., 15c; 10 lbs., \$1.25; 25 lbs., \$2.50.

***GARDITE**—A powder that is applied when dew is on the leaves. Used for cabbage worms, cucumbers, and all garden truck. 1 lb., 15c; 5 lbs. 60c.

***GRAPE DUST** (Hammond's)—Used as a dust to check mildew, dry rot and other fungi. 5 lbs., 75c.

***GRAFTING WAX**—Used for grafting. Also good to rub over any wounds that are made on the bark or in pruning. $\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 40c.

***HELLEBORE**—Used for worms on currants and gooseberries. Use 1 ounce, to 1 gallon of water.

$\frac{1}{4}$ lb., 25c; $\frac{1}{2}$ lb., 40c; 1 lb., 75c.

***LIME SULPHUR POWDER**—Used as a dormant spray against scale insects. Use 10 to 12 pounds to 50 gallons of water. 1 lb., 35c; 5 lbs., \$1.50; 10 lbs., \$2.75.

LIME SULPHUR (Liquid)—Has same effect as the powder. Dilute with 10 parts of water. For summer spray dilute with 40 parts of water.

Qt., 50c; $\frac{1}{2}$ gal., 75c; gal., \$1.00; 5 gals., \$4.00.

NIKOTEEN (30%)—An economical and powerful nicotine extract. Death to Aphis or Green Fly, Spider, Mealy Bug, Thrip and many other forms of flower, fruit and vegetable lice. Small bottles, 30c and 50c; $\frac{1}{2}$ lb., \$1.25; 1 lb., \$2.25; (40% strength) 4 lbs., \$7.00; 8 lbs., \$13.00.

PARIS GREEN—Paris Green is a strong and best known poison for potato bugs.

$\frac{1}{4}$ lb., 15c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c; 2 lbs., 85c; 5 lbs., \$2.00.

SCALECIDE—A dormant spray for scale.

1 qt., 75c; 1 gal., \$1.75; 5 gals., \$6.25; 10 gals., \$10.60.

***SLUGSHOT**—Thoroughly reliable in killing currant worms, potato bugs, cabbage worms, chicken lice, slugs, sow bugs, etc. Cartons, 20c; 5 lbs., 75c.

SULFOCIDE—A summer spray for scale.

1 pt., 70c; 1 qt., \$1.00; 1 gal., \$2.75; 5 gals., \$8.75.

SUNOCO SPRAY OIL—A dormant spray for scale, aphid, pear psylla, etc.

1 gal., \$1.25; 5 gals., \$5.00; 15 gals., \$10.50.

TOBACCO DUST—For aphid. 100 lbs., \$5.00.

***TREE PAINT** (Pine Tar)—For painting on wounds after pruning. 1 pt., 30c; 1 qt., 50c; 1 gal., \$1.75.

***TREE TANGLEFOOT** (Caterpillar Paste)—A sticky substance spread around the bark of trees to prevent creeping insects from climbing up the tree.

1 lb. can, 50c; 5 lbs., \$2.35; 10 lbs., \$4.50; 20 lbs., \$8.75.

WEED KILLER (Hammond's)—Kills weeds in gutters, roads, paths, tennis courts, etc. Will not discolor cement. Easier and less expensive than hoeing and digging. Use 1 part Weed Killer to 50 parts of water. 1 qt., 70c; 1 gal., \$1.75; 5 gals., \$7.00; 10 gals., \$13.00; 30 gals., \$33.00.

ST. LOUIS SEED COMPANY'S CALENDAR FOR
SEED PLANTERS IN THE LATITUDE OF ST. LOUIS

JANUARY—Sow in Hotbed—Early Beet, Early Cabbage, Forcing Carrot, Cauliflower, Early Lettuce, Early Onions, Radish.

FEBRUARY—Sow in Hotbed—Early Beet, Brocoli, Early Cabbage, Forcing Carrot, Cauliflower, Celery, Cucumber, Egg Plant, Early Lettuce, Parsley, Pepper, Early Onions, Radish, Tomato.

MARCH—Sow in Hotbed—Early Beet, Early Cabbage, Forcing Carrot, Cauliflower, Celery, Cucumber, Egg Plant, Kohl Rabi, Melon, Parsley, Pepper, Onions, Radish, Tomato, Herbs. Sow in Open Ground—Beans, Beets, Cabbage, Cauliflower, Celery, Carrot, Cress, Leek, Lettuce, Onions, Parsnip, Peas, Potatoes, Radish, Spinach, Early Turnip, Onion Sets.

APRIL—Sow in Hotbed—Cucumber, Egg Plant, Melon, Pepper, Tomato. Sow in Open Ground—Asparagus, Beans, Beets, Cabbage, Carrots, Cauliflower, Celery, Sweet Corn, Cucumber, Cress, Endive, Kale, Kohl Rabi, Leek, Lettuce, Melons, Onions, Parsley, Parsnips, Peas, Potatoes, Radish, Rhubarb, Salsify, Spinach, Tomato, Turnip, Sage, Herbs, Onion Sets.

MAY—Sow in Open Ground—English Beans, Pole Beans, Bush Beans, Beets, Brussels Sprouts, Cabbage, Carrot, Celery, Sweet Corn, Cress, Cucumber, Endive, Kale, Kohl Rabi, Leek, Lettuce, Melon, Okra, Onion, Parsley, Parsnip, Peas, Potatoes, Pumpkin, Radish, Salsify, Spinach, Squash, Tomato, Turnip, Herbs.

JUNE—Sow in Open Ground—Bush Beans, Lima Beans, Pole Beans, Beet, Carrot, Cabbage, Sweet Corn, Cress, Cucumber, Endive, Kale, Kohl Rabi, Lettuce, Melon, Okra, Peas, Potatoes, Pumpkin, Radish, Spinach, Squash, Turnip, Rutabaga.

JULY—Sow in Open Ground—Bush Beans, Beet, Carrot, Sweet Corn, Corn Salad, Cress, Cucumber, Endive, Gherkin, Kale, Kohl Rabi, Lettuce, Okra, Pumpkin, Radish, Spinach, Squash, Turnip, Rutabaga.

AUGUST—Sow in Open Ground—Bush Beans, Corn Salad, Cucumber, Endive, Lettuce, Early Peas, Radish, Spinach, Squash, Turnip. Plant—Winter Onions.

SEPTEMBER—Sow in Open Ground—Corn Salad, Cress, Kale, Lettuce, Mustard, Winter Radish, Spinach, Turnip. Plant—Winter Onions. Write for St. L. S. Co.'s Bulb Catalogue.

OCTOBER—Sow in Open Ground—Corn Salad, Cress, Kale, Lettuce, Mustard, Spinach. Plant—Hyacinth, Tulips, Narcissus and other Dutch Bulbs in open ground, pots or glasses.

NOVEMBER—Plant Hyacinth, Tulips, Narcissus and other Dutch Bulbs in open ground, pots or glasses.
